For personal use only

DIRECTORS' REPORT

The Directors present their report in compliance with the provisions of the Corporations Act 2001 on the consolidated entity (referred to hereafter as the "Group") consisting of IPD Group Ltd ("IPD Group" or the "Company") and the entities it controlled at the end of, or during, the year ended 30 June 2026.

DIRECTORS

Directors of IPD Group Ltd during and since the end of the financial year unless otherwise stated below are:

David Rafter – Independent non-executive Chairman

Andrew Moffat – Independent non-executive Director

Mohamed Yoosuff – Non-Executive Director

Michael Sainsbury – Executive Director

COMPANY SECRETARY

Jade Cook

CORPORATE GOVERNANCE

The Board of Directors and management of IPD Group recognise the importance of, and are committed to, achieving high corporate governance standards. Our key Corporate Governance materials including policies, code of conduct and Board Committee Charters, can be found in the Corporate Governance section of our website within the Investor Relation section.

In accordance with the 4th edition of the ASX Corporate Governance Council's Principles and Recommendations, the Company's Corporate Governance Statement, as approved by the Board, is published and available on the IPD Group's website at <https://ipdgroup.com.au/investors/corporate-governance/>

PRINCIPAL ACTIVITIES

The Group is a national distributor and service provider to the Australian electrical market. The Group consists of two core divisions:

- the distribution of products for quality global electrical infrastructure brands such as ABB, Elsteel, Emerson & Red Lion; and
- the provision of services, including installation and commissioning, calibration and testing, maintenance and repairs and refurbishment

Products division:

The Group's core focus in the products division is the sale of electrical infrastructure products to customers including switchboard manufacturers, electrical wholesalers, electrical contractors, power utilities, OEMs and system integrators. Within the division there are six key categories of products:

- Power distribution;
- Industrial and motor control;
- Automation and industrial communication;
- Power monitoring;
- Hazardous area equipment; and
- Electrical cables, manufacture & distribution of cable plugs.

In addition to selling products, the Group provides a range of value-added services, including custom assembly, sourcing, engineering design, technical compliance, procurement, transport, storage, regulatory management, technical support, packaging, labelling, inventory management and delivery.

Services division:

Within the Group's services division there are five categories of services:

- Installation and commissioning;
- Calibration and testing;
- Maintenance and repairs;
- Electric vehicle solutions; and
- Refurbishment and other.

REVIEW OF OPERATIONS

	Year ended 30 June 2026 \$million	Year ended 30 June 2025 \$million	Movement %
Revenue from ordinary activities	414.3	354.7	16.8%
Gross profit	138.2	121.2	14.0%
Other income	0.2	0.4	(50.0%)
Operating Expenses	(83.4)	(75.2)	10.9%
EBITDA	55.0	46.4	18.5%

Interest	(2.5)	(2.0)	25.0%
Profit before income tax	44.2	37.2	18.8%
Income tax expense	(13.7)	(11.0)	24.5%
NPAT	30.5	26.2	16.4%

FY26 Result Overview

IPD Group delivered record revenues and earnings for the year ended 30 June 2026. Sales revenue increased 16.8% on the pcip to \$414.3 million, while Underlying EBITDA increased 19.4% to \$55.4 million, despite complex macroeconomic and geopolitical conditions.

Gross Profit Margins continue to reflect the order book pivot towards more complex and competitive orders. While this resulted in some Gross Profit Margin compression year on year (-80bps), Gross Profit Margins have subsequently remained stable and improved from 33.1% in 2H25 to 33.4% in 2H26. This was accompanied by double-digit revenue and earnings growth, while continued operating efficiencies drove expanding EBITDA, EBIT, and NPAT margins.

IPD Group's diversified product offering continues to drive growth in key infrastructure sectors. Data Centre revenue grew 27% on the pcip to \$71.5 million. The acquisition of Platinum Cables has expanded the Groups revenue base with greater end market diversification, Infrastructure/Industrial/Mining is now the Group's largest industry segment.

IPD's revenue grew 11% on the pcip, driven by Data Centre growth in Power Distribution products and Enclosures.

CMI delivered a record result with revenues 11% up on the pcip and exceeding pre-acquisition levels. CMI Cable revenues grew 10% on FY25, with 2H26 revenues growing 13% on 1H26. CMI Minto Plugs were up 17% on the pcip, with growth led by strong performance in export markets.

EX Engineering revenue grew 35% on the pcip with growth partly driven by a key oil & gas cable supply contract. Excluding this contract, EX Engineering's revenue increased by 23% on the pcip.

Addelec navigated ongoing project delays throughout the period. Excluding the Kingsgrove Bus Depot project, revenue declined by 7% compared to the pcip. During the year, Addelec undertook a business restructure with an increased focus on testing and calibration services. The business enters the next financial year with a more sustainable cost base to support improved profitability in FY27.

Platinum Cables contributed six months of earnings from 1 January to 30 June 2026, complementing strong organic revenue growth of 9.7% and contributing to total Group revenue growth of 16.8% versus the pcip.

Underlying operating expense as a percentage of revenue improved 140bps on the pcip, from 21.4% to 20.0% despite inflationary cost pressures and one-off costs including the opening of the new Perth office and the restructure of Addelec.

REVIEW OF OPERATIONS (CONT'D)

Underlying EPS grew 17.4% on the pcpc to 29.7 cents, with fully franked dividends of 14.7 cents per share declared for FY26.

IPD Group has achieved strong, balanced growth over the past five financial years. Group revenue has grown at a 28.5% CAGR over this period, from \$118.1 million to \$414.3 million, with growth broadly evenly split between organic growth and acquisitions.

Strong Balance Sheet

On 31 December 2025 IPD Group completed its acquisition of Platinum Cables ("Platinum"), a leading Australian provider of high-performance cable solutions for the mining and resources sector. By integrating Platinum Cables' highly specialised cable solutions, IPD Group will further strengthen its presence in this sector and deepen relationships with key customers. The acquisition was highly accretive (11.5% on PF FY25 EPS, excluding synergies and one-off transaction costs) and the \$37.5 million consideration was predominantly cash and debt-funded.

The Group has \$181.8 million of net assets on its balance sheet following the acquisition of Platinum. A contingent cash payment has been recognised for the acquisition of Platinum up to a maximum of \$7.5 million (5x multiple on EBIT growth, ending 31 December 2026).

Inventory increased by \$13.2 million vs 30 June 2025, reflecting support for current project delivery and future growth opportunities, along with the acquisition of Platinum Cables.

Net Debt stands at \$16.4 million (\$48.6 million of debt and \$32.2 million of cash) as of 30 June 2026, including \$37.5 million of new debt utilised to fund the acquisition of Platinum Cables. Leverage is now a conservative ~0.3x Net Debt/Underlying EBITDA

Operating free cash flow (before interest and tax outflows) of \$46.8 million reflects strong cash conversion of 84.4%.

In July 2026 IPD Group opened its new Perth office, consolidating 4 facilities into one co-located premises. These expanded facilities, featuring product showrooms and training rooms, foster a collaborative environment to drive strategic sales synergies while supporting future growth across the group.

Dividend

On 10 April 2026, IPD Group paid an interim 2026 financial year dividend of \$7.1 million which was equivalent to 6.8 cents per share fully franked.

On 14 August 2026, the Directors declared a final fully franked dividend of 7.9 cents per share, payable on 8 October 2026.

Total dividends declared for FY26 were 14.7 cents per share (FY25 12.6 cents per share), equating to a total payout of \$15.3 million and a payout ratio of 50%.

Outlook

IPD Group has entered FY27 with positive momentum following record FY26 results, underpinned by a diversified portfolio of businesses with exposure to growing sectors benefitting from long-term structural tailwinds and ongoing investment.

Management remains focused on executing its strategy and maximising shareholder value through operational excellence, disciplined capital allocation, strategic acquisitions and investment in growth opportunities.

The Board looks forward to providing an update on FY27 performance at the company's AGM on 24 November 2026.

SUBSEQUENT EVENTS

No matters or circumstances have arisen since the end of the financial year which significantly affected or could significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

AUDITED REMUNERATION REPORT

The remuneration report details the key management personnel remuneration arrangements for the consolidated entity, in accordance with the requirements of the Corporations Act 2001 and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

Directors' interests and remuneration

Non-Executive Director remuneration

Under the Constitution, the Board may decide the total amount paid by the Company to each Director as remuneration for their services as a Director. However, under the Constitution and the ASX Listing Rules, the total amount of fees paid to all Non-Executive Directors in any financial year must not exceed the aggregate amount of Non-Executive Directors fees approved by Shareholders at the Company's general meeting. This amount has been fixed by the Company at \$400,000 per annum.

The total annual Non-Executive Directors' fees agreed to be paid by the Company to:

- the Chairman, David Rafter is \$143,300; and
- the Non-Executive Director, Andrew Moffat is \$94,800; and
- the Non-Executive Director, Mohamed Yoosuff is \$84,800.

From listing, Non-Executive Directors fees also include Committee fees of \$8,000 per year for each Board Committee of which they are a Chair and a Committee fee of \$2,000 for each Board Committee of which they are a non-Chair member.

All Non-Executive Directors' fees are inclusive of statutory superannuation contributions.

Executive Director remuneration

IPD has established a number of incentive arrangements to enable attraction, motivation and retention of management and employees.

The remuneration structure for executives of the Company is a mix of fixed remuneration and at-risk, performance -based remuneration to ensure a focus on both short-term and long-term performance, and alignment with shareholder interests. This approach is designed to attract, retain and reward executives to deliver sustainable returns for shareholders.

