June Quarter 2026

Unlocking value to empower the future

15 July 2026

Important information

The information in this presentation is provided for general information regarding 29Metals Limited (the 'Company') and its subsidiaries (together with the Company, '29Metals'). Material information in this presentation has been derived from information publicly released by the Company to the ASX announcements platform. Details regarding the source information released to the ASX announcements platform is included in notes in this presentation.

Information presented is deemed representative at the time of its original release and 29Metals does not accept any responsibility to update the information presented. Readers should be aware that there may be changes to historical information presented in the future due to adjustments in accounting and reporting policies and standards, and that past results or performance are no guarantee of future results or performance.

This presentation is not a recommendation to invest in 29Metals. The information presented does not purport to include all of the information that a person may require in order to decide whether to invest in 29Metals. Prospective investors must seek their own legal or other professional advice.

Forward-looking statements

This document contains certain forward-looking statements and comments about future events, including in relation to 29Metals' businesses, plans and strategies and expected trends in the industry in which 29Metals currently operates. Forward-looking statements can generally be identified by the use of words such as, "expect", "anticipate", "likely", "intend", "should", "could", "may", "plan", "predict", "plan", "propose", "will", "believe", "forecast", "outlook", "estimate", "target" and other similar words. Indications of, and guidance or outlook on future earnings or financial position or performance are also forward-looking statements. Forward-looking statements involve inherent risks, assumptions and uncertainties, both general and specific, and there is a risk that predictions, forecasts, projections and other forward-looking statements will not be achieved. A number of important factors could cause 29Metals' actual results to differ materially from the plans, objectives, expectations, estimates, targets and intentions expressed in such forward-looking statements, and many of these factors are beyond the control of 29Metals, its Directors and Management. Statements or assumptions in this document may prove to be incorrect, and circumstances may change, and the contents of this document may become outdated as a result. This includes statements about market and industry trends, which are based on interpretations of current market conditions.

Forward-looking statements are based on 29Metals' good faith assumptions as to the financial, market, regulatory and other relevant environments that will exist and affect 29Metals' business and operations in the future. 29Metals does not give any assurance that the assumptions will prove to be correct. There may be other factors that could cause actual results or events not to be as anticipated, many of which are beyond 29Metals' reasonable control, and 29Metals does not give any assurance that the assumptions will prove to be correct.

Readers are cautioned not to place undue reliance on forward-looking statements.

Forward-looking statements speak only as of the date of this document, and except where required by law, 29Metals does not intend to update or revise any forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this document.

Nothing in this document is a promise or representation as to the future, and past performance is not a guarantee of future performance. 29Metals nor its Directors make any representation or warranty as to the accuracy of such statements or assumptions.

Mineral Resource and Ore Reserve estimates

In this announcement, all references to Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2025 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February 2026.

29Metals confirms that it is not aware of any new information or data that materially affects the information included in those announcements and that all material assumptions and technical parameters underpinning the relevant Mineral Resource and Ore Reserve estimates in those announcements continue to apply and have not materially changed.

29Metals updates its Mineral Resources and Ore Reserves estimates annually. The next update to 29Metals' Mineral Resources and Ore Reserves estimates is planned to be published during the March Quarter 2027.

Non-IFRS financial information

29Metals' results are reported under IFRS. This document may include certain metrics, such as "Site Costs", "C1 Costs", "AISC", "total liquidity", "drawn debt", "net drawn debt", "site operating costs", "suspension operating costs", "suspension capital costs" and "EBITDA" that are not recognised under Australian Accounting Standards and are classified as "non-IFRS financial information" under ASIC Regulatory Guide 230: Disclosing non-IFRS financial information. 29Metals uses these non-IFRS financial information metrics to assess business performance and provide additional insights into the underlying performance of its assets.

The non-IFRS financial information metrics used in this document have been calculated by reference to information prepared in accordance with IFRS. However, these non-IFRS financial information metrics do not have a standardised meaning prescribed by IFRS and may be calculated differently by other companies.

The non-IFRS financial information metrics included in this document are used by 29Metals to assess the underlying performance of the business. The non-IFRS information has not been subject to audit by 29Metals' external auditor.

Non-IFRS financial information should be used in addition to, and not as a substitute for, information prepared in accordance with IFRS. Although 29Metals believes these non-IFRS financial information metrics provide useful information to investors and other market participants, readers are cautioned not to place undue reliance on any non-IFRS financial information presented. Refer to page 19 of the Company's Appendix 4E and Annual Financial Report for the year ended 31 December 2025.

