About Ronin Resources Ltd

Ronin Resources Limited (ASX: RON) is an ASX listed company focused on the evaluation and assessment of the Vetás, and the La Punilla Projects located in Colombia and Argentina respectively. Both projects are 100% owned by Ronin. The Company also seeks to evaluate and assess complementary new business opportunities capable of delivering shareholder returns.

ASX Announcement

29 July 2026

June 2026 Quarterly Activities Report and Appendix 5B

- Continued exploration work at the Company's 100% owned La Punilla gold-silver project located in San Juan, Argentina.
- Rock chip sampling and extensive mapping conducted by geologists and field assistants.
- Drone-based high-resolution aeromagnetic survey completed, with results indicating a magnetic source below the main area of interest, the Quebrada Palca colour anomaly.
- Follow-up field campaign has commenced to extend sampling at remaining targets and ground-truth recently identified magnetic anomalies.
- The Company remains actively engaged in the evaluation and assessment of complementary acquisition opportunities.
- Cash reserves of \$2.754m as at 30 June 2026.

Ronin Resources Ltd (**ASX: RON**) (**Ronin** or the **Company**) provides the following report and attached Appendix 5B to its shareholders for the quarter ended 30 June 2026.

The Company's primary activities during the quarter were to advance exploration at its 100% owned La Punilla gold-silver project located in the San Juan region in Argentina, and continue to identify and assess value accretive acquisition opportunities.

La Punilla gold-silver project, San Juan, Argentina

Geological mapping and rock-chip sampling continued during the quarter focused on detailed follow-up mapping and sampling of the Quebrada Palca colour anomaly and initial sampling of several anomalies that have been identified by Sentinel 2 satellite data (Figure 2) and ground-truthing the magnetic anomaly.

Drone-Based Aeromagnetic Survey

A drone-based aeromagnetic survey was completed by local Argentinian geological contractor, DAMS Geophysics, to investigate whether a magnetic source underlies the surface alteration and to map its geometry at depth.

Survey results, received and reported during the quarter (refer ASX announcement 4 May 2026), indicate a magnetic source directly below the Quebrada Palca colour anomaly (Figure 1). Dimensions of the surveyed part of the anomaly are about 1km x 500m. The anomaly appears to weaken at its eastern extremity, but was not closed off. These dimensions are within the size-range of the magnetite bearing parts of the potassic alteration zone in porphyry copper deposits.

Figure 1: Results of the aeromagnetic survey. Processing shown is the analytical signal of the vertical integral. This processing removes regional gradients and allows the correct spatial positioning of magnetic sources. Here it is overlain semi-transparently on a high-resolution satellite image. Stars indicate rock-chip geochemical sample locations. The cluster in the eastern part of the grid represents the location of the samples taken over the Quebrada Palca colour anomaly.

Geochemical results from samples over the Quebrada Palca colour anomaly

As reported in the Company's 4 May 2026 ASX announcement, gold values from the quartz veinlets zone were up to 3.04 g/t in the new sampling and copper up to 1,055 ppm (Figure 3). Copper and gold anomalous samples are mainly concentrated in an east-northeast trending belt. This trend coincides with the long axis of the magnetic anomaly. Anomalous molybdenum and tungsten were also found (W shown in Figure 3). A sample in which wolframite had been identified in the field had 2,110 ppm tungsten indicating a granitoid intrusive affinity. Silver values were also elevated, with a maximum of 13.75 g/t (Figure 3).

Figure 2: La Punilla Project – Main Area of Interest (Quebrada Palca Colour Anomaly) showing targets identified, MTMF anomalies and all rock chip samples from the January 2026 campaign. Map indicates the new work which was undertaken in January 2026; new sample locations are shown with star symbols, MTMF anomalies by magenta-coloured polygons, and purple lines represent interpreted faults.

Figure 3: Quebrada Palca rock-chip geochemistry — Au (top left), Ag (top right), Cu (bottom left), W (bottom right). Combined results from the November 2025 (refer ASX announcement, 27 January 2026) and January 2026 field campaigns. Peak values labelled. WGS84 Zone 19S.

Results from other areas

Encouraging gold anomalies were returned from Target 3, located approximately 6 km WSW of the Quebrada Palca colour anomaly (Figure 4). The highest value from the samples taken was 0.16 g/t Au. The association of anomalous gold from this preliminary sampling with ammonium illite (refer ASX announcement 27 January 2026) indicates that the mineralising process is not restricted to the Quebrada Palca colour anomaly and that there is scope to identify additional occurrences elsewhere within the property package. MTMF-processed Sentinel 2 imagery has performed well at Target 3 and will assist in focusing field efforts on the most prospective parts of the property package.

Figure 4: Thematic map of gold results from Target 3 (in g/t). The yellow point indicates the position of a sample that had 0.16 g/t Au. Note that the reddish toned rocks that host the anomalous gold extend south-east beyond the area sampled.