Key terms of employment contracts

Chief Executive Officer

Details regarding the terms of employment of the CEO and Executive Director, Michael Sainsbury are set out below:

Term	Description
Remuneration and other benefits	Effective from 1 July 2025, Michael Sainsbury is entitled to receive a base salary of \$520,000 (exclusive of superannuation). Michael is also entitled to use of a motor vehicle, laptop and mobile phone provided by the Company.
Short Term Incentives	For FY26, Michael was eligible for and achieved a cash bonus under IPD's STI. The STI can range from 0% to 75% of Michael's base salary (exclusive of superannuation)
Long Term Incentives	For FY26, Michael participated in IPD's employee incentive plan ("EIP") and was eligible to apply for a grant of Rights under the Plan. The number of Rights to be granted are calculated at 116% of Michael's base salary, exclusive of superannuation.
Termination	Under Michael's employment contract, either Michael or the Company can terminate his employment by giving the other party 3 months' notice (which the Company may pay in lieu of notice of part or all of the notice period). The Company may also summarily terminate Michael's employment contract in certain circumstances, including if Michael engages in serious misconduct, is grossly negligent or incompetent in the performance of his duties, if he commits any serious or persistent breach of the employment contract or any workplace policy or if he is charged with a criminal offence that the Company considers adversely impacts his suitability for employment with the Company.

AUDITED REMUNERATION REPORT (CONT'D)**Executive Key Management remuneration**

Details regarding the terms of employment of the Chief Financial Officer (CFO), Jason Boschetti, are set out below:

Term	Description
Remuneration and other benefits	Effective from 1 July 2025, Jason Boschetti was entitled to receive a salary of \$355,000 (exclusive of superannuation). Jason is also entitled to use of a motor vehicle, laptop and mobile phone provided by the Company.
Short Term Incentives	For FY26, Jason was eligible for and achieved a cash bonus under IPD's STI. The STI can range from 0% to 75% of Jason's base salary (exclusive of superannuation)
Long Term Incentives	For FY26, Jason participated in IPD's EIP and was eligible to apply for a grant of Rights under the Plan. The number of Rights to be granted are calculated at 83% of Jason's base salary, exclusive of superannuation.
Termination	Under Jason's employment contract, either Jason or the Company can terminate his employment by giving the other party 3 months' notice (which the Company may pay in lieu of notice of part or all of the notice period). The Company may also summarily terminate Jason's employment contract in certain circumstances, including if Jason engages in serious misconduct, is grossly negligent or incompetent in the performance of his duties, if he commits any serious or persistent breach of the employment contract or any workplace policy or if he is charged with a criminal offence that the Company considers adversely impacts his suitability for employment with the Company

Executive incentive arrangements**Short-term incentives**

The Company has established a short-term incentive (**STI**) program under which cash awards may be payable to participants, subject to the satisfaction of specified performance criteria. The Company's executive employment contracts recognise the potential for the award of STIs in future year.

Under the STI program, the Board may, in its absolute and sole discretion, determine the participation in, the amount of and performance criteria for the STI program for any given year. Performance criteria may include:

- individual performance criteria tailored to each respective role; and/or
- the Company's financial performance against criteria set by the Board for the relevant financial year and may include measures such as statutory or pro-forma EBITDA, EBIT or NPAT targets.

The STI for the period ended 30 June 2026 was structured on the following basis:

- Michael Sainsbury is entitled to a cash bonus under IPD's STI award for stretch performance, measured against group EBIT performance and individual KPI's. The maximum cash bonus for Michael for FY25 has been set at \$390,000 (inclusive of superannuation), which is 75% of Michael's base salary (exclusive of superannuation) for FY26.
- Jason Boschetti is entitled to a cash bonus under IPD's STI award for stretch performance, measured against group EBIT performance and individual KPI's. The maximum cash bonus for Jason for FY25 has been set at \$266,250 (inclusive of superannuation), which is 75% of Jason's base salary (exclusive of superannuation) for FY26.

Subsequent to year end, the non-executive Directors approved the payment of the STI awards for Michael Sainsbury of \$390,000 and for Jason Boschetti of \$266,250.

AUDITED REMUNERATION REPORT (CONT'D)

Equity incentives

The Company has established the EIP to assist in the motivation, reward and retention of senior management and other IPD employees from time to time. The EIP is designed to align the interests of senior management and other employees with the interests of Shareholders by providing an opportunity for employees to receive equity interests in the Company subject to the satisfaction of certain performance conditions. IPD may offer additional incentive schemes to the management and employees over time.

The EIP is a long-term incentive plan, under which options or performance rights to subscribe for or be transferred Shares (**Plan Awards**) may be offered to eligible employees (including a director employed in an executive capacity or any other person who is declared by the Board to be eligible) selected by the Directors at their discretion.

For the year ended 30 June 2026, the Company has granted Performance Rights to key management personnel as follows:

- Michael Sainsbury CEO and Executive Director – 204,294 Performance Rights, including 28,666 rolled over from the prior year plus 100% of Michael's annual base salary divided by the Volume Weighted average Price (VWAP) of the company's shares on the ASX during the 20 trading days immediately prior to 1 July 2025, rounded to the nearest whole number of Rights.
- Jason Boschetti CFO – 99,671 Performance Rights, including 28,666 rolled over from the prior year plus 75% of Jason's annual base salary divided by the Volume Weighted average Price (VWAP) of the company's shares on the ASX during the 20 trading days immediately prior to 1 July 2025, rounded to the nearest whole number of Rights.

Michael Sainsbury (executive director), Jason Boschetti (executive key management) as well as other senior managers are the only employees who received Performance Rights pursuant to the FY26 award under the EIP.

Plan Awards will not be listed and may not be transferred, assigned or otherwise dealt with except with the approval of the Directors. Plan Awards will only vest where the vesting conditions (if any) and any other relevant conditions advised to the participant by the Directors have been satisfied or as otherwise permitted under the EIP. The Directors may determine such conditions (including vesting conditions) at their discretion. An unvested Plan Award will lapse in a number of circumstances including where performance conditions (if any) are not satisfied within the relevant time period, the participant deals with the Plan Award in breach of the rules of the EIP, or in the opinion of the Directors, a participant has acted fraudulently or dishonestly.

If a participant's employment or engagement with IPD terminates before the Plan Awards have vested, the Plan Awards that have not vested will lapse, unless the invitation provides otherwise or the Directors in their absolute discretion determine that some or all of the unvested Plan Awards will be treated in another manner. Where Plan Awards have vested prior to the termination of a participant's employment or engagement with IPD the participant will have a period of time to exercise the vested Plan Awards before they lapse.

On the occurrence of certain events (such as the making of a takeover bid for the Company or the approval of a scheme of arrangement in relation to the Company), unless otherwise provided for in the terms of specific Plan Awards, the Directors may in their absolute discretion determine that some or all Plan Awards vest, lapse, become forfeited or are subject to amended conditions. If there are certain variations of the share capital of the Company including a capitalisation or rights issue, subdivision, consolidation or reduction in share capital, the Directors may make such adjustments as they consider appropriate under the EIP, in accordance with the provisions of the ASX Listing Rules.

Unless and until Shares are allocated following a Plan Award vesting and, where required, being exercised, the holder has no interest in those Shares and has no rights to dividends and no rights to vote at meetings of the Company. Shares issued upon vesting and, where required, exercise, of the Plan Awards will upon allotment rank equally in all respects with other Shares, except as regards any rights attaching to such Shares by reference to a record date prior to the date of their issue.

For so long as Shares are Listed, the Company will apply for quotation on ASX of the Shares issued under the EIP. No Plan Awards or Share may be offered under the EIP if to do so would contravene the Corporations Act, the ASX Listing Rules or instruments of relief issued by ASIC from time to time. The EIP provide the Board with broad clawback powers if, for example, the participant has acted fraudulently or dishonestly, or is in breach of his or her obligations to IPD.

The Board may at any time amend all or any provisions of the EIP or the terms or conditions of any Plan Award granted under the EIP, subject to limited restrictions on amendments that adversely affect the existing rights of a holder of Plan Awards. The exercise by the Board of any discretion granted under the EIP or the terms of a Plan Award will not constitute an amendment of the provisions of the EIP. The Board may at any time waive in whole or in part any terms or conditions (including any vesting conditions) in relation to any Plan Awards granted under the EIP. The Board may, at any time, terminate or suspend the EIP.

AUDITED REMUNERATION REPORT (CONT'D)

The Key Terms of the current award under the EIP are summarized in the table below

Vesting conditions	<u>FY26 Scheme</u> The Performance Rights are subject to performance conditions as follows: • 50% of a Participant's Performance Rights will be tested against the Company's total shareholder return (TSR) for FY26 in comparison to the TSR achieved by a comparator group (TSR Rights); and • 50% of a Participant's Performance Rights will be tested against the Company's NPAT for FY26 (NPAT Rights). In addition to these performance conditions, the Performance Rights will only vest at their respective Vesting Date. <u>FY26 roll forward Scheme</u> The Performance Rights are subject to performance conditions as follows: • 50% of an Incentivised Executive's Performance Rights will vest if the VWAP of the Company's shares over the 20 trading days immediately prior to 1 July 2026, plus declared dividends during the period is greater than \$4.87 per share; and • 50% of a Participant's Performance Rights will be tested against the Company's NPAT for FY26 (NPAT Rights). In addition to these performance conditions, the Performance Rights will only vest at their respective Vesting Date. Performance conditions <i>TSR Rights</i> The Company's TSR will be assessed against the performance of the companies included in the S&P/ASX Small Ordinaries Index over the relevant performance period. The performance period is the period from 1 July 2025 to 30 June 2026. <i>NPAT Rights</i> The Company's NPAT will be calculated using the Company's financial performance as reported in the Company's audited full year audited results for FY26, excluding: • one-off or extraordinary revenue items; • revenue received in the form of government grants, allowances, rebates or other hand-outs; • revenue or profit that has been 'manufactured' to achieve the performance condition; and • profits and acquisition related expenses from any unbudgeted acquisitions completed during FY26. Vesting Date In addition, even if either of the performance conditions are satisfied, Performance Rights will only vest if the Participant continues to be employed by the Company and has not given notice on the following dates: • 1/3 of a Participant's Performance Rights that have satisfied the relevant performance condition will vest on 30 September 2026; • 1/3 of a Participant's Performance Rights that have satisfied the relevant performance condition will vest on 30 September 2027; and+ • 1/3 of a Participant's Performance Rights that have satisfied the relevant performance condition will vest on 30 September 2028, (with each of 30 September 2026, 30 September 2027 and 30 September 2028 being a Vesting Date). Calculation of the performance conditions and achievement against the performance conditions and vesting schedule will be determined by the Board in its absolute discretion, having regard to any matters that it considers relevant (subject to the stated exclusions from NPAT calculations applying in all cases).
--------------------	--

AUDITED REMUNERATION REPORT (CONT'D)

Why were the vesting conditions chosen?

