

Second Quarter 2026 Earnings Presentation

August 4, 2026 – U.S.

August 5, 2026 – Australia

Forward-Looking Statements

In this presentation, and the oral remarks made in connection herewith, Light & Wonder makes “forward-looking statements” within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements describe future expectations, plans, results or strategies and can often be identified by the use of terminology such as “may,” “will,” “estimate,” “intend,” “plan,” “continue,” “believe,” “expect,” “anticipate,” “target,” “should,” “could,” “potential,” “opportunity,” “goal,” or similar terminology. These statements are based upon current Company management (“Management”) expectations, assumptions and estimates and are not guarantees of timing, future results or performance. Therefore, you should not rely on any of these forward-looking statements as predictions of future events. Actual results may differ materially from those contemplated in these statements due to a variety of risks and uncertainties and other factors, including, among other things: our inability to successfully execute our strategy; slow growth of new gaming jurisdictions, slow addition of casinos in existing jurisdictions and declines in the replacement cycle of gaming machines; risks relating to foreign operations, including anti-corruption laws, fluctuations in currency rates, restrictions on the payment of dividends from earnings, restrictions on the import of products and financial instability; difficulty predicting what impact new or increased tariffs imposed by and other trade actions taken by the U.S. and foreign jurisdictions could have on our business; U.S. and international economic and industry conditions, including changes in consumer sentiment and discretionary spending, increases in benchmark interest rates and the effects of inflation; public perception of our response to environmental, social and governance (or “ESG”) issues; the effects of health epidemics, contagious disease outbreaks and public perception thereof; changes in, progress under, or the elimination of our share repurchase program; level of our indebtedness, higher interest rates, availability or adequacy of cash flows and liquidity to satisfy indebtedness, other obligations or future cash needs; inability or failure to further reduce or refinance our indebtedness, or to achieve investment-grade level leverage profile; restrictions and covenants in debt agreements, including those that could result in acceleration of the maturity of our indebtedness; competition; inability to win, retain or renew, or unfavorable revisions of, existing contracts, and the inability to enter into new contracts; risks and uncertainties of ongoing changes in U.K. gaming legislation, including any new or revised licensing and taxation regimes, responsible gambling requirements and/or sanctions on unlicensed providers; inability to adapt to, and offer products that keep pace with, evolving technology, including any failure of our investment of significant resources in our R&D efforts; failure of our investments in artificial intelligence and infrastructure to achieve some or all of their intended benefits, including improved efficiency and growth; failure to retain key management and employees; unpredictability and severity of catastrophic events, including but not limited to acts of terrorism, war, armed conflicts or hostilities, the impact such events may have on our customers, suppliers, employees, consultants, business partners or operations, as well as management’s response to any of the aforementioned factors; changes in demand for our products and services; dependence on suppliers and manufacturers; SciPlay’s dependence on certain key providers; ownership changes and consolidation in the gaming industry; fluctuations in our results due to seasonality and other factors; the risk that any potential disruptions from the Grover acquisition will harm relationships with customers, employees and suppliers; the possibility that the Company may be unable to achieve expected financial, operational and strategic benefits of the Grover acquisition and may not be able to successfully integrate Grover into the Company’s operations; risks relating to delisting our securities from Nasdaq and transitioning to a sole primary listing on the ASX, which could negatively affect the liquidity and trading prices of our common stock or CDIs, impact our investors’ ability to trade in our securities and our access to the capital markets and could lead to price variations and other impacts on holders of our common stock, CDIs and other securities; risks associated with having a sole primary listing on the ASX and remaining an SEC registrant, including significant compliance costs and risks of noncompliance; security and integrity of our products and systems, including the impact of any security breaches or cyber-attacks; protection of our intellectual property, inability to license third-party intellectual property and the intellectual property rights of others; reliance on or failures in information technology and other systems; litigation and other liabilities relating to our business, including litigation and liabilities relating to our contracts and licenses, our products and systems, our employees (including labor disputes), intellectual property, environmental laws and our strategic relationships; reliance on technological blocking systems; challenges or disruptions relating to the completion of the domestic migration of, and recent acquisition integrations into, our enterprise resource planning system; laws, government regulations and new or increased trade tariffs, both foreign and domestic, including those relating to gaming, data privacy and security, including with respect to the collection, storage, use, transmission and protection of personal information and other consumer data, and environmental laws, and those laws and regulations that affect companies conducting business on the Internet, including online gambling; legislative interpretation and enforcement, regulatory perception and regulatory risks with respect to gaming, including Internet wagering, social gaming, prediction markets and sweepstakes; changes in tax laws or tax rulings, or the examination of our tax positions; opposition to legalized gaming or the expansion of such opposition and potential restrictions; significant opposition in some jurisdictions to interactive social gaming, including social casino gaming and how such opposition could lead these jurisdictions to adopt legislation or impose a regulatory framework to govern interactive social gaming or social casino gaming specifically, and how this could result in a prohibition on interactive social gaming or social casino gaming altogether, restrict our ability to advertise our games, or substantially increase our costs to comply with these regulations; expectations of the shift to regulated digital gaming; inability to develop successful products and services and capitalize on trends and changes in our industries, including the expansion of Internet and other forms of digital gaming; the continuing evolution of the scope of data privacy and security regulations, and our belief that the adoption of increasingly restrictive regulations in this area is likely within the U.S. and globally; incurrence of restructuring costs; goodwill impairment charges including changes in estimates or judgments related to our impairment analysis of goodwill or other intangible assets; stock price volatility; failure to maintain adequate internal control over financial reporting; dependence on key executives; natural events, including natural disasters, extreme weather and other natural events related to climate change, that disrupt our operations, or those of our customers, suppliers or regulators; and expectations of growth in total consumer spending on social casino gaming.

