Macquarie Asset Management (MAM) net profit contribution¹ was down on prior corresponding period (pcp) (1Q26), driven by the divestment of the North American and European public investments business in 2H26.

Banking and Financial Services (BFS) net profit contribution was up on pcp, driven by volume growth in the loan portfolio and BFS deposits, partially offset by lower margins due to changes in portfolio mix and lending and deposit competition.

Outlook

Macquarie continues to maintain a cautious stance, with a conservative approach to capital, funding and liquidity that positions it well to respond to the current environment.

The range of factors that may influence Macquarie's short-term outlook include:

- Market conditions including: global economic conditions, inflation and interest rates, significant volatility events, and the impact of geopolitical events
- Completion of period-end reviews and the completion of transactions
- The geographic composition of income and the impact of foreign exchange
- Potential tax or regulatory changes and tax uncertainties

Macquarie remains well-positioned to deliver superior performance in the medium term with established, diverse income streams. This is due to its deep expertise across diverse sectors in major markets with structural growth tailwinds; patient adjacent growth across new products and new markets; ongoing investment in the operating platform; a strong and conservative balance sheet; and a proven risk management framework and culture.

⁹ Committed equity portfolio as at 30 June 2026.

Highlights from the address of Chair, Glenn Stevens

In addition to announcing Shemara Wikramanayake's upcoming retirement, Macquarie Group Chair, Glenn Stevens, outlined the Group's strong year ended 31 March 2026 (FY26) performance with each of the four operating groups contributing to the improved result, "which says something about the breadth of the Group's businesses," he said.

Mr Stevens said the "Group delivered a profit of \$A4.8 billion in FY26, up 30 per cent on the previous year's result. A disciplined approach, including the reallocation of capital towards those activities most likely to offer attractive risk-adjusted returns, remains key to ongoing improvement."

Mr Stevens said the Group ended FY26 with "a common equity tier 1 capital ratio of 12.8 per cent as per APRA standards," and that the Board resolved to pay a total dividend of \$A7.00 per share for the year.

In addition, Mr Stevens highlighted the continued focus on risk culture and remediation of regulatory issues.

"Macquarie's remediation work for past regulatory and compliance shortcomings continues, with good progress on platform and data upgrades and regulatory engagement," he said.

Macquarie remains well-positioned to continue playing a constructive role as a financier, adviser, investor and fiduciary in the sustainability space. Mr Stevens said, "Macquarie remains committed to the goals of the Paris Agreement. The longstanding view remains that an orderly energy transition is the only way to balance availability, affordability, and emissions reduction."

As previously noted to shareholders, Macquarie announced William Vereker joined the Macquarie Group Board as an independent director in February 2026. Mr Stevens noted Mr Vereker is based in Europe, and he brings considerable global experience in financial services, both as an executive and as a director. Jillian Broadbent has decided to step down from the Macquarie Group and Macquarie Bank Boards in December 2026, having served eight years. Mr Stevens acknowledged Ms Broadbent's "significant contribution to the Boards over this time, including as Chair of the Remuneration Committee."