Performance conditions

The performance condition for the TSR Rights was chosen to align the interests of the executives and senior management with shareholder interests in optimising TSR (including the value of any dividend) and achieving TSR when compared to a comparator group of listed companies. The Board believes that TSR is an appropriate performance condition as it links executive reward to the Company's relative share performance which is consistent with creating shareholder value relative to the Company's peer group. The Board believes that the S&P/ASX Small Ordinaries Index represents an appropriate comparator group of listed companies as it represents a meaningful statistical sample and an appropriate group of alternative potential investments for shareholders with which to compare the Company's performance.

The performance conditions for the NPAT Rights were chosen to align the interests of the executives and senior management with shareholder interests in optimising the potential funds of the Company available for distribution to Shareholders as dividends and to provide an incentive for the executives to focus on the Company's effective management of, treasury and tax matters.

Vesting Dates

The Vesting Dates have been set to assist the Company in the ongoing retention of the executives and senior management.

Vesting and expiry of Performance Rights

Unless the Board exercises a discretion available to it under the EIP:

- in the event that either performance condition is not achieved, the Performance Rights relating to that performance condition will lapse; and
- if the Participant ceases to be employed or has given notice before any of the Vesting Dates, the Performance Rights that have not yet vested at that time will lapse.

Otherwise, Performance Rights will vest on satisfaction of both the relevant performance condition and the Participant's continued employment (without having given notice) at the relevant Vesting Date for the Performance Right.

Cash settlement

On vesting, the Company may exercise its discretion to make cash payments in lieu of allocating Shares to satisfy the Performance Rights.

Change of control and other circumstances which may trigger early vesting

In the event of a change of control of the Company, the Board may determine that the Performance Rights vest in accordance with the EIP, notwithstanding that the performance milestones have not been achieved, but only if the change of control of the Company is triggered by a person who does not control the Company at the time the Performance Rights are issued achieving control of more than 50% of the ordinary voting securities in the Company.

The Plan Awards issued under the EIP are the Performance Rights referred to above.

Other information about Directors' interests and benefits

Directors are reimbursed for properly documented and incurred travelling and other expenses in connection with and returning from Board or Committee meetings and general meetings. Non-Executive Directors may be paid such additional remuneration as the Directors consider to be appropriate where a Director performs extra services which are in addition to the ordinary duties of a director of the Company.

There are no retirement benefit schemes for Directors, other than statutory superannuation contributions. Chapter 2E of the Corporations Act prohibits a company from giving a financial benefit to a related party (including any Director) without the prior approval of its members by ordinary resolution, unless an exemption applies.

AUDITED REMUNERATION REPORT (CONT'D)**Amounts of remuneration**

Details of the remuneration of key management personnel of the consolidated entity for the year ended 30 June 2026 are set out below:

	Base salary	STI	Non- monetary Benefits	Super- annuation	Long Term Benefits	Equity settled	Total

	2026	Tranche 3	9/12/2025	63,320	187,479	30/09/2028
Michael Sainsbury	2024	Tranche 3	8/12/2023	18,900	61,499	30/09/2026
Executive key management						
Jason Boschetti	2026	Tranche 1	9/12/2025	31,600	93,560	30/09/2026
	2026	Tranche 2	9/12/2025	31,600	93,560	30/09/2027
	2026	Tranche 3	9/12/2025	31,600	93,559	30/09/2028
Jason Boschetti	2024	Tranche 3	8/12/2023	6,333	20,607	30/09/2026

Michael Sainsbury was issued 31,871 shares and Jason Boschetti was issued 15,201 shares during the financial year ended 30 June 2026.

This concludes the remuneration report, which has been audited.

INDEMNIFICATION OF OFFICERS AND AUDITORS

During the financial period, the Company paid a premium in respect of a contract insuring Directors of the Company, the Company secretary, and all executive officers of the Company and of any related body corporate against a liability incurred as such a director, secretary or executive officer to the extent permitted by the Corporations Act 2001. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

The Company has not otherwise, during or since the end of the financial period, except to the extent permitted by law, indemnified or agreed to indemnify an officer or auditor of the company or of any related body corporate against a liability incurred as such an officer or auditor.

AUDITOR'S INDEPENDENCE DECLARATION

The auditor's independence declaration is included on page 20 of the financial report.

Proceedings on behalf of the company

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the company for all or part of those proceedings.

Non-audit services

Details of the amounts paid or payable to the auditor for non-audit services provided during the financial year by the auditor are outlined in note 24 to the financial statements.

The directors are satisfied that the provision of non-audit services during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001.

The directors are of the opinion that the services as disclosed in note 24 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

ROUNDING OFF OF AMOUNTS

The Company is a company of the kind referred to in the Class order 2026/183 - *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183*, dated 24 March 2026, and in accordance with that Class Order amounts in the Directors' report and the consolidated financial statements are rounded off to the nearest thousand dollars, unless otherwise indicated.

This Directors' report is signed in accordance with a resolution of Directors made pursuant to s298 (2) (a) of the Corporations Act 2001.

Auditor's Independence Declaration under Section 307C of the Corporations Act 2001 to the Directors of IPD Group Limited

I declare that, to the best of my knowledge and belief, during the year ended 30 June 2026, there have been:

- (i) no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and
- (ii) no contraventions of any applicable code of professional conduct in relation to the audit.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF IPD GROUP LIMITED

Report on the Audit of the Financial Report

Opinion

We have audited the accompanying financial report of IPD Group Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2026, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising material accounting policy information and other explanatory information, the consolidated entity disclosure statement, and the directors' declaration of the Company and the consolidated entity comprising the Company and the entities it controlled at the year end or from time to time during the financial year.

In our opinion, the financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- i) Giving a true and fair view of the consolidated entity's financial position as at 30 June 2026 and of its performance for the year ended on that date; and
- ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the consolidated entity in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

Key Audit Matters (cont'd)

1. Revenue from contracts with customers
(Refer Note 5) \$414.31million

Why significant

Revenue from contracts with customers was a key audit matter given the:

- magnitude of the amount;
- number of different revenue streams and types of variable consideration given the diversity of products and services; and
- complexity of the contractual arrangements.

We have also focused on revenue recognition as the Group uses complex manual calculations, dependent on information from multiple billing systems, to determine the timing of revenue recognition and the value of contract liabilities for the relevant financial period for each revenue stream.

How our audit addressed the key audit matter

We assessed the Group's accounting policy in light of the requirements of Australian Accounting Standards and developed an understanding of the key terms of the arrangements with customers and performance obligations.

Our procedures included, amongst others:

- tested on a sample basis whether revenue had been recorded at the correct amount and in the correct period, in accordance with the Group's revenue recognition policy. This included assessing whether:
 - evidence of an underlying arrangement with the customer existed;
 - appropriate performance obligations and consideration had been identified;
 - amounts allocated to the performance obligations were made with reference to their standalone selling prices, where relevant; and
 - the timing of revenue recognition had been appropriately considered for each revenue stream in accordance with its performance obligations.
- considered and assessed the adequacy of the Group's disclosures of revenue from contracts with customers in accordance with Australian Accounting Standards.

Key Audit Matters (cont'd)

2. Inventory Valuation and Existence (Refer Note 10) \$95.35million

Why significant

Inventory was a key audit matter due to the:

- financial significance of inventory to the consolidated balance sheet
- the geographically diverse locations where inventory is stored; and
- the principles applied in the determining the valuation of inventory.

We also considered the accounting treatment in line with the requirements of AASB 102 Inventories.

How our audit addressed the key audit matter

We focused our efforts on developing an understanding and testing the methodology for which the Group recognises and measures inventory. We considered the appropriateness of the Group's accounting policies to requirements of Australian Accounting Standards.

In obtaining sufficient, appropriate audit evidence, our procedures included, amongst others:

- attending, observing and assessing stocktakes performed by the Group at a sample of locations and performing independent test counts where appropriate;
- reviewing the application of the Group's cycle count procedures;
- obtaining confirmations of inventories held at a sample of locations;
- evaluating whether any required adjustments identified from our count attendance, cycle count procedures or confirmations were appropriately reflected;
- testing, for a sample of inventory items, whether the cost was recorded at the correct amount;
- compared the carrying value to the NRV to identify projects with potential impairments;
- assessing the Group's inventory provisioning policy by comparing the prior period inventory provision to inventory sold below cost or written off in the current period; and
- evaluating the related financial statement disclosures for consistency with Australian Accounting Standards requirements.

Key Audit Matters (cont'd)

3. Impairment testing of goodwill and other intangible assets (Refer Note 13) \$112.26million

Why significant

At the end of each reporting period, the Group is required to determine whether there is any indication that the intangible assets are impaired under AASB 136 Impairment of Assets. Goodwill amount of \$110.59million is assessed for impairment on an annual basis.

The Group uses the "value-in-use" methodology in determining the recoverable amount which measures the present value of future cashflows expected to be derived from these assets.

The evaluation of the recoverable amount requires the Group to exercise significant judgment, which include:

- 5-year cash flow forecast;
- Growth rates;
- Terminal growth factor; and
- Discount rate.

The outcome of the impairment assessment could vary if different assumptions were applied. As a result, the evaluation of the recoverable amount of goodwill and other intangible assets is a Key Audit Matter.