Additional information regarding risks and uncertainties and other factors that could cause actual results to differ materially from those contemplated in forward-looking statements is included from time to time in our filings with the SEC and lodgements with the ASX, including the Company’s Current Reports on Form 8-K, Quarterly Reports on Form 10-Q and its latest Annual Report on Form 10-K for the year ended December 31, 2025 filed with the SEC on February 24, 2026 (including under the headings “Forward-Looking Statements” and “Risk Factors”). Forward-looking statements speak only as of the date they are made and, except for our ongoing obligations under the U.S. federal securities laws and ASX Listing Rules, we undertake no, and expressly disclaim any, obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise.

You should also note that this presentation may contain references to industry market data and certain industry forecasts. Industry market data and industry forecasts are obtained from publicly available information and industry publications. Industry publications generally state that the information contained therein has been obtained from sources believed to be reliable, but that the accuracy and completeness of that information is not guaranteed. Although we believe industry information to be accurate, it is not independently verified by us, and we do not make any representation as to the accuracy of that information. In general, we believe there is less publicly available information concerning the international gaming, charitable gaming, social and digital gaming industries than the same industries in the U.S.

IN \$ MILLIONS

Consolidated AEBITDA⁽¹⁾ Drivers

- **Gaming AEBITDA +\$44M YoY**, delivered primarily on Gaming operations growth, inclusive of Grover, supplemented by operational efficiencies
- **SciPlay AEBITDA flat YoY**, reflective of a softer social casino market, offset by resilient player monetization and DTC⁽⁴⁾ expansion
- **iGaming AEBITDA +\$11M YoY**, primarily driven by revenue growth and N.A. 1PP content proliferation
- **Corporate and other -\$8M YoY**, primarily reflective of investments made to support AI initiatives in 1Q26 and higher legal fees

Adjusted NPATA⁽¹⁾

- **Consolidated AEBITDA⁽¹⁾ +\$47M YoY**, driven by modest revenue growth, favorable product mix shifts, contributions from Grover, and margin expansion across all three business segments
- **Depreciation and amortization (D&A) -\$14M YoY**, primarily driven by higher depreciation of Gaming operations units, inclusive of Grover
- **Interest expense -\$16M YoY**, primarily due to higher outstanding debt used to complete the Grover acquisition
- **Income tax +\$8M YoY**, primarily due to changes in worldwide income

(4) Illustrative gross turns equivalent impact is a non-GAAP financial measure presented on a supplemental basis for illustrative purposes only. Illustrative gross turns equivalent impact equals total gross capital deployed related to share buy back since 2022 divided by Consolidated AEBITDA for the twelve months ended June 30, 2026. It is not pro forma information under Article 11 of Regulation S-X, excludes taxes, financing fees and interest expense incurred or avoided, and does not consider other direct and indirect sources and uses of cash. Illustrative gross turns equivalent impact should not be considered in isolation from, or as a substitute for, the Company's historical financial statements, including principal face value of debt outstanding, or any other GAAP financial measure. Furthermore, illustrative gross turns equivalent impact may not be comparable to similarly titled measures used by other companies. Illustrative gross turns equivalent impact does not reflect the Company's historical financial condition or results of operations, or management's expectations for future results or capital allocation. Additional information regarding illustrative gross turns equivalent impact, including a reconciliation of illustrative gross turns equivalent impact is available in the appendix.

