

ASX ANNOUNCEMENT

Lumos receives US\$767,800 FebriDx® order from PHASE Scientific

MELBOURNE, Australia (4 August 2026) – Lumos Diagnostics Holdings Ltd (ASX:LDX, “Lumos” or the “Company”) a leader in rapid, point-of-care diagnostic technologies, is pleased to announce that it has received a US\$767,800 FebriDx® purchase order from PHASE Scientific.

Product delivery will be fulfilled progressively between now and October 2026, with revenue recognised upon shipment.

This purchase order is the initial order associated with the US\$5.0 million prepayment milestone received by Lumos following the grant of CLIA waiver for FebriDx® by the U.S. FDA on 27 March 2026. The order satisfies part of the Year 1 minimum order quantity commitment under the distribution agreement with PHASE Scientific and will be credited against the prepayment, with the remaining prepayment balance available to support subsequent purchase orders.

Commenting on the announcement, Doug Ward, CEO and Managing Director of Lumos Diagnostics said: *“We are encouraged by the continued momentum as we advance the commercialisation of FebriDx®. This order comes at an important time as U.S. healthcare providers prepare for the upcoming flu season. We look forward to supporting the continued adoption of rapid, point-of-care acute respiratory infection testing across the U.S. market.”*
