Weebit Nano upgrades revenue guidance

19 July 2026 – Weebit Nano Ltd (**ASX: WBT**, **Weebit** or **Company**), a leading developer of advanced memory technologies for the global semiconductor industry, advises that it has upgraded its revenue guidance for the twelve months ending 30 June 2026 ahead of the release of its FY 2026 full year results.

Based on unaudited numbers, the Company now expects revenue to be **at least A$13.5 million,** replacing previous guidance of "at least A$12 million". The increased revenue guidance is mainly attributable to the expansion of customer projects.

The audited FY 2026 results are due for release on 28 August 2026.

About Weebit Nano Limited

Weebit Nano Ltd. is a leading developer and licensor of advanced semiconductor memory technology. The company's ground-breaking Resistive RAM (ReRAM) non-volatile memory (NVM) addresses the growing need for significantly higher performance and lower power memory solutions in advanced system-on-chip (SoC) designs for applications such as AI inference, automotive electronics, industrial systems, analog and power ICs, and secure devices. Weebit ReRAM allows semiconductor memory elements to be significantly faster, less expensive, more reliable and more energy efficient than those using existing flash memory solutions. As it is based on fab-friendly materials, the technology can be quickly and easily integrated with existing flows and processes, without the need for special equipment or large investments.
