

GENUS AWARDED RIO TINTO 220KV MILLSTREAM SUBSTATION CONTRACT UNDER THE MASTER CONSTRUCTION AGREEMENT

HIGHLIGHTS:

- **Approximately \$55 million contract value for 220kV Millstream Substation contract**
- **Contract work to commence immediately and estimated to be completed in mid-2028**

Infrastructure construction, maintenance and services provider GenusPlus Group Ltd, (ASX: GNP) (Genus, or the Company) today announced the award of a circa \$55 million contract with Rio Tinto (RTIO).

Genus has been contracted for the construction of 220kV Millstream Substation expansion at the Millstream Substation Project Site (the **Project**) under the Master Construction Agreement ("MCA"). The Project is approximately 80km south of Karratha, north-east of Millstream-Chichester National Park in the Pilbara region of WA. The construction of the 220kV Millstream Substation will commence immediately and is estimated to be completed in mid-2028, with Genus' project workforce comprising approximately 50 personnel.

Genus was awarded a MCA for Electrical, Instrumentation and Controls ("EIC") works from Rio Tinto in March 2026. The scope of the MCA will be covered by Rio Tinto Iron Ore Pilbara Projects, and includes construction, brownfields expansion, and end of life replacement across Rio Tinto's Pilbara iron ore operations (mines, ports, rail, and associated infrastructure). The agreement is for a three-year term with extension options.

Genus' Managing Director David Riches welcomed the opportunity to extend the relationship with Rio Tinto through the delivery of further Rio Tinto energy infrastructure. "We are delighted to secure the 220kV Millstream Substation contract and continue to build on our long and successful relationship with Rio Tinto. We look forward to completing the works safely and on time. This contract award is important as we convert our strong tender pipeline to orderbook heading into FY2027." Mr Riches said
