Kelsian Group Limited (ASX:KLS) ('Kelsian') today advises that following a joint bid with Belaire Ferries Limited ('Belaire Ferries'), the parties¹ have been awarded new contracts by Auckland Transport for the provision of passenger ferry services in Auckland, New Zealand.

The Western Package Ferry Contracts are for services commencing 1 July 2027⁶, and are expected to generate approximately NZ\$101 million in revenue (A\$83 million) over the initial seven-year term⁵. The contracts include revenue indexation mechanisms which protect Kelsian from fluctuations in the cost base of key cost inputs, including diesel fuel.

Kelsian also advises today that it has entered into a binding agreement to acquire 100% of Belaire Ferries³, an established Auckland-based ferry operator that currently operates the West Harbour and Rakino Island ferry services on Auckland Harbour (the 'Acquisition'). Kelsian has agreed to acquire Belaire Ferries for total purchase price of NZ\$8.9 million⁴ (A\$7.3 million).

Kelsian Group CEO, Graeme Legh said: "We are delighted to have secured our first contract in New Zealand reflecting Kelsian's capability as a leading global multi-modal transport operator.

This new long-term contract package, together with the acquisition of Belaire Ferries establishes a strategically important platform that positions Kelsian to pursue further growth opportunities in the New Zealand market."

Auckland Transport New Western Package Ferry Contracts

Following a competitive tender process, Kelsian and Belaide Ferries¹ have been awarded Auckland Transport's Western Package Ferry Contracts for the provision of passenger ferry services and associated vessel maintenance services^{1,6}.

The contracts include services operating between downtown Auckland and several locations on Auckland Harbour, with operations scheduled to commence on 1 July 2027 for an initial term of seven years.

The Western Package Ferry Contracts are expected to generate approximately NZ\$101 million (A\$83 million) in revenue over the initial 7-year term and will involve the operation and maintenance of an initial fleet of six vessels, comprising four vessels currently owned by Belaide Ferries and two existing Kelsian vessels which will be relocated from Australia to Auckland ahead of service commencement. Kelsian will procure a new passenger ferry for its South-East Queensland marine operations to replace the two existing vessels to be transferred to Auckland.

As part of the contract commitments, Kelsian has undertaken to procure five new ferries over the contract term to replace the initial ferry fleet. The first new vessel is expected to enter service in mid-2028, with subsequent vessels to enter service between 2029 and 2032. The total estimated capital cost of the five new vessels is NZ\$38 million (A\$31 million) and Kelsian expects that the capital cost of the new vessels will be funded by way of a limited recourse ringfenced financing vehicle ('SPV').

Belaide Ferries Acquisition

The Acquisition is for the purchase of 100% of the shares of Belaide Ferries for total purchase price of NZ\$8.9 million⁴ (A\$7.3 million), comprising of upfront cash consideration of NZ\$2.8 million (A\$2.3 million) and total deferred and contingent consideration estimated at NZ\$6.1 million (A\$5.0 million) payable during FY2027-FY2029 if certain milestone conditions are satisfied.

The Acquisition will be funded from existing cash reserves and is expected to complete in Q1 FY27 subject to conditions precedent customary for transactions of this nature, including change of control consents. The founder of Belaide Ferries, Adam Tallentire, will assist Kelsian with the integration and the transition to the new Western Package Ferry Contracts.