How our audit addressed the key audit matter

As part of our procedures, we assessed the Group's determination of Cash Generating Units (CGUs). Our procedures included but were not limited to the following:

- assessing reasonableness of the budget approved by the Board by comparing the budget to actuals and other financial information;
- reviewing key assumptions in the forecast cash flows by comparing to historical results and industry forecasts;
- assessing the discount rate applied by comparing the Weighted Average Cost of Capital to industry benchmarks;
- reviewing the mathematical accuracy of the cash flow models;
- assessing management's sensitivity analysis and performing independent assessment in relation to key assumptions including discount rate, growth rate and terminal value; and
- assessing the appropriateness of the disclosures including those relating to sensitivities in the assumptions used, included in Note 13.

Key Audit Matters (cont'd)

4. Acquisition Accounting (Refer Note 26)

Why significant

The Group completed an acquisition during the current financial year which was accounted for in accordance with AASB 3 Business Combinations.

Platinum Cables Pty Ltd was acquired on 31 December 2025 for \$45.55million, comprising cash and shares.

These transactions gave rise to the recognition of a \$33.88million goodwill addition on acquisition.

The accounting for acquisitions was a key audit matter because it was a significant transaction to the Group. In addition, the Group made complex judgements when accounting for the acquisition, including:

- fair value of shares issued;
- identifying the effective date of acquisition which is the deemed date of effective control;
- estimating the purchase consideration, particularly in respect of determining all the assets and liabilities of the newly acquired businesses and estimating their fair value upon initial recognition at the acquisition date.

How our audit addressed the key audit matter

We performed the following audit procedures, amongst others:

- assessed management's key assumptions in determining the appropriate business combination treatment and acquisition date of control in accordance with relevant accounting standard;
- assessed management's recognition and measurement criteria in recording the purchase price, fair value of identified assets and liabilities as part of the acquisition, and the residual allocation of goodwill;
- evaluated the reasonableness of the fair value determined by management was appropriate;
- assessed alignment of the acquired businesses accounting policies with the Group; and
- considered and assessed the appropriateness of the Group's disclosures of the business combinations with Australian Accounting Standards.

Other Information

Other information is financial and non-financial information in the annual report of the Group which is provided in addition to the Financial Report and the Auditor's Report. The directors are responsible for Other Information in the annual report.

The Other Information we obtained prior to the date of this Auditor's Report was the director's report. The remaining Other Information is expected to be made available to us after the date of the Auditor's Report.

Other Information (cont'd)

Our opinion on the Financial Report does not cover the Other Information and, accordingly, the auditor does not and will not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information in the Financial Report and based on the work we have performed on the Other Information that we obtained prior the date of this Auditor's Report we have nothing to report.

Directors' Responsibilities for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the consolidated entity's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the consolidated entity or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individual or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

Auditor's Responsibilities for the Audit of the Financial Report (cont'd)

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the consolidated entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and other related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the consolidated entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the consolidated entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the consolidated entity to express an opinion on the group financial report. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2026.

In our opinion, the Remuneration Report of IPD Group Limited for the year ended 30 June 2026, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

DIRECTORS' DECLARATION

In the directors' opinion:

- a) the attached financial statements and notes comply with the Corporations Act 2001, Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- b) the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
- c) the attached financial statements and notes give a true and fair view of the Group's financial position as at 30 June 2026 and of its performance for the financial year ended on that date;
- d) The information disclosed in the attached consolidated entity disclosure statement is true and correct; and
- e) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

Cash and cash equivalents at the beginning of the financial year		20,855	22,284
Effects of exchange rate changes on cash		(263)	34
Cash and cash equivalents at the end of the financial year		32,199	20,855

The consolidated statement of cash flows should be read in conjunction with the Notes to the financial statements.

Financial Report 2026
for the year ended 30 June 2026

Notes to the Financial Statements

Section

6

For personal use only

NOTES TO THE FINANCIAL STATEMENTS

1. BASIS OF PREPARATION

These general-purpose financial statements for the year ended 30 June 2026 have been prepared in accordance with Australian Accounting Standards (AASBs) adopted by the Australian Accounting Standards Board (AASB) and the Corporations Act 2001. The financial report complies with International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board.

The consolidated financial statements have been prepared on the basis of historical cost, except for the revaluation of certain financial instruments to fair value. Cost is based on the fair values of the consideration given in exchange for assets.

The principal accounting policies adopted are consistent with those of the previous financial year, unless otherwise stated.

The accounting policies that are material to the consolidated entity are set out below.

2. MATERIAL ACCOUNTING POLICY INFORMATION

(a) Basis for consolidation

The consolidated financial statements include the financial position and performance of controlled entities from the date on which control is obtained until the date that control is lost. IPD Group Ltd and its subsidiaries together are referred to in these financial statements as the 'consolidated entity'.

Intragroup assets, liabilities, equity, income, expenses and cashflows relating to transactions between entities in the consolidated entity have been eliminated in full for the purpose of these financial statements. Intercompany transactions, balances and unrealised gains on transactions between entities in the consolidated entity are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the consolidated entity.

Appropriate adjustments have been made to a controlled entity's financial position, performance and cash flows where the accounting policies used by that entity were different from those adopted by the consolidated entity. All controlled entities have a June financial year end.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the consolidated entity only. Supplementary information about the parent entity is disclosed in note 32.

Subsidiaries

Subsidiaries are all entities (including structured entities) over which the parent has control. Control is established when the parent is exposed to or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

(b) Business combinations

Business combinations are accounted for by applying the acquisition method which requires an acquiring entity to be identified in all cases. The acquisition date under this method is the date that the acquiring entity obtains control over the acquired entity.

The fair value of identifiable assets and liabilities acquired are recognised in the consolidated financial statements at the acquisition date.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(b) Business combinations (cont'd)

Goodwill or a gain on bargain purchase may arise on the acquisition date, this is calculated by comparing the consideration transferred and the amount of non-controlling interest in the acquiree with the fair value of the net identifiable assets acquired. Where consideration is greater than the net assets acquired, the excess is recorded as goodwill. Where the net assets acquired are greater than the consideration, the measurement basis of the net assets is reassessed and then a gain from bargain purchase recognised in profit or loss.

All acquisition-related costs are recognised as expenses in the periods in which the costs are incurred except for costs to issue debt or equity securities.

Any contingent consideration which forms part of the combination is recognised at fair value at the acquisition date. If the contingent consideration is classified as equity, then it is not remeasured, and the settlement is accounted for within equity. Otherwise, subsequent changes in the value of the contingent consideration liability are measured through profit or loss.

(c) Revenue and other income

Revenue from contracts with customers

The core principle of AASB 15 is that revenue is recognised on a basis that reflects the transfer of promised goods or services to customers at an amount that reflects the consideration the Group expects to receive in exchange for those goods or services. Revenue is recognised by applying a five-step model as follows:

1. Identify the contract with the customer
2. Identify the performance obligations
3. Determine the transaction price
4. Allocate the transaction price to the performance obligations
5. Recognise revenue as and when control of the performance obligations is transferred

Generally, the timing of the payment for sale of goods and rendering of services corresponds closely to the timing of satisfaction of the performance obligations, however where there is a difference, it will result in the recognition of a receivable, contract asset or contract liability.

None of the revenue streams of the Group have any significant financing terms as there is less than 12 months between receipt of funds and satisfaction of performance obligations.

Specific revenue streams

The revenue recognition policies for the principal revenue streams of the Group are:

Sale of goods

Sale goods consist of industrial electrical products, including engineered solutions, direct to the "end user" customer and to the electrical wholesale markets. Revenue is recognised when the performance obligations have been satisfied, which is upon delivery of the goods.

Rendering of services

Rendering of services relates to the testing, calibration and repair of electrical testing and measurement equipment.

Revenue is recognised when the control of the promised goods and services is passed to the customer, typically upon performance or delivery of such goods and services. Accordingly, for the revenue streams described above, revenue is recognised at the point in time as the goods are delivered and services are performed.

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties.

Other income

Other income is recognised on an accruals basis when the Group is entitled to it.

(d) Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Chief Operating Decision Makers ('CODM'). The CODM is responsible for the allocation of resources to operating segments and assessing their performance.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(e) Taxation

The tax expense recognised in the statement of profit or loss and other comprehensive income comprises current income tax expense plus deferred tax expense.

Current tax is the amount of income taxes payable (recoverable) in respect of the taxable profit (loss) for the year and is measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates and laws that have been enacted or substantively enacted by the end of the reporting period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred tax is provided on temporary differences which are determined by comparing the carrying amounts of tax bases of assets and liabilities to the carrying amounts in the consolidated financial statements.

Deferred tax is not provided for the following:

- The initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).
- Taxable temporary differences arising on the initial recognition of goodwill.
- Temporary differences related to investment in subsidiaries, associates and jointly controlled entities to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and losses can be utilised.

Current and deferred tax is recognised as income or an expense and included in profit or loss for the period except where the tax arises from a transaction which is recognised in other comprehensive income or equity, in which case the tax is recognised in other comprehensive income or equity respectively.

Tax consolidation

IPD Group Limited ("the Group") and its 100% owned Australian subsidiaries are part of a tax consolidated group. As a result, members of the group have entered into a tax sharing arrangement in order to allocate income tax expense to the wholly owned subsidiaries on a pro-rata basis. In addition, the agreement provides for the allocation of income tax liabilities between the entities should the head entity default on its tax obligations. At the balance date, the possibility of default is remote. The head entity of the tax consolidation is the Group.

The Group has recognised the current tax liability of the tax consolidated group.

Members of the tax consolidated group are part of a tax funding agreement. The tax funding agreement provides for the allocation of current and deferred taxes to members of the tax consolidated group in accordance with their taxable income for the year. The allocation of taxes under the tax funding agreement is recognised as an increase/decrease in the subsidiaries' intercompany accounts with the head entity. The Group has applied the group allocation approach to determine the appropriate amount of current and deferred tax to allocate to each member of the tax consolidated group.

(f) Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of that asset. All other borrowing costs are recognised as an expense in the period in which they are incurred.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(g) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost of inventory is determined using the weighted average costs basis and is net of any rebates and discounts received. Net realisable value is estimated using the most reliable evidence available at the reporting date and inventory is written down through an obsolescence provision if necessary.