Future work planned

A follow-up field campaign was completed that prioritized sampling the remaining anomalies, particularly Target 4 and Target 5 (the latter on an adjacent property to the north, see Figure 5), more detailed sampling of Target 3, and revisiting Target 1 and selected magnetic anomalies identified by the recent aeromagnetic survey.

Figure 5: La Punilla Project – All targets identified and areas of interest, including MTMF anomalies and all rock chip sampling locations to date.

Other Projects

No exploration activities were undertaken at the Vetás Project in Colombia during the quarter.

No mining production or development activities were undertaken during the quarter.

Acquisition Opportunities

As noted in the Company's 19 February 2026 ASX announcement, Ronin was in early-stage discussions with respect to acquiring an interest in an early-stage copper-gold project located in Argentina. Commercial terms between the parties could not be agreed, and discussions between the parties ceased. The Company remains actively involved in seeking and assessing complementary and value accretive acquisition opportunities and will update the market in accordance with its continuous disclosure obligations.

Appendix 5B related party payments

Payments during the June 2026 quarter to related parties comprised Director remuneration for the period April 2026 – June 2026 totalling \$20,000.

Expenditure during the quarter

During the June 2026 quarter the Company spent \$74,000 on geological exploration consulting services.

Interests in Mining Tenements

Below is a summary of the mining tenements held by the Company at the end of the quarter:

Claim/tenement number	Project / Location	Acquired Interest during the quarter	Disposed interest during quarter	Interest at end of Quarter
FI3-152 Mining Title	Vetas Project, Colombia	-	-	100%
Mining License Applications 507079, 507084, 507085, 507086	Vetas Project, Colombia	-	-	100%
Application N°1124-628-2024 Application N°1124-629-2024 Application N°1124-630-2024	La Punilla, San Juan, Argentina	-		100%

-Ends-

This announcement has been approved for release by the Board of RON.

About Ronin Resources Ltd

The Company was admitted to the Official List (ASX code: RON) in December 2021 and focused on the assessment and evaluation of its 100% owned Vetas Project located in Colombia. Since listing, the Company acquired (and subsequently divested) the Hornby Lake lithium project in Canada and applied for the La Punilla gold-silver project in San Juan, Argentina and continues to seek to identify, assess and potentially acquire other complementary new business opportunities capable of delivering shareholder returns.

Previously Reported Information

This announcement contains references to exploration results previously reported by the Company, including in its ASX announcements of 27 January 2026, 27 February 2026 and 4 May 2026. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original announcements and that all material assumptions and technical parameters underpinning the results in those announcements continue to apply and have not materially changed.

Forward Looking Statement

This ASX announcement may include forward-looking statements. These forward-looking statements are not historical facts but rather are based on Ronin Resources Ltd's current expectations, estimates and assumptions about the industry in which Ronin Resources Ltd operates, and beliefs and assumptions regarding Ronin Resources Ltd's future performance. Words such as "anticipates", "expects", "intends", "plans", "believes", "seeks", "estimates", "potential" and similar expressions are intended to identify forward-looking statements. Forward-looking statements are only predictions and are not guaranteed, and they are subject to known and unknown risks, uncertainties and assumptions, some of which are outside the control of Ronin Resources Ltd. Past performance is not necessarily a guide to future performance and no representation or warranty is made as to the likelihood of achievement or reasonableness of any forward-looking statements or other forecast. Actual values, results or events may be materially different to those expressed or implied in this ASX announcement. Given these uncertainties, recipients are cautioned not to place reliance on forward looking statements. Any forward-looking statements in this announcement speak only at the date of issue of this announcement. Subject to any continuing obligations under applicable law and the ASX Listing Rules, Ronin Resources Ltd does not undertake any obligation to update or revise any information or any of the forward-looking statements in this announcement or any changes in events, conditions, or circumstances on which any such forward looking statement is based.

4.4	Net cash from / (used in) financing activities (item 3.10 above)	-	-

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Consolidated statement of cash flows		Current quarter \$A'000	Year to date (12 months) \$A'000
4.5	Effect of movement in exchange rates on cash held	-	-
4.6	Cash and cash equivalents at end of period	2,754	2,754

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	2,754	2,895
5.2	Call deposits	-	-
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	2,754	2,895

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	20
6.2	Aggregate amount of payments to related parties and their associates included in item 2	-
<i>Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.</i>		

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7. Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1 Loan facilities	-	-
7.2 Credit standby arrangements	-	-
7.3 Other (please specify)	-	-
7.4 Total financing facilities	-	-
7.5 Unused financing facilities available at quarter end		-
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
N/A		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(141)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(141)
8.4 Cash and cash equivalents at quarter end (item 4.6)	2,754
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	2,754
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	19.53
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 29 July 2026

Authorised by: The Board of Directors

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
