## About Right Resources (ASX: RRE)

Right Resources Limited is a New South Wales-based mineral exploration company focused on advancing a portfolio of gold, copper and critical mineral assets across 2,459 km<sup>2</sup> of tenements in the Tumbarumba and New England regions, both located within historically significant goldfields and mineral provinces.

The Company's flagship asset is the Pilot Project, a high-grade gold target in the Tumbarumba Region with a history of high-grade underground gold production (~38 g/t Au), which is being advanced through a maiden diamond drilling program in collaboration with CODES (Centre for Ore Deposit and Earth Sciences, University of Tasmania). The Blue Prospect tungsten discovery adds a significant critical minerals dimension to the Company's portfolio.