(h) Property, plant and equipment

Each class of property, plant and equipment is carried at cost or fair value less, where applicable, any accumulated depreciation and impairment.

Land and buildings

Land and buildings are measured using the cost model.

Plant and equipment

Plant and equipment are measured using the cost model.

Depreciation

Property, plant and equipment, excluding freehold land, is depreciated on a straight-line basis over the asset's useful life to the Group, commencing when the asset is ready for use.

Leased assets and leasehold improvements are amortised over the shorter of either the unexpired period of the lease or their estimated useful life.

The estimated useful lives used for each class of depreciable asset are shown below:

Fixed asset class	Useful life
Plant and Equipment	3 - 10 years
Furniture, Fixtures and Fittings	4 - 10 years
Motor Vehicles	4 - 5 years
Leasehold improvements	Over the period of the lease

At the end of each annual reporting period, the depreciation method, useful life and residual value of each asset is reviewed. Any revisions are accounted for prospectively as a change in estimate.

(i) Right of use assets

The right-of-use asset is measured using the cost model where cost on initial recognition comprises of the lease liability, initial direct costs, prepaid lease payments, estimated cost of removal and restoration less any lease incentives received. The right-of-use asset is depreciated over the lease term on a straight-line basis and assessed for impairment in accordance with the impairment of assets accounting policy.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(j) Financial Instruments

Financial instruments are recognised initially on the date that the Group becomes party to the contractual provisions of the instrument.

On initial recognition, all financial instruments are measured at fair value plus transaction costs (except for instruments measured at fair value through profit or loss where transaction costs are expensed as incurred).

Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification

On initial recognition the Group classifies its financial assets at amortised cost.

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets.

Amortised cost

Assets measured at amortised cost are financial assets where:

- the business model is to hold assets to collect contractual cash flows; and
- the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

The Group's financial assets measured at amortised cost comprise trade and other receivables and cash and cash equivalents in the statement of financial position.

Subsequent to initial recognition, these assets are carried at amortised cost using the effective interest rate method less provision for impairment.

Interest income, foreign exchange gains or losses and impairment are recognised in profit or loss. Gain or loss on derecognition is recognised in profit or loss.

Impairment of financial assets

Impairment of financial assets is recognised on an expected credit loss (ECL) basis for the following assets:

- financial assets measured at amortised cost

When determining whether the credit risk of a financial assets has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment and including forward looking information.

The Group uses the presumption that an asset which is more than 30 days past due has seen a significant increase in credit risk.

The Group uses the presumption that a financial asset is in default when:

- the other party is unlikely to pay its credit obligations to the Group in full, without recourse to the Group to actions such as realising security (if any is held); or
- the financial assets is more than 90 days past due.

Credit losses are measured as the present value of the difference between the cash flows due to the Group in accordance with the contract and the cash flows expected to be received. This is applied using a probability weighted approach.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(j) Financial Instruments (cont'd)

Trade receivables and contract assets

Impairment of trade receivables and contract assets have been determined using the simplified approach in AASB 9 which uses an estimation of lifetime expected credit losses. The Group has determined the probability of non-payment of the receivable and contract asset and multiplied this by the amount of the expected loss arising from default.

The amount of the impairment is recorded in a separate allowance account with the loss being recognised in finance expense. Once the receivable is determined to be uncollectable then the gross carrying amount is written off against the associated allowance.

Where the Group renegotiates the terms of trade receivables due from certain customers, the new expected cash flows are discounted at the original effective interest rate and any resulting difference to the carrying value is recognised in profit or loss.

Other financial assets measured at amortised cost

Impairment of other financial assets measured at amortised cost are determined using the expected credit loss model in AASB 9. On initial recognition of the asset, an estimate of the expected credit losses for the next 12 months is recognised. Where the asset has experienced significant increase in credit risk then the lifetime losses are estimated and recognised.

Financial liabilities

The Group measures all financial liabilities initially at fair value less transaction costs, subsequently financial liabilities are measured at amortised cost using the effective interest rate method.

The financial liabilities of the Group comprise trade payables, bank and other loans and lease liabilities.

(k) Impairment of non-financial assets

At the end of each reporting period the Group determines whether there is evidence of an impairment indicator for non-financial assets.

Where an indicator exists and regardless for goodwill, indefinite life intangible assets and intangible assets not yet available for use, the recoverable amount of the asset is estimated.

Where assets do not operate independently of other assets, the recoverable amount of the relevant cash-generating unit (CGU) is estimated.

The recoverable amount of an asset or CGU is the higher of the fair value less costs of disposal and the value in use. Value in use is the present value of the future cash flows expected to be derived from an asset or cash-generating unit.

Where the recoverable amount is less than the carrying amount, an impairment loss is recognised in profit or loss.

Reversal indicators are considered in subsequent periods for all assets which have suffered an impairment loss, except for goodwill.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(l) Intangible assets

Goodwill

Goodwill is carried at cost less accumulated impairment losses. Goodwill is calculated as the excess of the sum of:

- i) the consideration transferred;
- ii) any non-controlling interest; and
- iii) the acquisition date fair value of any previously held equity interest;

over the acquisition date fair value of net identifiable assets acquired in a business combination.

Under the 'full goodwill method', the fair values of the non-controlling interests are determined using valuation techniques which make the maximum use of market information where available.

Goodwill on acquisitions of subsidiaries is included in intangible assets. Goodwill on acquisition of associates is included in investments in associates.

Goodwill is not amortised but is tested for impairment annually and is allocated to the Group's cash generating units or groups of cash generating units, which represent the lowest level at which goodwill is monitored but where such level is not larger than an operating segment. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity sold.

Changes in the ownership interests in a subsidiary are accounted for as equity transactions and do not affect the carrying values of goodwill.

(m) Trade and other receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any allowance for expected credit losses. Trade receivables are generally due for settlement within 30 days.

The Group has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

(n) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(o) Leases

At inception of a contract, the Group assesses whether a lease exists - i.e. does the contract convey the right to control the use of an identified asset for a period of time in exchange for consideration.

This involves an assessment of whether:

- The contract involves the use of an identified asset - this may be explicitly or implicitly identified within the agreement. If the supplier has a substantive substitution right then there is no identified asset.
- The Group has the right to obtain substantially all of the economic benefits from the use of the asset throughout the period of use.
- The Group has the right to direct the use of the asset i.e. decision making rights in relation to changing how and for what purpose the asset is used.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(o) Leases (cont'd)

Lessee accounting

The non-lease components included in the lease agreement have been separated and are recognised as an expense as incurred.

At the lease commencement, the Group recognises a right-of-use asset and associated lease liability for the lease term. The lease term includes extension periods where the Group believes it is reasonably certain that the option will be exercised.

The right-of-use asset is measured using the cost model where cost on initial recognition comprises of the lease liability, initial direct costs, prepaid lease payments, estimated cost of removal and restoration less any lease incentives received.

The right-of-use asset is depreciated over the lease term on a straight line basis and assessed for impairment in accordance with the impairment of assets accounting policy.

The lease liability is initially measured at the present value of the remaining lease payments at the commencement of the lease. The discount rate is the rate implicit in the lease, however where this cannot be readily determined then the Group's incremental borrowing rate is used.

Subsequent to initial recognition, the lease liability is measured at amortised cost using the effective interest rate method. The lease liability is remeasured whether there is a lease modification, change in estimate of the lease term or index upon which the lease payments are based (e.g. CPI) or a change in the Group's assessment of lease term.

Where the lease liability is remeasured, the right-of-use asset is adjusted to reflect the remeasurement or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Exceptions to lease accounting

The Group has elected to apply the exceptions to lease accounting for both short-term leases (i.e. leases with a term of less than or equal to 12 months) and leases of low-value assets. The Group recognises the payments associated with these leases as an expense on a straight-line basis over the lease term.

(p) Employee benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits that are expected to be wholly settled within one year have been measured at the amounts expected to be paid when the liability is settled.

Employee benefits expected to be settled more than one year after the end of the reporting period have been measured at the present value of the estimated future cash outflows to be made for those benefits. In determining the liability, consideration is given to employee wage increases and the probability that the employee may satisfy vesting requirements. Cashflows are discounted using market yields on high quality corporate bond rates incorporating bonds rated AAA or AA by credit agencies, with terms to maturity that match the expected timing of cashflows. Changes in the measurement of the liability are recognised in profit or loss.

(q) Warranty provisions

Warranty provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured at the present value of management's best estimate of the outflow required to settle the obligation at the end of the reporting period. The discount rate used is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the unwinding of the discount is taken to finance costs in the statement of profit or loss and other comprehensive income.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(r) Earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of the Group, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

(s) Share based payments

The Company has established the EIP to assist in the motivation, reward and retention of senior management and other IPD employees from time to time. The EIP is designed to align the interests of senior management and other employees with the interests of Shareholders by providing an opportunity for employees to receive equity interests in the Company subject to the satisfaction of certain performance conditions. IPD may offer additional incentive schemes to the management and employees over time.

Equity-settled and cash-settled share-based compensation benefits are provided to employees.

Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

The cost of equity-settled transactions is measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the consolidated entity receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions is recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore, any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(s) Share based payments (cont'd)

If the non-vesting condition is within the control of the consolidated entity or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the consolidated entity or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

(t) Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

(u) Foreign currency transactions and balances

Transaction and balances

Foreign currency transactions are recorded at the spot rate on the date of the transaction.

At the end of the reporting period:

- Foreign currency monetary items are translated using the closing rate;
- Non-monetary items that are measured at historical cost are translated using the exchange rate at the date of the transaction; and
- Non-monetary items that are measured at fair value are translated using the rate at the date when fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition or in prior reporting periods are recognised through profit or loss, except where they relate to an item of other comprehensive income or whether they are deferred in equity as qualifying hedges.

Foreign operations

Foreign subsidiary transactions and balances are translated at the closing rate at the end of each reporting period. Exchange differences arising on translating monetary items at rates different from those at which they were translated on initial recognition or in prior reporting periods are recognised in equity.

