

\$5 million raised to fund path to cashflow break-even and continued core testing growth

Not for release to U.S. wire services or distribution in the United States

Key Highlights

- \$5.0 million placement secured at \$0.05 per share, supported by existing and new institutional and sophisticated investors (**Placement**)
- Major strategic partner and shareholder, Sonic Healthcare Limited (ASX: SHL), is investing \$1.5 million as part of the Placement
- The Placement combined with streamlined and AI enhanced operations delivers the path to whole company cashflow break-even
- Core testing growth momentum continues – 11 consecutive quarters of core testing sales growth and 106% growth in last 12 months core testing sales, increasingly driven by enterprise-style healthcare clinic contracts
- A new category-defining testing product is on track to launch in Q3 CY26, a catalyst for the next phase of Diagnostics growth
- Eligible shareholders can apply for up to \$30,000 of new shares under the \$1.0 million Share Purchase Plan (**SPP**) at the same \$0.05 offer price
- For every one (1) New Share subscribed for by all participants under the Placement and SPP, Microba will issue one (1) attaching unlisted option (**Attaching Options**), exercisable at \$0.0625 and expiring three years from the date of issue, subject to shareholder approval.

Overview of Capital Raise

Microba Life Sciences Limited (ASX: MAP) (Microba or the Company) is pleased to announce that it has successfully secured commitments for its Placement which received strong demand from existing and new institutional and sophisticated investors. Microba will issue 100,004,240 new fully paid ordinary shares (**New Shares**) at an issue price of \$0.05 per share to raise \$5.0 million (before costs) via a two-tranche Placement.

Microba will also offer a share purchase plan (**SPP**) to raise up to an additional \$1.0 million on the same terms as the Placement. The SPP will be offered to eligible shareholders in Australia and New Zealand who are on Microba's shareholder register on 11 June 2026 (**Record Date**) for up to \$30,000 of New Shares (**SPP**) which will be subject to shareholder approval at an extraordinary general meeting expected to be convened on Friday, 24 July 2026 (**General Meeting**).

Both the Placement and SPP have an offer price of \$0.05 (**Offer Price**) per New Share, which represents a:

- 20.6% discount to the last close price of \$0.063 on Tuesday, 2 June 2026; and a

- 25.3% discount to the 5-day VWAP of \$0.067.

Participants in both the Placement and SPP will receive one (1) free attaching option for every one (1) New Share subscribed, exercisable at \$0.0625 and expiring three (3) years from the date of the issue (**Attaching Options**).

All Attaching Options will be issued subject to shareholder approval at the General Meeting for the purpose of ASX Listing Rule 7.1. The Attaching Options will be unlisted.

The terms of issue of the Attaching Options are contained in **Annexure A** to this ASX Announcement.

Proceeds raised under the Placement will be used to fund Microba's path to break-even. More specifically, the proceeds of the Placement will be used to:

- Deliver core diagnostics growth across Australia and the UK;
- Delivery of a category-defining new testing product;
- Strengthening working capital; and
- Costs of the Offer

Proceeds raised under the SPP will be used for working capital requirements.

Path to Cashflow Break-even

The Placement plus streamlined, AI efficient operations is forecast to deliver break-even for the whole company in CY2027 on a run rate basis.

Delivering break-even is built on infrastructure which is already in place:

- Sales & marketing efficiencies – reducing customer acquisition cost from AI-supported customer targeting and marketing, a unified global brand, automated lifecycle marketing and self-serve sign up
- Cost reductions & operational efficiencies – AI automation across customer support, HR, legal and finance structurally lowers cost to serve as Microba scales
- Engineering, science & product efficiency – major new product build about to complete. In addition, AI-supported product, evidence and software development systems cut engineering and product cost per release
- Sales growth & margin expansion – rising volume on a fixed cost base, with margin expansion from pricing power, scaling economics and operational efficiency

Delivering break-even from a current monthly cash burn of approximately \$1.3m includes:

- A ~\$700,000 reduction from streamlined operations with cost reductions and multiple leveraged AI-efficiencies
- A ~\$600,000 increase a month through revenue and margin growth, leveraging a fixed cost base.

Continuing Growth Momentum in Core Testing

Microba continues to grow strongly:

- 11 consecutive quarters of total core testing sales growth
- 106% Growth in Last 12 months Core Testing Sales (latest 4 quarters vs prior 4)
- Growing adoption in Australia, increasingly driven by enterprise-style healthcare clinic contracts
- Growth in the United Kingdom continues to outperform Australia at the equivalent time post-launch, leveraging the acquired Invivo base

- In Q3 CY26, Microba is set to launch a new category defining product which is a catalyst for the next phase of Diagnostics growth with mainstream medical professionals

Therapeutics Primed to Partner

- Microba's Therapeutics platform and asset portfolio is world-class (including Phase 2-ready MAP 315) and is ready to transact and advance. Following recent positive clinical trial readouts for the sector, the Therapeutics division is active in a partnering process with a Boston-based specialist advisor.

Pasquale Rombola, Chair of Microba commented:

"This funding positions us to achieve group cashflow break-even on a run-rate basis in 2027 whilst continuing to accelerate core Diagnostics growth, delivery of a major new test release in Q3 CY26, and progress to partner our Therapeutic assets. We are building a category-defining company with world-leading technology to transform the lives of millions of patients suffering from gastrointestinal disorders".

Recent corporate interest validates company value

- Following an approach to Microba by a UK-based Private Equity fund, and after extensive due diligence, the company agreed terms on an in-principle basis and subject to a number of conditions precedent (which included shareholder approval) for the divestment of Microba's Diagnostics and Supplements businesses.
- The consideration would have exceeded the market capitalisation of Microba¹.
- When the final deal structure was no longer in the best interest of shareholders, Microba chose not to proceed.

Placement Details

New Shares to be issued under the Placement will rank equally in all respects with existing fully paid ordinary shares and will be issued in two tranches as follows:

- The first tranche of the Placement (**Tranche 1 Placement**) will result in the issue of 91,344,455 new Shares (**Tranche 1 Placement Shares**) and 91,344,455 Attaching Options (**Tranche 1 Placement Options**).

The Tranche 1 Placement Shares will be issued under the Company's existing 15% placement capacity under Listing Rule 7.1. The Tranche 1 Placement Options will be issued subject to Shareholder approval at the Company's General Meeting, which is scheduled to occur on or around Friday, 24 July 2026.
