ASX Announcement & Media Release

June 2026 Quarterly Activities Report

FAR Limited (**ASX: FAR**) (**Company** or **FAR**), provides its quarterly activities report for the quarter ended 30 June 2026.

Highlights

- Woodside Energy (**Woodside**) advised the ASX on 29 July 2026 in its 'Second Quarter Report' that the Sangomar field offshore Senegal achieved an average daily production rate of 99 Mbbl/d (100% basis, 86 Mbbl/d Woodside share) with reliability of 99.3%.
- FAR received a provisional 2025 Contingent Payment from Woodside of US$23.7 million during the quarter.
- A capital return of 35 cents per share was paid on 11 June 2026 and after the end of the quarter, the Company received an ATO Class Ruling.
- Cash at quarter end was US$1.97 million (unaudited).

Woodside Energy Contingent Payment

As part of the consideration for the sale of its interest in the RSSD Project in Senegal to Woodside Energy, FAR received rights to a Contingent Payment with a maximum value of US$55 million.

The Contingent Payment comprises 45% of entitlement barrels (being the share of oil relating to FAR's previously held 13.67% of the RSSD Project comprising the Sangomar Field exploitation area of interest), multiplied by the excess of the crude oil price per barrel and US$58 per barrel (capped at US$70 per barrel). The crude oil price for this purpose is the simple average of the mid-points of bid and offers for Dated Brent. The Contingent Payment terminates on the earliest of 31 December 2027, three years from the first oil being sold (excluding periods of zero production), or a total Contingent Payment of US$55 million being reached, whichever occurs first.

Woodside Energy's Second Quarter Report for the period ended 30 June 2026 which was released to the ASX on 29 July 2026 noted the following in relation to Sangomar:

- Achieved an average daily production rate of 99 Mbbl/d (100% basis, 86 Mbbl/d Woodside share) with reliability of 99.3%.
- Reservoir performance continues to exceed expectations, particularly in the lower S500 reservoirs. This has been the result of greater than anticipated aquifer pressure support which, together with rigorous well and network optimisation, enabled an extended initial plateau and some mitigation of decline rates now being experienced.
- Evaluation continued for a potential Phase 2 development targeting the upper S400 reservoirs.
- Engagements with Petrosen and the government on a potential Phase 2 development are ongoing.

FAR received in May 2026 a provisional calendar year 2025 Contingent Payment of US$23.7 million. This amount was in line with FAR's estimate of the amount payable to FAR based on Woodside Energy's announced 2025 Sangomar product sales of 28.4 MMbbl. Payment of the provisional amount is subject to a reconciliation process and means that the maximum future Contingent Payment to be subsequently received by FAR is US$19.8 million.

Corporate

On 28 May 2026, the Company's shareholders approved the capital return (**Capital Return**) of 35 cents per share, returning approximately A$32.3 million to shareholders on 11 June 2026.

On 15 July 2026, FAR announced that the Australian Taxation Office had published a Class Ruling (CR 2026/40 FAR Limited – return of capital). The Class Ruling confirmed that no part of the Capital Return will be assessable as a dividend. The Class Ruling also confirms that qualifying shareholders will be entitled to treat any resulting capital gain as a discounted capital gain and that certain foreign resident shareholders will be entitled to disregard any resulting capital gain or loss. Shareholders should refer to the Class Ruling for a better understanding of its contents and consult their own tax adviser as to the potential tax consequences for them with respect to the Capital Return.