2. MATERIAL ACCOUNTING POLICY INFORMATION (CONT'D)

(v) Research & Development

Research costs are expensed in the period in which they are incurred. Development costs are capitalised when it is probable that the project will be a success considering its commercial and technical feasibility; the consolidated entity is able to use or sell the asset; the consolidated entity has sufficient resources and intent to complete the development; and its costs can be measured reliably. Capitalised development costs are amortised on a straight-line basis over the period of their expected benefit, being their finite life of 5 years.

(w) New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2026. The Group's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the Group, are set out below.

AASB 18 Presentation and Disclosure in Financial Statements

In June 2024, the AASB issued a new standard AASB 18 Presentation and Disclosure in Financial Statements, which will be effective for the Group from 1 July 2027 and is required to be applied retrospectively. AASB 18 will replace AASB 101 Presentation of Financial Statements and introduces new requirements to improve entities' reporting of financial performance and give investors a better basis for analysing and comparing entities. These requirements aim to improve comparability in the income statement, enhance transparency of management-defined performance measures and provide useful grouping of information in the financial statements. The Group continues to assess the impact of adopting AASB 18.

There are no other new standards or amendments to existing standards that are not yet effective which are expected to have a material impact on the Group's financial statements.

(x) Rounding of amounts

The Company is a company of the kind referred to in the Class order 2026/183 - *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183*, dated 24 March 2026, and in accordance with that Class Order amounts in the Directors' report and the consolidated financial statements are rounded off to the nearest thousand dollars, unless otherwise indicated.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The consolidated entity measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity. Refer to note 29 for further information.

Revenue from contracts with customers involving sale of goods

When recognising revenue in relation to the sale of goods to customers, the key performance obligation of the consolidated entity is considered to be the point of delivery of the goods to the customer, as this is deemed to be the time that the customer obtains control of the promised goods and therefore the benefits of unimpeded access.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (CONT'D)

Net realisable value of inventories

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The realisable value is assessed by taking into account the recent sales experience, the ageing of inventories and other factors that affect the recoverable amount of inventory.

Estimation of useful lives of assets

The consolidated entity determines the estimated useful lives and related depreciation and amortisation charges for its property, plant and equipment and finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The depreciation and amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Goodwill and other indefinite life intangible assets

The consolidated entity tests annually, or more frequently if events or changes in circumstances indicate impairment, whether goodwill and other indefinite life intangible assets have suffered any impairment, in accordance with the accounting policy stated in note 2. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations. These calculations require the use of assumptions, including estimated discount rates based on the current cost of capital and growth rates of the estimated future cash flows.

Lease term

The lease term is a significant component in the measurement of both the right-of-use asset and lease liability. Judgement is exercised in determining whether there is reasonable certainty that an option to extend the lease or purchase the underlying asset will be exercised, or an option to terminate the lease will not be exercised, when ascertaining the periods to be included in the lease term. In determining the lease term, all facts and circumstances that create an economical incentive to exercise an extension option, or not to exercise a termination option, are considered at the lease commencement date. Factors considered may include the importance of the asset to the consolidated entity's operations; comparison of terms and conditions to prevailing market rates; incurrence of significant penalties; existence of significant leasehold improvements; and the costs and disruption to replace the asset. The consolidated entity reassesses whether it is reasonably certain to exercise an extension option, or not exercise a termination option, if there is a significant event or significant change in circumstances.

Incremental borrowing rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the consolidated entity estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

Employee benefits provision

As discussed in note 2, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

4. SEGMENT INFORMATION

Operating segments are reported in a manner which is consistent with the internal reporting provided to the CODM as defined above. The CODM have been identified as the Board of Directors for the Group.

The internal reports reviewed by the Board, which are used to make strategic decisions, are separated into the Group's key market segments Products division and Services division:

Operating segments have been defined as:

- Products division – core focus in the products division is the sale of electrical infrastructure products to customers including switchboard manufacturers, electrical wholesalers, electrical contractors, power utilities, OEMs and system integrators
- Services division – provision of services, including installation and commissioning, calibration and testing, maintenance and repairs and refurbishment

The accounting policies of the reportable secondary segments are the same as the Group's accounting policies.

Year ended 30 June 2026	Products division \$'000	Services division \$'000	Total \$'000
Revenue from external customers	394,758	19,548	414,306
Intercompany sales	1,507	272	1,779
Other revenue/income	134	16	150
Total revenue from ordinary activities	396,399	19,836	416,235
Intercompany sales elimination	(1,507)	(272)	(1,779)
Total revenue from ordinary activities	394,892	19,564	414,456
Earnings before Interest, Tax, Depreciation and Amortisation	57,526	(2,539)	54,987
Depreciation and amortisation expense			(8,256)
Interest expense			(2,515)
Profit before income tax			44,216
Income Tax			(13,761)
Net profit after income tax			30,455
Year ended 30 June 2025	Products division \$'000	Services division \$'000	Total \$'000
Revenue from external customers	334,527	20,156	354,683
Intercompany sales	-	3,890	3,890
Other revenue/income	279	119	398
Total revenue from ordinary activities	334,806	24,165	358,971
Intercompany sales elimination	-	(3,890)	(3,890)
Total revenue from ordinary activities	334,806	20,275	355,081
Earnings before Interest, Tax, Depreciation and Amortisation	48,309	(1,882)	46,427
Depreciation and amortisation expense			(7,249)
Interest expense			(1,988)
Profit before income tax			37,190
Income Tax			(11,004)
Net profit after income tax			26,186

4. SEGMENT INFORMATION (CONT'D)

The Group's assets were not split by reportable secondary operating segment as the CODM do not utilise this information for the purposes of resource allocation and assessment of segment performance.

5. REVENUE AND OTHER INCOME

	2026 \$'000	2025 \$'000
Revenue from external customers	414,306	354,683
Other Income		
Recoveries	172	211
Profit/(Loss) from sale of fixed assets	(38)	172
Interest income	409	615
Other Income	16	15
Total other income	559	1,013
Total Revenue and Other Income	414,865	355,696

Disaggregation of revenue

	2026 \$'000	2025 \$'000
The disaggregation of revenue by types of goods and services:		
Power distribution	152,939	128,835
Cables	106,875	74,358
Hazardous area equipment	47,919	42,923
Motor control	39,724	37,007
Automation and communications	33,028	29,875
Power monitoring	13,683	15,643
Services	19,548	20,156
Other	590	5,886
Total revenue from external customers	414,306	354,683

6. EXPENSES

	2026 \$'000	2025 \$'000
Depreciation		
Plant and Equipment	1,732	1,825
Buildings ROU	6,158	5,124
Plant and Equipment ROU	189	139
Amortisation		
Intangibles	177	161
Total depreciation and amortisation	8,256	7,249
Finance costs		
Bank charges	183	146
Interest expense	2,924	2,603
Total finance costs	3,107	2,749

7. INCOME TAX EXPENSE

	2026 \$'000	2025 \$'000
Income tax expense		
Current tax expense		
Local income tax -current period	14,384	11,057
Adjustments recognised for prior periods	129	(225)
Deferred tax expense		
Origination and reversal of temporary differences	(752)	172
Total income tax expense	13,761	11,004
Profit before income tax expense	44,216	37,190
Tax at the statutory tax rate of 30% (2025: 30%)	13,265	11,157
Tax effect amounts which are not deductible/(taxable) in calculating taxable income:		
Non-deductible expense	367	72
Under/(over) provision for income tax in prior year	129	(225)
Income tax expense	13,761	11,004

8. CASH AND CASH EQUIVALENTS

	2026 \$'000	2025 \$'000
Cash at bank	32,199	20,855
Cash and cash equivalents	32,199	20,855
Cash and cash equivalents reported in the statement of cash flows are reconciled to the equivalent items in the statement of financial position as follows:		
Cash and cash equivalents	32,199	20,855
Balance as per statement of cash flows	32,199	20,855

9. TRADE AND OTHER RECEIVABLES

	2026 \$'000	2025 \$'000
Trade receivables	81,976	65,734
Provision for impairment	(779)	(783)
Trade and other receivables	81,197	64,951

The carrying value of trade receivables is considered a reasonable approximation of fair value due to the short-term nature of the balances.

The maximum exposure to credit risk at the reporting date is the fair value of each class of receivable in the financial statements.

9. TRADE AND OTHER RECEIVABLES (CONT'D)

Impairment of receivables

	2026 \$'000	2025 \$'000
Balance at beginning of the year	783	750
(Write off) / additional impairment loss recognised	(4)	33
Balance at end of year	779	783

The Group measures the loss allowance for trade receivables at an amount equal to lifetime expected credit loss (ECL). The ECL on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

	Trade receivables \$'000	Credit loss allowance	Provision for impairment \$'000
Current	78,502	0.6%	(458)
0 – 30 days	1,106	6.7%	(74)
31 – 60 days	30	9.5%	(3)
61 – 90 days	241	9.5%	(23)
90+ days	2,097	10.6%	(221)
Total trade receivables	81,976		(779)

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

The Group writes off a trade receivable when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings.

10. INVENTORIES

	2026 \$'000	2025 \$'000
Finished goods	95,273	80,538
Work in progress	1,182	1,082
Raw materials	3,154	3,170
Provision for obsolescence	(4,256)	(2,595)
Total Inventories	95,353	82,195

Write-downs of inventories to net realisable value during the year were \$ Nil (2025: \$ NIL).