Prioritizing Our Capital Allocation Initiatives

Disciplined Investment in Key Growth Opportunities

- Invest with purpose to maximize ROI of every dollar invested
- Continued investments in content (studio expansion), Grover, and AI
- Target annual R&D and capex spend of roughly 17%⁽¹⁾ with AI expected to further optimize efficiency over time

Optimized Capital Structure on Debt Reduction

- Target to reduce net debt leverage ratio⁽²⁾ below 3.0x during 1H27 with the intention to move toward an investment grade level leverage profile⁽³⁾
- Expect to reduce leverage into FY27 (subject to any strategic capital allocation opportunities)
- Prioritize debt pay down and de-lever through 2H FY26 and into FY27

Capital Return to Shareholders⁽⁴⁾

- Q2 buy-back \$134M (1H 26: \$156M)
- \$180M of capacity remains under approved buy-back program⁽⁴⁾
- Returned \$2.1B to shareholders since inception, ~27% of total outstanding shares prior to program commencement⁽⁵⁾
- Short-term, buy-back activity to pare back in favor of debt reduction in 2H26

Financial Outlook

Light & Wonder reaffirms financial outlook of mid-to-high single-digit Consolidated AEBITDA⁽¹⁾ growth in FY 2026

- **Mid-to-high single digit Consolidated AEBITDA⁽¹⁾ growth supports strong Adjusted NPATA⁽¹⁾ and EPSa⁽¹⁾⁽²⁾ growth**
- **We continue to anticipate the shape of earnings to be broadly in line with 2025 phasing, weighted toward the second half scaling into 4Q.** This reflects industry cyclicalities and our customer capex intentions, our growing recurring revenue base⁽³⁾, and investments weighted towards the 1H
- **This takes into consideration current FY26 annual estimates regarding:**
 - External factors (U.S. tariffs, change in U.K. iGaming tax rates) (est. \$40M adverse impact)
 - Strategic investments (AI, new market openings e.g., Grover Indiana) (est. \$20M adverse impact)
 - Costs pertaining to legal matters (est. \$10M adverse impact)
- **From a capital management perspective, we remain committed to de-lever to <3.0x during 1H27⁽¹⁾ with the intention to move toward an investment grade level leverage profile**
- **L&W remains focused on our FY28 targets of >US\$10.55/share EPSa⁽¹⁾⁽²⁾ and \$2.0B Consolidated AEBITDA⁽¹⁾**

(1) Denotes a non-GAAP financial measure with additional information available in the appendix. We are not providing forward-looking quantitative reconciliations of targeted Consolidated AEBITDA, targeted net debt leverage ratio, or targeted EPSa to the most directly comparable GAAP measure because we are unable to do so without unreasonable efforts or to reasonably estimate the projected outcome of certain significant items. These items are uncertain, depend on various factors out of our control and could have a material impact on the corresponding measures calculated in accordance with GAAP.

(2) Adjusted NPATA per share (EPSa) is calculated based on weighted average number of diluted shares.

(3) Recurring revenue include Gaming Operations (inclusive of Grover), ongoing Gaming systems maintenance, table services/rental agreements, SciPlay and iGaming revenues.

We are not providing forward-looking quantitative reconciliations of targeted Consolidated AEBITDA or targeted EPSa to the most directly comparable GAAP measure because we are unable to do so without unreasonable efforts or to reasonably estimate the projected outcome of certain significant items. These items are uncertain, depend on various factors out of our control and could have a material impact on the corresponding measures calculated in accordance with GAAP.

(7) Adjusted NPATA per share (EPSa) is calculated based on weighted average number of diluted shares.

