ASX Announcement

Flow Testing Set to Commence at Ramsay 2

Further to the Company's previous update of 5 August 2026, the Directors of Gold Hydrogen Limited (**Gold Hydrogen, ASX: GHY, the Company**) are pleased to advise that the SWS 04 workover rig has now mobilised to the Ramsay 2 wellsite. The Electrical Submersible Pump (**ESP**) is being assembled and is entering into the Ramsay 2 wellbore in preparation for the flow testing program.

Company personnel and key contractors are currently on site, and it is expected that the first flow from Ramsay 2 will commence within 24 hours.

Ramsay 2 site in readiness for flow testing

Gold Hydrogen will provide further updates to the market as the flow testing program continues.