11. PROPERTY, PLANT AND EQUIPMENT

	Plant and Equipment \$'000	Computer Equipment \$'000	Furniture, Fixtures and Fittings \$'000	Motor Vehicles \$'000	Leasehold Improvements \$'000	Total \$'000
Year ended 30 June 2026

Balance at 30 June 2025	947	618	591	1,443	1,079	4,678
Year ended 30 June 2025						
Cost	4,933	4,755	1,847	3,327	2,750	17,612
Accumulated depreciation	(3,986)	(4,137)	(1,256)	(1,884)	(1,671)	(12,934)
Balance at 30 June 2025	947	618	591	1,443	1,079	4,678

12. LEASES

Right-of-use assets

	Buildings \$'000	Motor Vehicles \$'000	Total \$'000
Year ended 30 June 2026			
Balance at the beginning of the year	18,099	571	18,670
Additions to right-of-use assets	12,454	-	12,454
Depreciation charge	(6,158)	(185)	(6,343)
Balance at the end of year	24,395	386	24,781
Year ended 30 June 2025			
Balance at the beginning of the year	12,078	-	12,078
Additions to right-of-use assets	11,145	710	11,855
Depreciation charge	(5,124)	(139)	(5,263)
Balance at the end of year	18,099	571	18,670

Lease liabilities

	< 1 year \$'000	1 - 5 years \$'000	> 5 years \$'000	Total undiscounted lease liabilities \$'000	Lease liabilities are included in this Statement of Financial Position \$'000
June 2026					
Lease liabilities	7,757	17,221	6,036	31,014	26,968
June 2025					
Lease liabilities	6,038	13,714	3,579	23,331	20,446

Right-of-use assets and lease liabilities

The Group has leases for various network sites and motor vehicles. Rental contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices.

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor. Leased assets may not be used as security for borrowing purposes.

Payments associated with short-term leases of equipment and vehicles and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value assets comprise IT equipment.

13. INTANGIBLE ASSETS

	2026 \$'000	2025 \$'000
Goodwill	110,588	76,704
Development costs	1,677	1,713
Closing Balance	112,265	78,417

Reconciliation of the written-down value at the beginning and end of the current and previous financial year is set out below:

	Goodwill \$'000	Development costs \$'000	Total \$'000
Year ended 30 June 2026			
Balance at the beginning of the year	76,704	1,713	78,417
Additions	33,884	144	34,028
Amortisation charge	-	(180)	(180)
Balance at the end of the year	110,588	1,677	112,265

Goodwill impairment was assessed on the basis that IPD, EX Engineering, CMI Operations and Platinum Cables are identifiable cash-generating business units.

	IPD \$'000	EX Engineering \$'000	CMI Operations \$'000	Platinum Cables \$'000	Total \$'000
Balance at 30 June 2026	10,459	9,092	57,153	33,884	110,588

The recoverable amount of the consolidated entity's goodwill has been determined by a value-in-use calculation using a discounted cash flow model, based on a 5 year projection period using a steady rate, together with a terminal value.

Key rate assumptions included in the current financial year impairment assessment are set out in the following table:

	IPD	EX Engineering	CMI Operations	Platinum Cables
Discount rate – pre- tax	8%	8%	8%	8%
Long-term annual growth rate	4%	4%	4%	3%

Forecast transaction volumes are the key drivers in determining the cashflow projection for each CGU. In the even that transaction volumes do not reach the levels forecast there is a risk that the forecast cashflows are not sufficient to support the carrying value of goodwill and an impairment charge may be reported in a future accounting period.

Sensitivity to change assumptions:

Increases in discount rates or changes in other key assumptions may cause the recoverable amount to fall below carrying values. Based on current economic conditions and CGU performances, there are no reasonably possible changes to key assumptions used in the determination of CGU recoverable amounts that would result in material impairment to the consolidated entity. It would require a very significant decline in revenue or significant increase in the discount rate before any impairment considerations.

14. DEFERRED TAX ASSETS

	2026 \$'000	2025 \$'000
Deferred tax assets		
Provisions and accruals	3,316	2,225
Right of use assets	654	530
Unrealised foreign exchange gains	150	-
Section 40-880 deduction – Acquisition and legal costs	424	796
Subsidiary acquisition costs	639	503
Total deferred tax assets	5,183	4,054

	2026 \$'000	2025 \$'000
The movement of net deferred tax assets during the year is as follows:		
Opening balance	4,054	4,510
Amount recognised in profit and loss	575	(23)
Amount recognised in equity	-	(385)
Adjustments recognised for prior periods	214	(48)
Additions through business combinations	340	-
Closing balance	5,183	4,054

15. TRADE AND OTHER PAYABLES

	2026 \$'000	2025 \$'000
Trade payables	61,181	60,243
GST payable	3,138	2,040
Other payables and accruals	14,783	9,505
Contingent consideration (i)	7,500	-
Total trade and other payables	86,602	71,788

- (i) Represents contingent consideration on the acquisition of Platinum Cables Pty Ltd. The Earn Out amount will be calculated as the CY26 EBIT (Jan–Dec26) minus the Actual FY25 EBIT (year ending Jun25), times a pre-determined multiplier, capped at \$7,500,000.

16. BORROWINGS

	2026 \$'000	2025 \$'000
Overdraft facility (i)	-	-
Acquisition debt facility (ii)	48,600	11,100
Total facility	48,600	11,100
Current	-	-
Non-current	48,600	11,100
Total facility	48,600	11,100

16. BORROWINGS (CONT'D)

16.1 Facilities

During the financial year, the Group had the following borrowing facilities:

- (i) The Group has a \$10,000,000 overdraft finance facility available to meet working capital requirements.
- (ii) The Group has a \$48,600,000 acquisition debt facility. \$11,100,000 had been drawn as at 30 June 2025 and on the 31st December 2025, the facility was increased by \$37,500,000 which was drawn to fund the acquisition of Platinum Cables Pty Ltd.

16.2 Loan covenants

The borrowing facilities are subject to certain financial covenants and these are assessed at the end of each quarter. The loans will be repayable immediately if the covenants are breached. The Group is not aware of any facts or circumstances that indicate that it may have difficulty complying with the covenants within 12 months after the reporting period.

17. CURRENT TAX LIABILITIES

	2026 \$'000	2025 \$'000
Income tax payable	4,003	1,245
Total income tax payable	4,003	1,245

18. PROVISIONS

	2026 \$'000	2025 \$'000
Current		
Warranties	314	309
Provision of employee benefits	9,425	5,380
Total current provisions	9,739	5,689
Non-current		
Provision of employee benefits	900	682

19. DEFERRED TAX LIABILITIES

	2026 \$'000	2025 \$'000
Deferred tax liabilities		
Depreciation	22	148
Unrealised foreign exchange losses	-	2
Total deferred tax liabilities	22	150

The movement of net deferred tax liabilities during the year is as follows:

	2026 \$'000	2025 \$'000
Opening balance	150	339
Amount recognised in profit and loss	(177)	(189)
Additions through business combinations	49	-
Closing balance	22	150

20. ISSUED CAPITAL

	2026 \$	2025 \$
103,980,121 fully paid ordinary shares (2025: 103,693,582)	96,990,208	96,187,921

Movement:

Date	Details	\$	Number of Shares
1 July 2025	Opening balance	96,187,921	103,693,582
	<i>Movement:</i>		
30 September 2025	Performance Rights – shares issued	302,287	157,110
15 January 2026	Platinum Cables acquisition – shares issued	500,000	129,429
30 June 2026	Closing Balance	96,990,208	103,980,121

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands, every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Capital risk management

The consolidated entity's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the consolidated entity may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated entity would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The consolidated entity is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The consolidated entity is subject to certain financing arrangements covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year.

The capital risk management policy remains unchanged from the 30 June 2025 Annual Report.

21. RESERVES

	2026 \$'000	2025 \$'000
Foreign currency translation reserve	(475)	(382)
Share based payments reserve	667	416
Total reserves	192	34

Foreign currency translation reserve

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars. It is also used to recognise gains and losses on hedges of the net investments in foreign operations.

Share based payments reserve

The reserve is used to recognise the equity-settled transactions with employees based on the fair value of the equity instruments at the date at which they are granted. The fair value is determined using either the Binomial or Back-Scholes model taking into account the terms and conditions upon which the instruments were granted.

22. DIVIDENDS

The following dividends were declared and paid:

	2026 \$'000	2025 \$'000
Final ordinary fully franked dividend of 6.2 cents per share (2025: 6.2 cents per share)	6,429	6,410
Interim ordinary fully franked dividend of 6.8 cents per share (2025: 6.4 cents per share)	7,071	6,636
Total dividends declared and paid	13,500	13,046

On 14 August 2026, the Directors declared a final dividend of 7.9 cents per share fully franked with an ex-dividend date of 23 September 2026, record date of 24 September 2026 and payable on 08 October 2026.

Franked dividends declared or paid during the year were franked at the tax rate of 30%.

Franking credits account

	2026 \$'000	2025 \$'000
The franking credits available for subsequent financial years at a tax rate of 30%	35,138	27,894

The above available balance is based on the dividend franking account at year-end adjusted for:

- (a) Franking credits that will arise from the payment of the current tax liabilities;
- (b) Franking debits that will arise from the payment of dividends recognised as a liability at the year end;
- (c) Franking credits that will arise from the receipt of dividends recognised as receivables at the end of the year.

The ability to use the franking credits is dependent upon the Company's future ability to declare dividends.

