ClearVue Share Purchase Plan closes oversubscribed

21 July 2026 – Perth, Australia: Smart building materials company ClearVue Technologies Limited (**ASX:CPV OTC: CVUEF**) (***ClearVue*** or the ***Company***) has successfully closed its Share Purchase Plan (SPP) announced to ASX on 22 June 2026.

Strongly supported by eligible shareholders, the SPP was oversubscribed beyond the $1 million the Company initially sought to raise. Valid applications were received totaling $1,291,000. The issue price of the shares will be $0.088, being the lower of $0.115 per share or a 2.5% discount to the VWAP of shares traded on the ASX over the five trading days up to the closing date of the SPP, as set out in the SPP Offer Booklet.

ClearVue's Board has exercised its absolute discretion under the terms of the SPP to accept the oversubscriptions.

Recipients of shares under the SPP will also receive a 1-for-1 free attaching option. The options will have an exercise price of $0.115, expire three years from their date of issue, and are subject to shareholder approval under Listing Rule 7.1.

As an overall result of the SPP, the Company has issued 14,670,426 shares. The 14,670,426 free attaching options will be issued at a later date following shareholder approval at an upcoming General Meeting, the date of which is to be confirmed.

Commenting on the results of the SPP, CEO and Managing Director Doug Hunt said:

"The strong support we have received from both existing and new shareholders is a clear vote of confidence in ClearVue's strategy and commercial direction. We are grateful for that support and remain focused on executing our growing global project pipeline, advancing product certification and delivering long-term value for our shareholders."

The Company wishes to thank shareholders for their continued support.

Authorised by the Board of ClearVue Technologies Limited.

ABOUT CLEARVUE TECHNOLOGIES LIMITED

ClearVue Technologies Limited (ASX: CPV; OTCX: CVUEF) is an Australian technology company that integrates solar technology into building façade and rooftop surfaces to provide renewable energy generation and offset the operational carbon footprint of buildings. The Company's advanced, patented glass technology preserves glass transparency maintaining building aesthetics while generating energy.

ClearVue has extended solar energy-generation to vision glass, cladding, spandrel, balustrade, and skylight solutions. These solutions can offset operational energy requirements significantly contributing to the net zero building.

ClearVue's integrated solar façade is revolutionizing the way buildings are designed, constructed, and renovated. Experience how building façades will become a major contributing factor to reducing operational carbon by visiting ClearVue at www.clearvuepv.com.