Rounding

Certain figures, amounts, percentages, estimates, calculations of value and fractions presented are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures presented.

Summary Information

This presentation includes summary information relating to or derived from the June 2026 Quarterly Report ('Jun-Qtr Report') for 29Metals as released to the ASX announcements platform on 15 July 2026 which includes additional information and notes relating to unaudited drawn debt, unaudited cash and cash equivalents and unaudited available group liquidity (refer to relevant Endnotes in the Jun-Qtr Report).

This presentation should be read in conjunction with, not in replacement of, the Jun-Qtr Report.

Authorisation

This presentation has been approved for issue by, and enquiries regarding this presentation may be directed to James Palmer, 29Metals Chief Executive Officer - contactus@29metals.com

Why Invest In 29Metals

Copper – a critical future facing metal to enable the global transition towards electrification

Large copper endowments

2.3Mt Contained Copper + 2.2Mt Zinc, 1.2Moz Gold, 73Moz Silver in Group Mineral Resources estimates²

Long life assets

Resources to support 10+ year mine lives

Low risk jurisdiction

Australian based copper assets

Organic growth options

Golden Grove: Gossan Valley | Resource Expansion | Cervantes

Capricorn Copper: Production Restart | Resource Expansion

Exploration upside

History of both assets being highly responsive to step out drilling

¹ Refer to 29Metals' ASX release entitled "Capricorn Copper – Suspension of Operations", released to the ASX announcements platform on 26 March 2024.

² In this presentation, all references to Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2025 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February 2026. Refer to the important information section on page 2 of this presentation for further information.

29Metals - Copper exposure for ASX investors

Uniquely positioned with two large copper metal endowments in a tier 1 jurisdiction – 2.3Mt contained copper in Mineral Resource estimates¹

Production Snapshot

2025 Production (Golden Grove)

- 22kt Copper @ AISC US\$3.55/lb Cu sold
- 35kt Zinc
- 15koz Gold
- 746koz Silver

2026 Guidance (Golden Grove)²

- 20 – 24kt Copper
- 5 – 25kt Zinc
- 6 – 14koz Gold
- 400 – 600koz Silver

Key Assets

Golden Grove

Mineral Resources¹:

62.9Mt @ 1.7% Cu,
3.5% Zn,
0.6g/t Au,
24g/t Ag

Location: Western Australia

Ownership: 100%

Status: Producing

Mill Capacity: up to 1.8Mtpa

Ore Reserves¹:

18.2Mt @ 1.7% Cu,
4.0% Zn,
0.6g/t Au,
22g/t Ag

Mine type: Underground

Capricorn Copper

Mineral Resources¹:

64.2Mt @ 1.8% Cu,
9g/t Ag,

Location: Queensland

Ownership: 100%

Status: Brownfield restart project³

Mill Capacity: up to 2.0Mtpa

Ore Reserves¹:

19.0Mt @ 1.7% Cu,
13g/t Ag

Mine type: Underground

¹ In this presentation, all references to Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2025 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February 2026. Refer to the important information section on page 2 of this presentation for further information.

² Refer to ASX release "March 2026 Quarterly Report" dated 29-Apr-2026 for revised 2026 guidance for zinc production, gold production, silver production. Refer to ASX release "December 2025 Quarterly Report" dated 20-Jan-2026 for copper guidance.

³ Refer ASX release "Capricorn Copper – Suspension of Operations" dated 26-Mar-2024.

Key Points

Jun-Qtr-2026

Safety¹

8.0

Group TRIF

(Mar-Qtr: 9.3)

0.0

Group LTIF

(Mar-Qtr: 0.0)

Golden Grove

Copper Production

4.8kt

- Works progressing to plan for recommencement of mining at Xantho Extended in the Dec-Qtr-2026.
- Gossan Valley project remains on track for first ore by end 2026.
- Drilling continues to indicate extensions to existing Mineral Resource estimates³, including at Oizon, a high-grade copper Ore Reserve³ at Gossan Hill.⁴
- Development to Oizon is progressing to plan, with first ore expected by the end of 2026.