Non-GAAP Financial Measures

Management uses the following non-GAAP financial measures in conjunction with GAAP financial measures: Adjusted NPAT, Adjusted NPATA, Adjusted NPATA per share (on a diluted basis) (also referred to as EPSa), Normalized EBITA, Normalized EBITDA, Consolidated AEBITDA (representing continued operations), Grover Adjusted EBITDA, AEBITDA from discontinued operations, Combined AEBITDA, Consolidated AEBITDA margin, Free cash flow, Adjusted free cash flow, EBITDA from equity investments, Net debt, Net debt leverage ratio and Combined net debt leverage ratio (each, as described more fully below). These non-GAAP financial measures are presented as supplemental disclosures. They should not be considered in isolation of, as a substitute for, or superior to, the financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. The non-GAAP financial measures used by the Company may differ from similarly titled measures presented by other companies. Following our transition to a sole primary listing on the ASX, Management introduced usage of Adjusted NPAT, Adjusted NPATA, Adjusted NPATA per share (EPSa), Normalized EBITA and Normalized EBITDA, all of which are non-GAAP financial measures and are widely used to measure the performance as well as a principal basis for valuation of gaming and other companies listed on the ASX. Specifically, Management uses Consolidated AEBITDA to, among other things: (i) monitor and evaluate the performance of the Company's continuing operations; (ii) facilitate Management's internal and external comparisons of the Company's consolidated historical operating performance; and (iii) analyze and evaluate financial and strategic planning decisions regarding future operating investments and operating budgets. In addition, Management uses Consolidated AEBITDA and Consolidated AEBITDA margin to facilitate its external comparisons of the Company's consolidated results from continuing operations to the historical operating performance of other companies that may have different capital structures and debt levels. Following the closing of the Grover acquisition, Management introduced usage of certain of these non-GAAP financial measures on a "Combined" basis. Combined non-GAAP financial measures include results for both the Company and Grover on a combined basis, inclusive of periods prior to the closing of the acquisition. The Combined measures do not reflect any pro forma adjustments or other adjustments for costs related to integration activities, cost savings or other synergies that have been or may have been achieved if the business combination occurred as of the beginning of the applicable twelve-month period. We cannot assure you that such measures would not be materially different if such information were audited or that our actual results would not differ materially from the Combined measures if the acquisition had been completed as of the beginning of the applicable twelve-month period. Combined AEBITDA also includes AEBITDA from discontinued operations and EBITDA from equity investments, as applicable to prior periods. The Company sold its Lottery business and Sports Betting business in 2022, and as such, historical financial information for these businesses is classified as discontinued operations. Management uses Net debt, Net debt leverage ratio and Combined net debt leverage ratio in monitoring and evaluating the Company's overall liquidity, financial flexibility and leverage. Management believes that these non-GAAP financial measures are useful as they provide Management and investors with information regarding the Company's financial condition and operating performance that is an integral part of Management's reporting and planning processes. In particular, Management believes Adjusted NPAT, Adjusted NPATA, Adjusted NPATA per share, Normalized EBITA and Normalized EBITDA are useful for investors because they provide investors with additional perspective on performance, as the measures eliminate the effects of, as applicable, amortization of acquired intangible assets, restructuring, transaction, integration, certain other items, and the income tax impact on such adjustments, which Management believes are less indicative of the ongoing underlying performance of operations and are better evaluated separately. These measures are widely used to measure performance of gaming and other companies listed on the ASX. Management believes that Consolidated AEBITDA is helpful because this non-GAAP financial measure eliminates the effects of restructuring, transaction, integration or other items that Management believes are less indicative of the ongoing underlying performance of continuing operations (as more fully described below) and are better evaluated separately. Management believes that Free cash flow and Adjusted free cash flow provide

useful information regarding the Company's liquidity and its ability to service debt and fund investments. Management believes that the Combined measures are useful to investors because they provide additional information regarding the combined business of the Company and Grover across the periods being presented, allowing for more meaningful comparisons of overall liquidity, financial flexibility and leverage. Management believes that AEBITDA from discontinued operations provides useful information regarding the Company's operations and provides the impact of the discontinued businesses on the overall financial results for the periods presented. This non-GAAP measure is derived based on the historical records and includes only those direct costs that are allocated to discontinued operations and as such does not include all of the expenses that would have been incurred by these businesses as a standalone company or other corporate and shared allocations and such differences might be material. Management also believes that Free cash flow and Adjusted free cash flow are useful for investors because they provide investors with important perspectives on the cash available for debt repayment and other strategic measures, after making necessary capital investments in property and equipment, necessary license payments to support the ongoing business operations, adjustments for changes in restricted cash impacting working capital, and, in the case of Adjusted free cash flow, further adjustments for legal settlements and strategic initiative cash payments.

