\$12.9 million Capital Raising to Unlock the Potential of Mineral Hill

Overview

- **\$12.9 million Capital Raising** – firm commitments received for a placement to raise \$4.4 million followed by an \$8.5 million underwritten entitlement offer at \$0.035 per New Share.
- **25,000m drilling program** – primary use of proceeds of the Capital Raising is to fund a multi-rig (surface and underground) drilling program.
- **Plant expansion studies** – the Mineral Hill processing facility holds significant strategic value as the only polymetallic concentrate plant in the South Cobar Basin with the ability to produce gold doré. Key permits are in place to enable processing of up to 700ktpa.
- **Strong balance sheet post capital raising to execute on drilling strategy** – Kingston to emerge well-funded with \$32.3 million in cash (before costs), inclusive of the \$10 million cash payment due 11 July 2026 from the sale of the Misima Gold Project to Ok Tedi Mining Limited¹.

Kingston Resources Managing Director and CEO, Andrew Corbett comments:

"We thank all our shareholders for their ongoing support in securing a \$12.9m Capital Raising underpinned by our major shareholder Farjoy and highly respected institutional investors.

The 25,000m drill program is just the beginning and will be completed alongside plant expansion studies as we look to right size the mill to support a future mining restart on an enlarged and optimised basis. The Company is well positioned to execute the drilling program with more than \$30m in available capital including the \$10m cash payment from Ok Tedi, in July 2026.

Owning the only polymetallic plant in the south Cobar region with the ability to produce gold doré (Flotation and CIL) with expansion potential represents significant strategic value for our shareholders.

Drilling will be initially focused on extensional underground drilling at SOZ and Jack's Hut where mineralisation is already well defined, along with surface drilling to test a new target at Parker's Hil East.

The plant is currently processing the remaining stockpiles on site and will transition to care and maintenance in the coming weeks.

We thank our staff, mining contractors and the local community for their understanding and support while we embark on our new strategy to create a bigger and better resource and reserve base at Mineral Hill."

¹ See KSN ASX announcement dated 20 May 2025. There is a further \$35 million in deferred consideration to be received, comprising \$10 million in deferred cash, payable on a final investment decision (FID) to develop Misima and a 0.5% gross revenue royalty from Misima where Ok Tedi has the right to buy-back the royalty for \$25 million.

Operational & Strategic Update

Kingston Resources Limited (ASX: KSN) (**Kingston** or the **Company**) is pleased to announce an updated capital raising of \$12.9 million at an amended issue price of \$0.035 per share to unlock the potential of its 100% owned Mineral Hill operation located in the south Cobar region, 65km north of Condobolin in New South Wales.

Following the decision to cease Pearse South open pit mining and delay the commencement of underground production², the Company has worked expeditiously to develop a clear plan focused on upgrading and expanding the existing Mineral Resource and Ore Reserve to support a longer Life of Mine (LOM), larger production base to underpin future operational restart.

This updated strategy is centred around an exploration and resource drilling program at Mineral Hill, comprising extensional, infill, step out and near mine exploration drilling.

Alongside the drilling program, Kingston will complete plant expansion studies aimed at expanding the existing 350ktpa CIL and flotation processing facility to support future operations on an enlarged basis. The Company already has most of the key permits and approvals to enable expansion of the processing plant up to 700ktpa.

Strategic Value of the Company

Mineral Hill is strategically located with a fully permitted, 350ktpa (CIL and flotation) processing facility in the heart of the south Cobar region. The ability of the plant to treat polymetallic ores and refine precious metals is a key strategic value driver.

The forward work program is centred around increasing the mining inventory and completing expansion studies to support a larger operation which is optimised for mining rates. The 25,000m drilling program is the first large scale exploration program on Mineral Hill since the 1980's and creates a clear pathway to expand the existing resource and reserve base and make new discoveries.

²See KSN ASX announcement dated 11 June 2026.

Amended Capital Raising

Due to the trading in Kingston's shares on 11 June 2026 and the conditions of the existing Underwriting Agreement, in consultation with its advisers, the Company and the Underwriter agreed to terminate the former Underwriting Agreement and enter into a new Underwriting Agreement and revised placement. Since participation in the prior placement announced on 11 June 2026 was predicated on the terms of the former Underwriting Agreement, the Company and the placement participants have agreed to terminate those placement arrangements and enter into new placement arrangements.