Zinc Production

3.1kt

C1 Costs²

US\$4.64/lb Cu

Capricorn Copper

- With water levels no longer an impediment to a restart of production, approval for Tailings Storage Facility ('TSF') 3 is the critical path imperative to enable a restart decision.
- The application for TSF 3 is progressing to plan – with a response to a Request for Information ('RFI') from the Regulator on track for Sep-Qtr-2026.
- A range of non-dilutive funding options are being considered across Capricorn Copper and Golden Grove to fully fund the restart of production at Capricorn Copper and potentially raise excess funds to accelerate growth options across the portfolio.
- Works are being progressed to coincide availability of funding options with planned completion of a Restart Definitive Feasibility Study ('DFS') by end 2026 to enable a Final Investment Decision ('FID') for the restart of operations, subject to receipt of TSF 3 approvals.

Corporate and other

- Mr Colin Gilligan appointed as Non-executive Director and second Nominee Director of BUMA^{5,6}, further strengthening the depth of experience on the Board.
- Unaudited available group liquidity at 30 June 2026 of \$202 million (31 March 2026: \$238 million) .⁷
- Existing strong liquidity position expected to be sufficient for the ongoing funding of growth capital commitments and risk mitigation works prior to recommencement of mining at Xantho Extended in the Dec-Qtr-2026.

1. Total Recordable Injury Frequency ("TRIF") and Lost Time Injury Frequency ("LTIF") metrics are reported as the 12-month moving average at the end of each quarter, reported on a per million work hours ('mwhrs') basis.

2. C1 Costs is the sum of mining costs (excluding capitalised development), processing costs, and G&A costs, concentrate transport, treatment and refining charges ('TCRCs'), stockpile movements, and by-product credits.

3. In this presentation, all references to Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2025 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February 2026. Refer to the important information section on page 2 of this presentation for further information.

4. Refer ASX release "High-grade Resource Extension intercepts at Golden Grove" dated 28-Apr-2026 and ASX release "High-grade Resource Extension intercepts at Oizon" dated 25-Jun-2026 for further information regarding drilling results release during the quarter, including Competent Person's Statement and JORC Code Table 1 disclosures. Refer to Important information section on page 8 of this release for further information.

5. Refer ASX release "BUMA representative joins 29Metals Board of Directors" dated 30-Jun-2026.

6. BUMA Australia Pty Ltd ACN 649 634 579 (BUMA Australia); Bukit Makmur Mandiri Utama Pte. Ltd. (BUMA Singapore); PT Bukit Makmur Mandiri Utama (BUMA Indonesia); PT Delta Dunia Makmur Tbk and its controlled entities (DOID) (together, 'BUMA'). BUMA has a right to nominate a Non-executive Director for appointment to the Board of 29Metals and has a right to nominate a second Non-executive Director where its holding exceeds 20% and provided there are no more than eight directors on the Board. Refer to the Company's ASX announcements titled 'Equity Raising Investor Presentation' and 'Equity Raising to Support Execution of Growth Initiatives', released to the ASX announcements platform on 20 January 2026 and available on 29Metals' website at <https://www.29metals.com/investors/asx-announcements>.

7. Refer to Important Information on slide 2 of this presentation regarding summary information and Non-IFRS financial information.

Golden Grove

29

Metals

High-grade copper mine with valuable zinc, gold & silver by-products

30+ year track record of exploration success and mine life extensions – existing mining fronts remain open at depth

63Mt in Mineral Resources estimates¹

1.7% Cu, 3.5% Zn, 0.6g/t Au, 24g/t Ag

Gossan Valley

Production flexibility from an independent and relatively shallow high-grade mining front

Gossan Hill

High-grade Ore Reserves at Xantho Extended, Hougoumont Extended and Oizon

Scuddles

Cervantes a future potential growth option

1. In this presentation, all references to Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2025 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February 2026. Refer to the important information section on page 2 of this presentation for further information.

Golden Grove

Jun-Qtr-2026: Operations Overview

Ore mined contribution by source (%)

Copper Production (kt)

Comments

- TRIF¹ and LTIF¹ of 8.8 (Mar-Qtr: 9.8) and 0.0 (Mar-Qtr: 0.0), respectively.
- Ore mined 299kt (Mar-Qtr: 290kt).
- Ore milled 363kt (Mar-Qtr: 305kt).
- Ore milled was predominately copper ore (copper ore: 291kt vs zinc ore: 72kt) due to the temporary suspension of mining at Xantho Extended.
- Copper production of 4.8kt (Mar-Qtr: 6.4kt).
 - Grade milled 1.5% (Mar-Qtr: 2.3%); Recovery 89.6% (Mar-Qtr: 92.9%).
- Zinc production of 3.1kt (Mar-Qtr: 0.1kt) – primarily copper ore milled in Jun-Qtr.
- Gold ore stockpile blended into copper ore feed during the quarter, post a successful trial in the Mar-Qtr, contributing to higher quarter-on-quarter gold production (Jun-Qtr: 4.7koz vs Mar-Qtr: 1.1koz).