Adjusted NPAT and Adjusted NPATA

Adjusted NPAT and Adjusted NPATA, as used herein, are non-GAAP financial measures that are presented as supplemental disclosures of the Company's operations and are reconciled to net income as the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT," which includes reconciliations for several non-GAAP financial measures. Adjusted NPAT and Adjusted NPATA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Adjusted NPAT and Adjusted NPATA may differ from similarly titled measures presented by other companies.

Adjusted NPAT is reconciled to Net income and includes the following adjustments, as applicable: (1) Restructuring and other, which includes charges or expenses attributable to: (i) employee severance; (ii) Management restructuring and related costs; (iii) restructuring and integration; (iv) cost savings initiatives; (v) major litigation; and (vi) acquisition- and disposition-related costs, strategic initiatives and other unusual items; (2) Loss on debt financing transactions; (3) Change in fair value of investments and Gain on remeasurement of debt and other; (4) Income tax impact on adjustments; and (5) Other (income) expense, net, including foreign currency gains or losses and earnings from equity investments. Adjusted NPATA is reconciled to Net income and includes the following incremental adjustments to those used to reconcile Adjusted NPAT: (1) Amortization of acquired intangible assets; (2) Non-cash asset and goodwill impairments; and (3) Income tax impact on adjustments.

Adjusted NPATA Per Share – Diluted (EPSa)

Adjusted NPATA per share (EPSa), as used herein, is a non-GAAP financial measure that is presented as a supplemental disclosure of the Company's operations on diluted basis and is reconciled to diluted net income per share as the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Adjusted NPATA Per Share." Adjusted NPATA per share should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Adjusted NPATA per share may differ from similarly titled measures presented by other companies.

Non-GAAP Financial Measures (continued)

Adjusted NPATA per share is reconciled to diluted net income per share and includes the same adjustments with respect to Adjusted NPATA as described in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT" in per share amounts. Adjusted NPATA per share target, or Targeted EPSa, denotes a non-GAAP financial measure. We are not providing a forward-looking quantitative reconciliation of Adjusted NPATA per share target to the most directly comparable GAAP measure because we are unable to do so without unreasonable efforts or to reasonably estimate the projected outcome of certain significant items. These items are uncertain, depend on various factors out of our control and could have a material impact on the corresponding measures calculated in accordance with GAAP.

Normalized EBITA and Normalized EBITDA

Normalized EBITA and Normalized EBITDA, as used herein, are non-GAAP financial measures that are presented as supplemental disclosures of the Company's operations and are reconciled to net income as the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT," which includes reconciliations for several non-GAAP financial measures. Normalized EBITA and Normalized EBITDA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Normalized EBITA and Normalized EBITDA may differ from similarly titled measures presented by other companies.

Normalized EBITA is reconciled to Net income and includes the following adjustments, as applicable: (1) Restructuring and other, which includes charges or expenses attributable to: (i) employee severance; (ii) Management restructuring and related costs; (iii) restructuring and integration; (iv) cost savings initiatives; (v) major litigation; and (vi) acquisition- and disposition-related costs, strategic initiatives and other unusual items; (2) Loss on debt financing transactions; (3) Change in fair value of investments and Gain on remeasurement of debt and other; (4) Other (income) expense, net, including foreign currency gains or losses and earnings from equity investments; (5) Amortization of acquired intangible assets; (6) Non-cash asset and goodwill impairments; (7) Interest expense; and (8) Income tax expense and impact on adjustments. Normalized EBITDA is reconciled to Net income and, along with the adjustments used to reconcile Normalized EBITA, includes an adjustment for depreciation and amortization expense.

Consolidated AEBITDA (representing continued operations)

Consolidated AEBITDA, as used herein, is a non-GAAP financial measure that is presented as a supplemental disclosure of the Company's operations and is reconciled to net income as the most directly comparable GAAP measure, as set forth in the schedules titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT," "L&W Reconciliation of Consolidated AEBITDA," "L&W Reconciliation of Consolidated AEBITDA, AEBITDA from Discontinued Operations and Combined AEBITDA," and "L&W Reconciliation of Consolidated AEBITDA, Grover Adjusted EBITDA and Combined AEBITDA," which includes reconciliations for several non-GAAP financial measures. Consolidated AEBITDA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Consolidated AEBITDA may differ from similarly titled measures presented by other companies.

