14 JULY 2026 **CORPORATE RELEASE**

IMPACT RECEIVES $310,000 FROM RESEARCH AND DEVELOPMENT REBATE

Impact Minerals Limited (ASX:IPT) is pleased to announce that it has received a rebate of $310,000 before costs from the Research and Development Tax Incentive scheme for the financial year ending June 2025.

These funds will be used to continue the work on Impact's flagship Lake Hope High Purity Alumina (HPA) Project and to support the investment in Alluminous Pty Ltd.

Impact's Managing Director, Dr Mike Jones, said, "*The unique mineralogy and patented and proprietary processing techniques for the Lake Hope High Purity Alumina project have allowed us to claim back a significant proportion of our expenditures on it through the R and D Tax Incentive programme. The funds will be put towards the on-going pilot plant studies being undertaken with CPC Engineering and Edith Cowan University to produce HPA from the clays at Lake Hope.*"

The company would like to thank Ernst and Young and Kate Griffiths, in particular, for their help in preparing the R and D applications over the past ten years.

This announcement has been authorised by the Board of Directors of Impact Minerals Limited.