Zinc Production (kt)

¹ TRIF and LTIF metrics are reported as the 12-month moving average at the end of each quarter, reported on a per million work hours ('mwhrs') basis.

Golden Grove

Jun-Qtr-2026: Costs and Capital Overview

Site Costs (\$ million)

Unit Costs (US\$/lb)^{1,2}

Comments

- Ongoing containment of Site Costs (Jun-Qtr: \$96 million vs Mar-Qtr: \$97 million), despite ongoing inflationary pressures across the industry, reflects continued focus on cost reductions and productivity improvements.
- Higher quarter-on-quarter C1 unit costs (Jun-Qtr: US\$4.6/lb vs Mar-Qtr: US\$4.3/lb) was primarily due to lower quarter-on-quarter copper sales (Jun-Qtr: 11.5Mlbs vs Mar-Qtr: 14.0Mlbs) and a stockpile movement charge of \$30 million (Mar-Qtr: \$18 million), partially offset by higher by-product credits (Jun-Qtr: \$59 million vs Mar-Qtr: \$40 million).
- Progression of capital development works, at Oizon and Xantho Extended in particular, contributed to higher quarter-on-quarter AISC (Jun-Qtr: US\$6.1/lb vs Mar-Qtr: US\$5.1/lb).
- The Gossan Valley project remains on track for first ore by end of 2026, with decline development advanced during the quarter.

Capital (\$ million)

1. C1 Costs is the sum of mining costs (excluding capitalised development), processing costs, and G&A costs, concentrate transport, treatment and refining charges (TCRCs), stockpile movements, and by-product credits.

2. All-in Sustaining Costs (AISC) is the sum of C1 Costs, sustaining capital and capitalised development.

Gossan Valley remains on track for first ore by end of 2026

¹ In this presentation, all references to Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2025 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February 2026. Refer to the important information section on page 2 of this presentation for further information

High-grade Resource Extension intercepts highlight Golden Grove growth potential

Drilling continues to demonstrate potential mine-life extensions at Gossan Hill and highlight Cervantes as an attractive future growth option

Highlights:

Tryall Resource Extension drilling^{2,4}:

- 12.3m @ 2.8% Cu, 1.4g/t Au, 17g/t Ag, including:
 - 3.3m @ 9.2% Cu, 3.2g/t Au, 46g/t Ag
- 17.2m @ 2.6% Cu, 1.6% Zn, 0.4g/t Au, 19g/t Ag
- 17.0m @ 2.0% Cu, 0.3g/t Au, 16g/t Ag, including:
 - 7.0m @ 3.7% Cu, 0.4g/t Au, 25g/t Ag
- 14.7m @ 1.9% Cu, 0.3g/t Au, 10g/t Ag, including:
 - 5.2m @ 2.9% Cu, 0.3g/t Au, 15g/t Ag
- 20.2m @ 1.7% Cu, 0.4g/t Au, 10g/t Ag, including:
 - 5.8m @ 3.6% Cu, 0.6g/t Au, 23g/t Ag

Hougoumont Extended & Oizon Resource Extension drilling^{2,3,5}:

- 14.6m @ 2.6% Cu, 0.5g/t Au, 24g/t Ag, including:
 - 7.0m @ 4.9% Cu, 1.0g/t Au, 45g/t Ag
- 13.4m @ 2.5% Cu, 0.7g/t Au, 24g/t Ag, including:
 - 7.4m @ 3.2% Cu, 0.6g/t Au, 30g/t Ag
- 11.1m @ 2.1% Cu, 0.1g/t Au, 20g/t Ag
- 16.9m @ 1.6% Cu, 6.2% Zn, 0.8g/t Au, 21g/t Ag,
- 2.2m @ 5.1% Cu, 17.7g/t Au, 126g/t Ag
- 29.8m @ 16.9% Zn, 0.1% Cu, 1.2g/t Au, 16g/t Ag
- 21.6m @ 17.6% Zn, 0.3% Cu, 1.6g/t Au, 49g/t Ag

