

CP8 raises \$5.2 million following strong demand for Rights Issue

HIGHLIGHTS

- Rights Issue seeking to raise \$4.85 million closes and attracts excess demand
- CP8 completes \$350,000 Follow-on Placement to accommodate demand from new investors
- Rights Issue receives significant support from existing shareholders, including CP8 Directors, who have all participated
- CP8 is now well funded to advance its North American phosphate projects, including exploration drilling at Wapiti, British Columbia and mining its approved 10,000-tonne bulk sample permit at Barnes
- CP8 will also use funds to finalise the acquisition of the Diamond Mountain Project in Utah and associated permitting and exploration programs, plus working capital

Canadian Phosphate Limited (ASX: CP8) (**Canadian Phosphate** or the **Company**) is pleased to announce its renounceable rights issue announced on 1 June 2026 (**Rights Issue**) has closed, attracting strong demand and raising the full amount of approximately **\$4.85 million** (before costs). To accommodate a portion of the excess demand, the Company has agreed to undertake a placement to raise an additional \$350,000 on the same terms as the Rights Issue (**Follow-on Placement**).

Following completion of the Follow-on Placement, the total amount raised will be approximately **\$5.2 million** (before costs). The Company will issue a total of 37,176,053 new fully paid ordinary shares (**Shares**) and 18,588,026 new options exercisable at \$0.25, with an expiry date of 26 June 2028 (**Options**). The Options will be quoted under the ASX code CP8O.

Under the Follow-on Placement, the Company will issue 2,500,000 new Shares and 1,250,000 new Options. These will be issued using the Company's existing capacity under Listing Rule 7.1.

Canadian Phosphate will use proceeds from the Rights Issue and the Follow-on Placement to accelerate development of the Company's strategically important phosphate assets in Canada and the United States. This includes exploration drilling at its Wapiti Project in British Columbia, Canada, to support the delivery of a maiden Mineral Resource Estimate, mining activities in Fernie associated with the approved 10,000-tonne bulk sample permit at Barnes, and advancing the acquisition and development of the Diamond Mountain Phosphate Project in Utah.

Funding will also support permitting and exploration activities designed to unlock additional resource growth and position the Company for future production opportunities.

Canadian Phosphate Managing Director and CEO Daniel Gleeson said: "We thank our shareholders for the continuing support they have shown during this Rights Issue, demonstrating their ongoing commitment to the Company, and we also welcome new shareholders via the Follow-on Placement. It is an exciting time for Canadian Phosphate as we rapidly define resources under JORC standards at Wapiti and at Diamond Mountain in Utah once our acquisition is completed."

"Planning is also advanced to extract the approved 10,000-tonne bulk permit at Fernie in Canada."

The final results from the Rights Issue and the details of the Follow-on Placement are set out below:

	Funds raised	Shares	Options*
Entitlements taken up	\$3,640,071	26,000,508	13,000,254
Shortfall placed (including oversubscriptions and top-up applications)	\$1,214,576	8,675,545	4,337,772
Follow-on Placement	\$350,000	2,500,000	1,250,000
Total	\$5,204,647	37,176,053	18,588,026

*The number of new Shares and Options issued is subject to rounding. A further 1,734,882 Options will be issued to the Lead Manager as described in the Prospectus.

Mahe Capital Pty Ltd (ACN 634 087 684) (**Mahe Capital**) acted as Lead Manager to the Rights Issue and advised the Company on the Rights Issue and the Follow-on Placement.

The new securities are expected to be issued on Friday, 26 June 2026, in accordance with the timetable in the Prospectus.

Authorised by the board of Canadian Phosphate Limited.

About Canadian Phosphate

CP8 is an exploration and mine development company that aims to become a leading supplier of sedimentary rock phosphate into Canada for use in manufacturing synthetic phosphate fertilizers and LFP batteries across North America. CP8 has announced the acquisition of Diamond Creek, Utah USA, a sedimentary phosphate deposit that materially expands the Company's phosphate resources.

Cautionary Statement

The Information in this report that relates to the Fernie Project is extracted from the Company's announcement titled Quarterly Report & 5B", dated 28th October 2025. The Company confirms that it is

not aware of any new information or data that materially affects the information included in the relevant market announcement. The Company confirms that the form & context in which the findings are presented have not been materially modified.

Forward-Looking Statements

This announcement may include forward-looking statements and opinions. Forward-looking statements, opinions and estimates are only predictions and are subject to risks, uncertainties and assumptions which are outside the control of the Company.
