

\$1.66 MILLION GRANT CASH PAYMENT RECEIVED (GST EXCLUSIVE) FOR 3rd ARENA MILESTONE ACHIEVED ON SA1 SALISBURY FACILITY

Delorean Corporation Ltd ("Delorean" or "the Company") is pleased to announce that it has received the third cash payment milestone of \$1.66million exclusive of GST under an existing \$7.74million grant funding agreement with the Australian Government's Australian Renewable Energy Agency ("ARENA"). Total grant payments now received under the agreement are \$5.46million. The grant funding, provided under ARENA's National Industrial Transformation Program accelerates the development of Delorean's SA1 Salisbury bioenergy facility, currently under construction in Edinburgh Parks, South Australia.

The ARENA grant payment funds Delorean for the costs of procurement, installation, and commissioning of critical infrastructure upgrades to enhance the facility's ability to produce and upgrade biogas into mains-grade biomethane and biogenic CO₂. This renewable gas will be supplied through the Adelaide gas network under a long-term offtake agreement.

The flagship project continues to advance, bringing the Company closer to first renewable gas production and the delivery of long-term environmental and economic benefits to South Australian industry.

Authorised on behalf of the Delorean Corporation Board of Directors by Hamish Jolly, Executive Chair.

About SA1 Salisbury Bioenergy Plant

The SA1 Salisbury Bioenergy plant is 100% Delorean Corporation owned and strategically located in the Northern Adelaide Food Park in Edinburgh Parks (metropolitan Adelaide) in South Australia on land owned by Delorean. The project is currently in construction.

Stage 1 of the project will process 70,000 tonnes per annum of organic waste streams for the nominal production of up to 210 TJ per annum of renewable natural gas (biomethane) exported to the Adelaide's Gas network, under a gas offtake agreement to Australian Gas Infrastructure Group ("AGIG"). In Stage 2 (potential future expansion), there is the potential for extension to 125,000 tonnes per annum under the current development approval.

The SA1 Project will produce 6 different products and revenue streams, including Renewable Natural Gas (Biogenic Methane), renewable food grade liquid CO₂ (Biogenic LCO₂), Carbon Credits (ACCUs), Renewable Gas Guarantees of Origin (RGGOs), Liquid Fertilisers and Gate Fees.

About Delorean Corporation Limited

Delorean Corporation is a leading Australian bioenergy company. Delorean specialises in the design, build, ownership and management of bioenergy infrastructure. Delorean Corporation is a vertically integrated company positioned in two high growth industries; renewable energy and waste management.

Delorean Corporation comprises an Engineering Division, Infrastructure Division and Energy Retail Division. Through these divisions Delorean Corporation has the inhouse capability to deliver bioenergy projects across the full lifecycle, from project conception to completion, processing organic waste, generating renewable energy and monetising the sale of green electricity, heat and gas.

DEL's projects produce renewable energy whilst reducing the volume of waste going to landfill, utilising a model that generates multiple revenue streams.