Consolidated AEBITDA is reconciled to Net income (loss) and includes the following adjustments, as applicable: (1)

Net income attributable to noncontrolling interest; (2) Net income from discontinued operations, net of tax; (3) Restructuring and other, which includes charges or expenses attributable to: (i) employee severance; (ii) Management restructuring and related costs; (iii) restructuring and integration; (iv) cost savings initiatives; (v) major litigation; and (vi) acquisition- and disposition-related costs, strategic initiatives and other unusual items; (4) Depreciation, amortization and impairment charges and Goodwill impairments; (5) Loss on debt financing transactions; (6) Change in fair value of investments and Gain on remeasurement of debt and other; (7) Interest expense; (8) Income tax expense (benefit) and impact on adjustments; (7) Stock-based compensation; and (8) Other (income) expense, net, including foreign currency gains or losses and earnings from equity investments. AEBITDA is presented exclusively as our segment measure of profit or loss. Consolidated AEBITDA target denotes a non-GAAP financial measure. We are not providing a forward-looking quantitative reconciliation of Consolidated AEBITDA target to the most directly comparable GAAP measure because we are unable to do so without unreasonable efforts or to reasonably estimate the projected outcome of certain significant items. These items are uncertain, depend on various factors out of our control and could have a material impact on the corresponding measures calculated in accordance with GAAP.

Grover Adjusted EBITDA

Grover Adjusted EBITDA, as used herein, is a non-GAAP financial measure that is presented as a supplemental disclosure, is unaudited and based on preliminary estimates and assumptions, and is reconciled to Grover Charitable Gaming's operating income, the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Grover Adjusted EBITDA and Combined AEBITDA." Grover Adjusted EBITDA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Grover Adjusted EBITDA may differ materially from similarly titled measures presented by other companies, including Consolidated AEBITDA, and is presented solely for the purposes of calculating and reconciling Combined AEBITDA and calculating Combined net debt leverage ratio, including periods prior to the acquisition. Grover Adjusted EBITDA is not calculated consistently with Consolidated AEBITDA, and includes different adjustments based on the unaudited and preliminary financial statements provided by Grover's management prior to the closing of the acquisition.

Grover Adjusted EBITDA is reconciled to Grover Charitable Gaming's operating income, and includes the following adjustments, as applicable: (1) depreciation and amortization; (2) other income/expenses primarily related to non-operating gain and losses; and (3) elimination of certain non-recurring distribution costs expected to be eliminated in connection with the consummation of the acquisition and certain other immaterial adjustments.

AEBITDA from Discontinued Operations

AEBITDA from discontinued operations, as used herein, is a non-GAAP financial measure that is presented as a supplemental disclosure for the Company's discontinued operations and is reconciled to net income from discontinued operations, net of tax as the most directly comparable GAAP measure, as set forth in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, AEBITDA from Discontinued Operations and Combined AEBITDA." AEBITDA from discontinued operations should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP, and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. AEBITDA from discontinued operations may differ from similarly titled measures presented by other companies and is presented only for purposes of calculating and reconciling Net debt leverage ratio.

Non-GAAP Financial Measures (continued)

AEBITDA from discontinued operations is reconciled to Net income from discontinued operations, net of tax and includes the following adjustments: (1) Restructuring and other, which includes charges or expenses attributable to: (i) employee severance; (ii) Management restructuring and related costs; (iii) restructuring and integration; (iv) cost savings initiatives; (v) major litigation; and (vi) acquisition- and disposition-related costs and other unusual items; (2) Depreciation, amortization and impairment charges and Goodwill impairments; (3) Income tax expense; and (4) Stock-based compensation and other, net. In addition to the preceding adjustments, we exclude (Loss) earnings from equity investments and add (without duplication) discontinued operations pro rata share of EBITDA from equity investments, which represents their share of earnings (whether or not distributed) before income tax expense, depreciation and amortization expense, and interest expense, net of our joint ventures and minority investees, which is included in our calculation of AEBITDA from discontinued operations.

Combined AEBITDA

Combined AEBITDA, as used herein, is a non-GAAP financial measure that combines Consolidated AEBITDA (representing our continuing operations), Grover Adjusted EBITDA, AEBITDA from discontinued operations and EBITDA from equity investments, as applicable, and is presented as a supplemental disclosure. Combined AEBITDA should not be considered in isolation of, as a substitute for, or superior to, the consolidated financial information prepared in accordance with GAAP and should be read in conjunction with the Company's financial statements filed with the SEC and lodged with the ASX. Combined AEBITDA may differ from similarly titled measures presented by other companies and is presented only for purposes of calculating and reconciling Net debt leverage ratio and Combined net debt leverage ratio.