Kingston is undertaking a \$12.9 million Capital Raising (before costs) (**Capital Raising**) at an amended issue price of \$0.035 per New Share (**Offer Price**).

Placement Details

The Company has received firm commitments from institutional, sophisticated and professional investors for a Placement to raise approximately \$4.4 million (before costs) via the issue of approximately 125.7 million New Shares at the Offer Price (**Placement**).

Kingston's largest shareholder Farjoy Pty Limited (17.6%) (**Major Shareholder**) has committed to subscribe for \$1.6 million of the Placement, resulting in a post placement shareholding of 19.9%.

New Shares issued under the Placement will be issued pursuant to the Company's existing placement capacity under ASX Listing Rule 7.1.

The Offer Price represents a:

- 12.5% discount to the last closing price of \$0.040 per share as at 11 June 2026; and a
- 30.7% discount to the 5-day VWAP of \$0.0505 per share up to and including 11 June 2026³.

New Shares issued under the Placement will rank pari passu with existing fully paid ordinary shares on issue.

Fully Underwritten Entitlement Offer

The Company is also intending to undertake a fully underwritten, one (1) for four (4) non-renounceable entitlement offer to raise approximately \$8.5 million (before costs) via the issue of approximately 241.9 million New Shares at the Offer Price (**Entitlement Offer**).

The Entitlement Offer is underwritten by Argonaut Corporate Finance Limited (**Argonaut** or the **Underwriter**).

The Major Shareholder has committed to subscribe for its full entitlement in the Entitlement Offer being approximately \$1.7 million.

Only Kingston shareholders with a registered address in Australia, New Zealand, the European Union (excluding Austria), Hong Kong and Singapore will be eligible to participate in the Entitlement Offer (**Eligible Shareholders**).

The proposed Record Date for the Entitlement Offer is 7:00pm AEST on Tuesday, 30 June 2026 (refer to the Indicative Timetable set out below for further information).

Further information on the Entitlement Offer will be contained in a prospectus, scheduled to be lodged on Thursday, 25 June 2026 and despatched to Eligible Shareholders on Friday, 3 July 2026 (the **Prospectus**). Eligible Shareholders should consider the Prospectus carefully before deciding whether to participate in the Entitlement Offer and consult with their professional advisers if they have any queries.

The Prospectus will contain a shortfall dispersion policy consistent with the Underwriting Agreement, under which Shortfall Shares will be allocated firstly, to Eligible Shareholders who validly apply for their full entitlement and additional New Shares applied for by Eligible Shareholders in excess to a maximum of 100% of their full entitlement (**Top-Up Shares**); secondly, via a shortfall bookbuild undertaken by the lead manager to institutional investors (in consultation with the Board and nominated by the Underwriter), with no institutional investor increasing voting power above 20% under the shortfall bookbuild; thirdly, to sub-underwriters, to the extent of their sub-underwriting and finally, any remaining shortfall to the Underwriter or its nominees.

³ The 5-day VWAP is calculated excluding days that the Company was suspended from trading on the ASX.

In the event the Major Shareholder receives their maximum sub-underwritten amount and no Eligible Shareholders take up their entitlements, the Major Shareholder's voting power would increase to approximately 30.1% upon completion of the Capital Raising.

The obligations of Argonaut to underwrite the Entitlement Offer are subject to the satisfaction of certain conditions precedent. A summary of the conditions precedent and termination events is set out in Annexure 1 to this announcement.

Forward Work Plan

- **25,000m drill program to accelerate resource and reserve growth** – extensive underground and surface drilling program to target increases in Measured and Indicated Resources and pursue high priority exploration targets with a diamond drill rig already mobilised and drilling underground at Southern Ore Zone (SOZ).
 - **SOZ** – several extensional drill ready targets identified including the G/H and Upper A Lodes to increase scale and extend the life of mine (LOM).
 - **Jack's Hut** – extensive exploration potential down-dip, along strike and within the Jack's Hut – Iodide Link Zone and Jack's Hut – Eastern Ore Zone (EOZ) Link Zone; and
 - **Parker's Hill East** – a newly identified exploration target.
- **Near Term Mineral Resource Upgrades** – for SOZ and Jack's Hut to increase the Measured and Indicated Resource;
- **Plant expansion studies to right size the configuration of Mineral Hill for future production** – the existing processing facility has key permits in place to increase the processing rate up to 700ktpa. Studies will consider the optimal processing rate for the LOM, consistent with the expected underground mining rates; and
- **Increasing the Mineral Hill Ore Reserve** – to set the foundation for a longer mine life, larger production base to support an operational restart and underpin the future expansion.