Cervantes Resource Extension drilling²:

- 17.8m @ 8.8% Zn, 0.1% Cu, 0.4g/t Au, 44g/t Ag
- 48.2m @ 2.4% Cu, 0.2g/t Au, 12g/t Ag, including:
 - 18.1m @ 3.8% Cu, 0.3g/t Au, 19g/t Ag

Europa Resource Extension drilling⁴:

- 13.9m @ 7.4% Cu, 0.4g/t Au, 33g/t Ag, including:
 - 9.2m @ 10.1% Cu, 0.5g/t Au, 41g/t Ag,

Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2025 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February 2026. Refer to the important information section on page 2 of this presentation for further information.

2. Refer ASX release "High-Grade Copper Drilling Results at Golden Grove" dated 9-Sep-2025, for further information regarding drilling results, including Competent Person's Statement and JORC Code Table 1 disclosures. Refer to Important Information on slide 2 of this presentation.

3. Refer ASX release "High-Grade Copper Intercepts at Golden Grove" dated 4-Nov-2025, for further information regarding drilling results, including Competent Person's Statement and JORC Code Table 1 disclosures. Refer to Important Information on slide 2 of this presentation.

4. Refer ASX release "High-grade Resource Extension intercepts at Golden Grove" dated 28-Apr-2026, for further information regarding drilling results, including Competent Person's Statement and JORC Code Table 1 disclosures. Refer to Important Information on slide 2 of this presentation.

5. Refer ASX release "High-grade Resource Extension intercepts at Oizon" dated 25-Jun-2026, for further information regarding drilling results, including Competent Person's Statement and JORC Code Table 1 disclosures. Refer to Important Information on slide 2 of this presentation.

A bright future at Golden Grove

Progressive ramp-up of mining from fresh ore sources to support metal production growth

Investment phase to enable mining of high-grade ore sources

- Reduction in capital expenditures expected from 2027.
- Harvest of the operational and financial benefits of investment phase planned from 2027.

Optimised mine plan

- High-grade ore sources to feed the mill from end of 2026 (Xantho Extended, Oizon and Gossan Valley).
- Gossan Valley to provide production flexibility from an independent and relatively shallow high-grade mining front.

Resource Extension exploration drilling ongoing

- 2026 targets informed by exploration success through 2025¹.
- Future drilling planned from underground drill platforms to test for extensions to existing Gossan Valley Mineral Resources estimates², which remain open at depth.

¹ Refer ASX release "High-grade copper intercepts highlight Golden Grove growth potential" dated 9-Sep-2025, ASX release "High-Grade Copper Intercepts at Golden Grove" dated 4-Nov-2025, ASX release "High-Grade Copper and Zinc Intercepts at Golden Grove" dated 19-Jan-2026, and Refer to ASX release "High-grade Resource Extension intercepts at Golden Grove" dated 28-Apr-2026.

Capricorn Copper: Production Restart | Resource Expansion

Exploration upside

History of both assets being highly responsive to step out drilling

1. Refer to 29Metals' ASX release entitled "Capricorn Copper – Suspension of Operations", released to the ASX announcements platform on 26 March 2024.

2. In this presentation, all references to Mineral Resources and Ore Reserves estimates are references to those estimates contained in 29Metals' 31 December 2025 Mineral Resources and Ore Reserves estimates, including Competent Person's statements and JORC Code Table 1 disclosures, released to the ASX announcements platform on 26 February 2026. Refer to the important information section on page 2 of this presentation for further information.

Metals

Appendix: Group Mineral Resources and Ore Reserve Estimates

Mineral Resources estimates at the Group level are the aggregation of 31 December 2025 Mineral Resources estimates for Golden Grove, Capricorn Copper and Redhill, as reported in subsequent sections of this release. Mineral Resources estimates have been depleted for production to 31 December 2025 at Golden Grove. For Capricorn Copper, the Mineral Resources estimates have reduced due to the toll treatment of Surface Stockpiles throughout 2025 (and noting production at Capricorn Copper continued to be suspended throughout 2025). 29Metals suspended production at Capricorn Copper on 26 March 2024 and production continues to be suspended. See 29Metals announcement, "Capricorn Copper – Suspension of Operations" dated 26 March

	Capricorn Copper	64.2	1.8	-	-	9	1,176	-	-	18,866
	Red Hill	4.3	1.7	-	0.3	33	71	-	40	4,611
	Total	131.3	<i>Grades not additive</i>				2,306	2,229	1,211	72,930

Note: estimates reported in the table above, other than silver, are rounded to once decimal place. Estimates for silver are rounded to zero decimal places. Additional grade and contained metal – Pb, Co, As, S and Fe – not shown in the table above are reported in underlying Mineral Resources estimates for assets (where applicable).