Consolidated AEBITDA Margin

Consolidated AEBITDA margin, as used herein, represents our Consolidated AEBITDA (as defined above) calculated as a percentage of consolidated revenue. Consolidated AEBITDA margin is a non-GAAP financial measure that is presented as a supplemental disclosure for illustrative purposes only and is reconciled to net income, the most directly comparable GAAP measure, in the schedule titled "L&W Reconciliation of Consolidated AEBITDA, Normalized EBITDA, Normalized EBITA, Adjusted NPATA and Adjusted NPAT."

Free Cash Flow and Adjusted Free Cash Flow

Free cash flow, as used herein, represents net cash provided by operating activities less total capital expenditures, less payments on license obligations, plus payments on contingent acquisition considerations and adjusted for changes in restricted cash impacting working capital. Adjusted free cash flow is further adjusted for legal settlements and strategic initiatives cash payments. Free cash flow and Adjusted free cash flow are non-GAAP financial measures that are presented as supplemental disclosures for illustrative purposes only and are reconciled to net cash provided by operating activities, the most directly comparable GAAP measure, in the schedule titled "L&W Reconciliation of Net Cash Provided by Operating Activities to Free Cash Flow and Adjusted Free Cash Flow."

Adjusted free cash flow conversion, as used herein, represents Adjusted free cash flow calculated as a percentage of Consolidated AEBITDA or Adjusted NPATA (as defined above), as applicable. Adjusted free cash flow conversion is a non-GAAP financial measure that is presented as a supplemental disclosure for illustrative purposes only.

EBITDA from Equity Investments

EBITDA from equity investments, as used herein, represents our share of earnings (whether or not distributed to us) plus income tax expense, depreciation and amortization expense, interest expense, net, and other non-cash and unusual items from our joint ventures and minority investees. EBITDA from equity investments is a non-GAAP financial measure that is presented as supplemental disclosure for illustrative purposes only and is reconciled to earnings of equity investments, the most directly comparable GAAP measure, in the schedule titled "L&W Reconciliation of Earnings from Equity Investments to EBITDA from Equity Investments."

Net Debt, Net Debt Leverage Ratio, Combined Net Debt Leverage Ratio, and Illustrative Gross Turns Equivalent Impact

Net debt is defined as total principal face value of debt outstanding, the most directly comparable GAAP measure, less cash and cash equivalents. Principal face value of debt outstanding includes the face value of debt issued under Senior Secured Credit Facilities and Senior Notes, which are described in Note 14 of the Company's Annual Report on Form 10-K for the year ended December 31, 2025 and in Note 10 of the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2026, but it does not include other long term obligations primarily comprised of certain revenue transactions presented as debt in accordance with ASC 470. In addition, principal face value of debt outstanding with respect to previously-held, foreign-denominated Euro Notes (paid off as of June 30, 2022) were translated at the constant foreign exchange rate at issuance of these notes as those amounts were payable at the original issuance amounts in Euro.

Net debt leverage ratio, as used herein, represents Net debt divided by Consolidated AEBITDA (or Combined AEBITDA for prior periods with discontinued operations). Combined net debt leverage ratio, as used herein, represents Net debt divided by Combined AEBITDA for periods ending June 30, 2025, and thereafter, which include Grover Adjusted EBITDA. The forward-looking non-GAAP financial measure targeted net debt leverage ratio is presented on a supplemental basis and does not reflect Company guidance. We are not providing a forward-looking quantitative reconciliation of targeted net debt leverage ratio to the most directly comparable GAAP measure because we are unable to predict with reasonable certainty the ultimate outcome of certain significant items without unreasonable effort. These items are uncertain, depend on various factors and could have a material impact on GAAP reported results for the relevant period.

Illustrative gross turns equivalent impact, as used herein, represents total gross capital deployed related to share repurchases since 2022 divided by Consolidated AEBITDA for the twelve months ended June 30, 2026. Illustrated gross turns equivalent impact is a non-GAAP financial measure presented on a supplemental basis for illustrative purposes only and is shown in the schedule titled "L&W Reconciliation of Illustrative Gross Turns Equivalent Impact."
