29 May 2026

NZX | ASX | MEDIA RELEASE  
TOURISM HOLDINGS LIMITED (*thl*)

## THL RECEIVES REVISED NON-BINDING INDICATION OF INTEREST FOR THE ACQUISITION OF THL

Tourism Holdings Limited (NZX:THL, ASX:THL, "*thl*" or "the Company") advises that on the evening of 28 May 2026, it received a revised unsolicited, conditional, non-binding indication of interest (**Revised NBIO**) from a special purpose vehicle representing a consortium of BGH Capital (**BGH**) and the family interests of Luke and Karl Trouchet (the **Consortium**) for the acquisition of *thl*. The Consortium currently holds approximately 19.9% of the shares in *thl*.

The Revised NBIO refers to an indicative all-cash offer of NZ\$3.10 per share.

It is subject to a number of conditions including the satisfactory completion of due diligence, finalisation of debt arrangements, and BGH receiving final approval from its Investment Review Committee to submit a binding proposal. It is also conditional on *thl*'s Board unanimously recommending shareholders accept the proposal, in the absence of a superior proposal and subject to an independent adviser concluding that the proposal is within or above the independent adviser's valuation range for *thl* shares.

The Company has been advised by shareholders holding approximately 16% of the Company's shares that they are supportive of *thl* engaging with the Consortium and granting it due diligence access.

The Board will act in what it considers to be the best interests of the Company and all its shareholders, including assessing the merits of this Revised NBIO and whether to engage further with the Consortium (including as to whether to grant due diligence access).

The Revised NBIO is expressed to expire at 5:00pm (NZT) on 12 June 2026 if *thl* has not responded by then.

There is no certainty that the Revised NBIO will result in a transaction. *thl* shareholders do not need to take any action at this time in relation to the Revised NBIO. The *thl* Board will continue to keep shareholders and the market informed of material developments.

ENDS