Competent Persons Statement and Disclaimer

The information in this report that relates to Exploration Results and Mineral Resources is based on information compiled by Mr. Stuart Hayward BAppSc (Geology) MAIG, a Competent Person who is a member of the Australian Institute of Geoscientists. Mr. Hayward is an employee of the Company. Mr. Hayward has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr. Hayward confirms that the information in the market announcement provided is an accurate representation of the available data and studies for the material mining project and consents to the inclusion in this report of the matters based upon the information in the form and context in which it appears.

The Competent Person signing off on the overall underground SOZ Ore Reserves Estimate is Mr. Steven Weckert BE ME (Min) CP, of Australian Mine Design and Development Pty Ltd, who is a Member of the AusIMM and who has sufficient relevant experience in operations and consulting for underground metalliferous mines. Mr. Weckert consents to the inclusion in this report of the information pertaining to the Mineral Hill SOZ Ore Reserve in the form and context in which it appears.

The Mineral Hill Mineral Resource estimates included in this announcement were released in ASX announcements on 15 March 2023 (Pearse South), 21 March 2023 (Jack's Hut) and 13 November 2025 (Southern Ore Zone, Red Terror and Parkers Hill). The Ore Reserve estimate outlined was released in ASX announcements on 30 September 2024 (Southern Ore Zone). Further information is included within the original announcements.

Kingston is not aware of any new information or data that materially affects the information included in this announcement. All material assumptions and technical parameters underpinning the Mineral Resource estimates and production targets continue to apply and have not materially changed.

The Underwriter will have no obligations under the agreement unless:

(ASX Release lodgement and suspension lifted) the Company releases the ASX Release on ASX, in a form and substance acceptable to the Underwriter, on the Announcement Date, and on the Announcement Date the ASX lifts the suspension in trading of Shares and reinstates the trading of Shares on ASX's official list;

(ASIC Nominee Approval and engagement) ASIC having granted approval (by no later than the Closing Date) for the Underwriter or its nominee to act as the Excluded Shareholders' nominee pursuant to section 615 of the Corporations Act, on terms acceptable to the Underwriter, and the Underwriter and the Company having entered into a letter of appointment for the Underwriter to serve that role;

(Prospectus) the Company lodging the Prospectus with ASIC and ASX (in a form and substance satisfactory to the Underwriter) by the time indicated in the Timetable and the Company completing the despatch of the Prospectus on the Despatch Date;

(Consent) the Company obtaining the prior written consent of the Underwriter to lodge the Prospectus with ASIC and ASX and not having withdrawn its consent prior to lodgement of the Prospectus;

(Placement) the Company issues all of the Placement Shares pursuant to the Placement in accordance with the Timetable and the Placement Shares are able to be freely traded on ASX on the Placement Allotment Date;

(Due diligence investigations) the Due Diligence Investigations being undertaken and completed before the Lodgement Date to the satisfaction of the Underwriter in accordance with the Due Diligence Planning Memorandum, and the Underwriter determining (in its sole discretion) that the results of that due diligence are acceptable to the Underwriter;

(Due diligence documents) the Underwriter receiving, by no later than 8:00am (AEST) on the Lodgement Date, a copy of each of the documents required to be provided under the Due Diligence Planning Memorandum for the Due Diligence Investigations, in a form satisfactory to the Underwriter (in its sole discretion).

(Initial allotment) the Company issuing the Entitlement Shares (other than the Remaining Shortfall Shares) in accordance with the agreement and the Entitlement Shares commencing trading on ASX;

(Official quotation) on or before the Settlement Date, ASX not having indicated to the Company or the Underwriter that it will not grant permission for the official quotation of the Entitlement Shares (or having granted permission, not having withdrawn any such indication);

(Certificate) the Underwriter receiving a Certificate in accordance with the agreement.

(Shortfall Notice) the Underwriter receiving a Shortfall Notice in accordance with the agreement.
