

Voltaic Regains 100% Ownership of Ti Tree Lithium Project

HIGHLIGHTS

- Voltaic regains 100% ownership and control of the Ti Tree lithium project following mutual termination of the Earn-In and Joint Venture Agreement with Delta Lithium
- Full ownership provides Voltaic with increased strategic flexibility across the Ti Tree portfolio within the highly prospective Yinnetharra lithium district
- Recent acquisition of adjoining granted exploration licence E09/2833 strengthens Voltaic's regional landholding position
- Extensive exploration datasets generated during the JV period enhance future LCT target generation and drill planning
- Ti Tree portfolio sits Adjacent to Delta Lithium's Yinnetharra Mineral Resource of 21.9Mt @ 1.0% Li₂O and 39.4Mt @ 102ppm Ta₂O₅, including the Jameson Resource of 0.8Mt @ 1.66% Li₂O

Voltaic Strategic Resources Limited (ASX:VSR) ('Voltaic' or the 'Company') confirms that by mutual consent it has terminated its Ti Tree Earn-in & JV Agreement (EJVA) with Delta Lithium Limited (ASX: DLI) & Electrostate Malinda Pty Ltd. The Ti Tree Earn-in & JV was entered into on the 9th March 2024 and was recently extended on the same terms through to September 2026.

The decision to mutually agree to the termination by both parties was amicably consented and allows Voltaic to take back 100% control of its Yinnetharra Lithium portfolio and provide it with the potential to develop a LCT resource alongside Delta Lithium's Yinnetharra Malinda Resource (21.9Mt @ 1% Li₂O & 39.4Mt @ 102ppm Ta₂O₅) & Jameson Resource (0.8Mt @ 1.66% Li₂O) which have the same source rocks as Voltaic's regional tenure.

The EJVA dissolution between DLI and Voltaic is effective immediately.

Voltaic Chairman, Daniel Raihani, commented "I'd like to thank the team at Delta Lithium partnering with us during the joint venture period for our LCT Ti Tree project. Voltaic now takes back 100% control of the highly prospective Ti Tree portfolio within the Yinnetharra regional Lithium district and we look forward to progressing some highly prospective drill targets.

The Company will analyse and review all of the exploration data compiled by Delta Lithium and identify LCT targets to progress and drill. In addition, Voltaic envisages the granting of regional tenure E09/3011 (Ti Tree East); and E09/2522 (Ti Tree Central) are expected as Heritage Agreements are established.

Taking back control of this portfolio strengthens our position in the Yinnetharra Lithium district where we recently acquired E09/2833 announced to the ASX on 14 April 2026."

The information in this announcement related to Exploration Results is based on and fairly represents information compiled by Mr Claudio Sheriff-Zegers. Mr Sheriff-Zegers is employed as an Exploration Manager for Voltaic Strategic Resources Ltd and is a member of the Australasian Institute of Mining and Metallurgy. He has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration and to the activities undertaken to qualify as a Competent Person as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. He consents to the including in this announcement of the matters based on information in the form and context in which they appear.

Forward-Looking Statements

This announcement may contain forward-looking statements involving several risks and uncertainties. These forward-looking statements are expressed in good faith and believed to have a reasonable basis. These statements reflect current expectations, intentions or strategies regarding the future and assumptions based on currently available information. Should one or more of the risks or uncertainties materialise, or underlying assumptions prove incorrect, actual results may vary from the expectations, intentions and strategies described in this announcement. No obligation is assumed to update statements if these beliefs, opinions, and estimates should change or to reflect other future development. Furthermore, this announcement contains forward-looking statements which may be identified by words such as "prospective", "potential", "believes", "estimates", "expects", "intends", "may", "will", "would", "could", or "should" and other similar words that involve risks and uncertainties. These statements are based on several assumptions regarding future events and actions that, as at the date of this announcement, are expected to take place. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions, and other important factors, many of which are beyond the control of the Company, the Directors and management of the Company. These and other factors could cause actual results to differ materially from those expressed in any forward-looking statements. The Company cannot and does not give assurances that the results, performance, or achievements expressed or implied in the forward-looking statements contained in this announcement will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.