Ore Reserves estimates at the Group level are the aggregation of the 31 December 2025 Ore Reserves estimates for Golden Grove and Capricorn Copper, as reported in subsequent sections of this release. Ore Reserves estimates have been depleted for production to 31 December 2025 at Golden Grove. For Capricorn Copper, the Mineral Resources estimates have reduced due to the toll treatment of Surface Stockpiles throughout 2025 (and noting production at Capricorn Copper continued to be suspended throughout 2025). See 29Metals announcement, "Capricorn Copper – Suspension of Operations" dated 26 March.

Note: estimates reported in the table above, other than silver, are rounded to one decimal place. Estimates for silver are rounded to zero decimal places. Additional grade and contained metal – Pb and As – are reported in underlying Ore Reserves estimates for assets (where applicable).

Appendix: Golden Grove Mineral Resources and Ore Reserve Estimates

The 31 December 2025 Mineral Resources estimates for Golden Grove are set out in the table below and incorporate the results of resource conversion, resource extension and grade control drilling completed since the cut-off-date for the previous Mineral Resources estimates for Golden Grove (31 May 2024 to 31 May 2025 for estimates other than Amity and Gossan Valley, Scuddles, GG4-Tryall, Hougoumont and Oizon, Cervantes, and Europa. 31 May 2025 to 30 July 2025 for Amity and Gossan Valley, or 31 May 2024 to 09 September2025 for Scuddles, or 31 May 2024 to 20 September 2025 for GG4-Tryall, or 31 May 2024 to 10 October 2025 for Hougoumont and Oizon, or 31 May 2024 to 31 October for Cervantes, or 18 November 2024 to 3 November 2025 for Europa), depletion from production, updated resource modelling and geological interpretation, updates to the metallurgical and economic assumptions, and changes to cut-off values. The 31 December 2025 Ore Reserves estimates for Golden Grove are set out below and incorporate changes to the Golden Grove Mineral Resources estimates (refer above), depletion for production, design updates, and changes to cut-off values and other economic assumptions.

Appendix: Capricorn Copper Mineral Resources and Ore Reserve Estimates

29Metals suspended production at Capricorn Copper on 26 March 2024 and production continues to be suspended. See 29Metals announcement, “Capricorn Copper – Suspension of Operations” dated 26 March 2024. The Mineral Resources estimates for Capricorn Copper are set out in the table below. These Mineral Resources estimates were first reported 26 and 28 February 2025 and effective on 31 December 2024. There have been no material changes to the Mineral Resources estimated for Capricorn Copper since 31 December 2024. No further drilling was conducted at Capricorn Copper during 2025. The only update relates to the depletion and toll treatment of a surface stockpile throughout 2025. The 31 December 2025 Ore Reserves estimates for Capricorn Copper are set out below and incorporate changes to the Capricorn Copper Mineral Resources estimates (refer above), and changes to surface stockpiles.

Note, estimates of ore tonnes and grade reported in the table above, other than silver and arsenic grades, are subject to rounding to one decimal place. Estimates for silver and arsenic grade are rounded to zero decimal places.

Appendix: Redhill Mineral Resources Estimates

The Mineral Resources estimates for Redhill are set out in the table below. These Mineral Resources estimates were first reported and effective on 16 May 2016. There have been no material changes to the Mineral Resources estimated for Redhill since 16 May 2016. No further field work was conducted at Redhill during 2025.

The Redhill Mineral Resource estimates was previously released in 29Metals' ASX announcement titled 'December 2025 Mineral Resources & Ore Reserves estimates' on 26 February 2026 (a copy of which is available on 29Metals' website at <https://www.29metals.com/assets/reserves-and-resources>).

29Metals confirms that it is not aware of any new information or data that materially affects the information included in the ASX announcements noted above and that all material assumptions and technical parameters underpinning the Mineral Resource estimates for Redhill in the ASX announcement noted above continue to apply and have not materially changed. The form and context in which the Competent Person's findings are presented in the ASX announcement noted above have not been materially modified from the original ASX announcement.
