

Nyapiri Macro Awarded First Work Package Instruction Under BHP Framework Agreement

Highlights

- ▶ First Work Package Instruction awarded to Nyapiri Macro Mining Pty Ltd under the BHP Framework Agreement announced on 2 February 2026
- ▶ Scope of works includes site establishment, temporary facilities, civil earthworks and rehabilitation works at BHP's Mt Goldsworthy between June 2026 and May 2027
- ▶ Contract value of \$12.52 million
- ▶ Establishes Nyapiri Macro as a Tier-1 Indigenous mining services contractor in the Pilbara

Macro Metals Limited (ASX:M4M) (**Macro** or the **Company**) is pleased to announce that BHP Iron Ore Pty Ltd (**BHP**) has awarded Nyapiri Macro Mining Pty Ltd (**Nyapiri Macro**), its first Work Package Instruction (**WPI**) by BHP Iron Ore Pty Ltd (**BHP**) under the BHP Framework Agreement¹ (**BHP Agreement**).

Nyapiri Macro is a majority Indigenous-owned mining services contractor, owned by Nyapiri Holdings Pty Ltd, a Kariyarra, Ngarla and Nyamal Traditional Owner business and Macro Mining Services Pty Ltd (**Macro Mining Services**), a wholly owned subsidiary of Macro, with Macro Mining Services providing safety, management and operational capability.

¹ Refer to ASX announcement Nyapiri Macro Mining executes framework agreement with BHP dated 2 February 2026

Nyapiri Macro Director, Francisco Brown, said:

“This work package is an important step for Nyapiri Macro. Not only does it represent our first opportunity to provide mining services to a Tier 1 company on-Country, but it also enables us to offer local Indigenous employment and contracting opportunities that will be meaningful for our people and our community.

I am very grateful to the Macro Mining Services team for their leadership and support since we established our business together and am proud to be working alongside them and BHP to deliver this package of works safely and in a manner that is respectful to Country.”

Scope of Work

The scope of work (**SOW**) to be executed under the WPI requires Nyapiri Macro to perform site establishment activities as well as civil earthworks, maintenance and rehabilitation works at Mt Goldsworthy to facilitate a non-production related program of works by BHP.

Resourcing

To execute the SOW, Nyapiri Macro will mobilise heavy mobile equipment, including an excavator, dozer, grader and loader, along with ancillary equipment, as well as a skilled team comprising project management, supervisors, safety advisors and operators to deliver the works in accordance with BHP’s safety, environmental and operational standards over a period of approximately 11 months on site.

Indigenous engagement and local participation

Nyapiri Macro has developed an Aboriginal Engagement Plan for the Mt Goldsworthy program, outlining its approach to cultural heritage protection and the delivery of employment, training and procurement opportunities for Traditional Owners and local Aboriginal businesses.

In addition, representatives from the Ngarla People will be on-Country for the duration of the works, providing heritage and cultural oversight of ground disturbing works.

Strategic Significance

The award of this WPI represents a material milestone for both Macro and Nyapiri Macro as it:

- is the first WPI to be awarded and executed under the BHP Agreement
- provides immediate revenue for both Nyapiri Macro and Macro Mining Services with work and invoicing under the WPI having just commenced
- demonstrates Macro Mining Services and Nyapiri Macro’s capability as mining services contractors to a Tier 1 Pilbara iron ore producer
- supports the Company’s Indigenous partnership model through work delivered on-Country
- establishes a performance foundation for future WPIs to be issued under the BHP Agreement

Macro’s Managing Director, Simon Rushton said:

“I genuinely appreciate the opportunity to deliver this first work package under the BHP Framework Agreement. Our team has worked closely with BHP through a highly constructive and collaborative process over the past 12 months to reach this milestone and we are very much looking forward to executing our first material mining services contract to a Tier 1 client in the Pilbara.

With ISO:9001, ISO:14001 and ISO:45001 certification now in place across the entire Macro group of companies, we are focused on safely delivering the Scope of Work at Mt Goldsworthy.

"I look forward to successfully executing these works and establishing the strongest possible foundation for the award of future mining services work across the Pilbara, for both Macro Mining Services and its majority Indigenous-owned businesses."

This announcement has been authorised for release by the Board of Directors.

About Macro Metals Limited

Macro is a diversified exploration, project development, mining and mining services company focused on delivering shareholder value through the economic development of natural resource assets and the provision of fit-for-purpose mining services.

The Company holds a portfolio of iron ore, manganese and construction material assets and is advancing these through targeted exploration and project development programs.

Through its wholly owned subsidiary, Macro Mining Services Pty Ltd, the Company provides mining services across multiple commodities, including mining, crushing and screening, processing, haulage, materials handling and rehabilitation.

About Nyapiri Macro Mining

Nyapiri Macro is a majority Indigenous-owned mining services contractor, owned by Nyapiri Holdings Pty Ltd, a Kariyarra, Ngarla and Nyamal Traditional Owner business and Macro Mining Services Pty Ltd, a wholly owned subsidiary of Macro Metals Limited.

Macro Mining Services acts as the capability partner, contributing technical expertise, operational systems and governance to support safe and reliable delivery in the Pilbara mining and civil environment.

Nyapiri Macro operates in partnership with Traditional Owners, embedding cultural knowledge and local engagement into project delivery, with a focus on building long-term capability, employment and contracting opportunities.

Health, Safety, Environment, Quality and Training

Health, Safety, Environment, Quality and Training (**HSEQT**) underpin Nyapiri Macro's delivery of the Mt Goldsworthy WPI.

Nyapiri Macro operates under Macro's ISO-certified management system (ISO 9001, ISO 14001 and ISO 45001), which is embedded into planning, supervision and execution of works to support safe, compliant and reliable delivery.

Safety leadership, defined accountabilities and structured field engagement are used to identify and manage risks early, with continuous improvement supported through audits, workforce feedback and incident review processes.

This approach aligns with the operational and safety standards expected by Tier-1 mining clients.