23. EARNINGS PER SHARE

	Year ended 30 June 2026 Cents per share	Year ended 30 June 2025 Cents per share
Basic earnings per share	29.3	25.3
Diluted earnings per share	29.2	25.2

Reconciliation of earnings used in calculating earnings per share

	Year ended 30 June 2026 \$'000	Year ended 30 June 2025 \$'000
Net profit	30,455	26,186

Reconciliation of shares used in calculating earnings per share

	Year ended 30 June 2026 No.	Year ended 30 June 2025 No.
Opening balance of shares for the period	103,693,582	103,380,078
Shares issued	286,539	313,504
Closing balance of shares for the period	103,980,121	103,693,582
Weighted average number of ordinary shares used in the calculation of basic earnings per share	103,870,740	103,615,420
Shares deemed to be issued for no consideration in respect of:		
Employee performance Rights	538,843	246,410
Closing number of shares deemed to be issued for the period	103,980,121	103,939,992
Weighted average number of ordinary shares used in the calculation of diluted earnings per share	104,244,763	104,094,385

24. REMUNERATION OF AUDITORS

During the financial year, the following fees were paid or payable for services provided by PKF, the auditor of the company, its network firms and unrelated firms:

	2026 \$'000	2025 \$'000
Audit services – PKF Audit and Assurance		
Auditing and reviewing the financial statements	276	248
Other services PKF		
Taxation service	30	29
Total remuneration of auditors	306	277

25. INTERESTS IN SUBSIDIARIES

The consolidated financial statements incorporate the assets, liabilities and results of the following wholly-owned subsidiaries in accordance with the accounting policy described in note 2:

	Principal place of business / Country of Incorporation	Percentage Owned (%) 2026	Percentage Owned (%) 2025
Addelec Power Services Pty Ltd	Australia	100	100
Control Logic Pty Ltd	Australia	100	100
High Technology Control Pty Ltd	Australia	100	100
IPD Colombo (PVT) Ltd	Sri Lanka	100	100
IPD Services Pty Ltd	Australia	100	100
EX Engineering Pty Ltd	Australia	100	100
CMI Operations Pty Ltd	Australia	100	100
Platinum Cables Pty Ltd	Australia	100	N/A

26. BUSINESS COMBINATIONS

On 31 December 2025, IPD Group acquired 100% interest of Platinum Cables Pty Ltd for a total consideration of \$44.5M and obtained control. Platinum Cables is a leading Australian provider of high-performance, highly specialised cable solutions for the mining and resources sector. This acquisition is expected to strengthen its presence in the mining sector, deepen relationships with key customers and support sustainable expansion in the specialised market segment.

The following table shows the assets acquired, liabilities assumed and the purchase consideration at the acquisition date:

	Fair Value \$'000
Purchase Consideration	
Cash	36,307
Deferred Cash Consideration	1,247
Deferred Share Consideration ¹	500
Contingent consideration	7,500
Total purchase consideration	45,554
Assets or liabilities acquired	
Cash	2,259
Trade receivables	5,480
Inventories	12,474
Plant and equipment	389
Deferred tax assets	289
Other assets	142
Right of Use Assets	4,015
Trade payables	(6,960)
Current tax liabilities	(240)
Lease liability	(4,015)
Provisions	(1,311)
Other Liabilities	(852)
Total net identifiable assets	11,670

26. BUSINESS COMBINATIONS (CONT'D)

Identifiable assets acquired and liabilities assumed	11,670
Consideration	45,554
Less: Identifiable assets acquired	(11,670)
Goodwill	33,884

¹ 129,429 ordinary shares were issued as part of the consideration on the 15th January 2026. The shares were valued off the VWAP across the 20 Business Days up to the Completion Date

The goodwill is attributable to Platinum Cables Pty Ltd's strong position and profitability, technical expertise in the high performance cable solutions, and synergies expected to arise after the company's acquisition of the new subsidiary. None of the goodwill is expected to be deductible for tax purposes. See note 13 for the changes in goodwill as a result of the acquisition.

The Group applies provisional accounting for any business combination. Any reassessment of the fair value of the assets acquired or liabilities assumed during the earlier of the finalisation of the provisional accounting or 12 months from acquisition date is adjusted for retrospectively, with corresponding adjustments against goodwill. Thereafter, at each reporting date, any increase or decrease in the fair value of the assets acquired or liabilities assumed will result in a corresponding gain or loss recognised in profit or loss. The fair value of deferred tax assets and tax liabilities is provisional pending final valuations.

The contingent consideration arrangement requires the Group to pay the former owners of Platinum Cables Pty Ltd an Earn Out amount to be calculated as the Actual FY25 EBITDA minus the CY26 EBITDA, times a pre-determined multiplier up to a maximum aggregate Purchase Price of \$45.6 million.

The business was acquired on 31 December 2025. If the acquisition had occurred on 1 July 2025, consolidated revenue, and consolidated profit after tax for the year ended 30 June 2026 would have been \$435,692,000 and \$32,217,000 respectively.

27. CHANGES IN LIABILITIES ARISING FROM FINANCING ACTIVITIES

	Borrowings \$'000	Lease Liability \$'000	Total \$'000
Year ended 30 June 2026			
Balance at the beginning of the year	11,100	20,446	31,546
Net cash used in financing activities	37,500	(5,932)	31,568
Acquisition of leases	-	12,454	12,454
Balance at the end of year	48,600	26,968	75,568
	Borrowings \$'000	Lease Liability \$'000	Total \$'000
Year ended 30 June 2025			
Balance at the beginning of the year	31,100	13,604	44,704
Net cash used in financing activities	(20,000)	(5,013)	(25,013)
Acquisition of leases	-	11,855	11,855
Balance at the end of year	11,100	20,446	31,546

28. CASHFLOW INFORMATION

Reconciliation of result for the year to cashflows from operating activities

Reconciliation of net income to net cash provided by operating activities:

	2026 \$'000	2025 \$'000
Profit for the year	30,455	26,186
Cash flows excluded from profit attributable to operating activities		
Non-cash flows and non-operating cash items in profit:		
- depreciation	8,256	7,249
- net (gain)/loss on disposal of property, plant and equipment	38	(174)
- interest on lease liabilities	1,078	769
- actuarial gain/(loss)	(356)	(246)

- (increase)/decrease in working capital on acquisition of subsidiary	9,475	-
- increase/(decrease) in trade and other payables	7,037	4,259
- increase/(decrease) in provisions	4,268	(941)
- increase/(decrease) in other liabilities	-	-
Cashflows from operations	32,954	39,399

29. SHARE BASED PAYMENTS

At 30 June 2026 the Group has the following share-based payment schemes:

The Company has established the EIP to assist in the motivation, reward and retention of senior management and other IPD employees from time to time. The EIP is designed to align the interests of senior management and other employees with the interests of Shareholders by providing an opportunity for employees to receive equity interests in the Company subject to the satisfaction of certain performance conditions. IPD may offer additional incentive schemes to the management and employees over time.

The EIP is a long-term incentive plan, under which options or performance rights to subscribe for or be transferred Shares (Plan Awards) may be offered to eligible employees (including a director employed in an executive capacity or any other person who is declared by the Board to be eligible) selected by the Directors at their discretion.

The invitations issued to eligible employees will include information such as the amount required to be paid for the Plan Award (if any), vesting conditions and any trading restrictions on dealing with Shares allocated on vesting or exercise of a Plan Award. Upon acceptance of an invitation, the Directors will grant Plan Awards in the name of the eligible employee. On vesting, one Plan Award is exercisable into or entitles the holder to one Share. Unless otherwise specified in an invitation, the Directors have the discretion to settle Plan Awards with a cash equivalent payment.

29. SHARE BASED PAYMENTS (CONT'D)

Share based payments granted during the current financial year:

Performance rights series	Effective grant date	Number granted	Grant date fair value \$	Vesting date
Tranche 1	9/12/2025	146,260	431,568	9/12/26
Tranche 2	9/12/2025	146,260	431,568	9/12/27
Tranche 3	9/12/2025	146,260	431,568	9/12/28

Where relevant, the expected life used in the model has been adjusted based on management's best estimate for the effects on non-transferability, performance hurdles, and employment considerations.

Performance rights series	Grant date fair value	Rights life	Dividend yield \$

- Performance rights forfeited	1.54	(74,818)
Balance at 30 June 2026		538,843

30. FINANCIAL INSTRUMENTS

Financial risk management objectives

The consolidated entity's activities expose it to a variety of financial risks: market risk (including foreign currency risk) and credit risk. The consolidated entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the consolidated entity. The consolidated entity uses derivative financial instruments such as forward foreign exchange contracts to hedge certain risk exposures. Derivatives are exclusively used for hedging purposes, i.e. not as trading or other speculative instruments.

Foreign currency risk

Foreign currency forward contracts are used in the normal course of day-to-day business to hedge exposure to fluctuations in foreign exchange.

The maturity, settlement amounts and the average contractual exchange rates of the consolidated entity's outstanding forward foreign exchange contracts at the reporting date were as follows:

	Sell Australian dollars \$'000		Average exchange rates	
	2026	2025	2026	2025
Buy US dollars				
<i>Maturity</i>				
0 – 3 months	3,014	591	0.7013	0.6508
4 – 6 months	-	-	-	-

	Sell Australian dollars \$'000		Average exchange rates	
	2026	2025	2026	2025
Buy Euros				
<i>Maturity</i>				
0 – 3 months	4,836	1,767	0.6041	0.5640
4 – 6 months	1,697	-	0.6017	-

Buy Great British Pounds				
0 – 3 months	4	-	0.5185	-
4 – 6 months	-	-	-	-

Buy Japanese Yen				
0 – 3 months	-	15	-	94.2750
4 – 6 months	-	-	-	-

The carrying amount of the consolidated entity's foreign currency-denominated financial assets and financial liabilities at the reporting date were as follows:

	Assets \$'000		Liabilities \$'000	
	2026	2025	2026	2025
US dollars	30	290	-	-
Euros	17	5	-	-
Total	47	295	-	-

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has a strict code of credit, including obtaining agency credit information, confirming references and setting appropriate credit limits. The consolidated entity obtains guarantees where appropriate to mitigate credit risk. The maximum exposure to credit risk at the reporting date to recognised financial assets is the

30. FINANCIAL INSTRUMENTS (CONT'D)

carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

The following tables detail the consolidated entity's remaining contractual maturity for its financial instrument liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the financial liabilities are required to be paid. The tables include both interest and principal cash flows disclosed as remaining contractual maturities and therefore these totals may differ from their carrying amount in the statement of financial position:

2026	1 year or less \$'000	Between 1 and 5 years \$'000	Over 5 years \$'000	Total \$'000
Non-derivatives

Derivatives				
Forward foreign exchange contracts net settled	-	-	-	-
Total derivatives	-	-	-	-

The cash flows in the maturity analysis above are not expected to occur significantly earlier than contractually disclosed above.

Fair value of financial instruments

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value

31. KEY MANAGEMENT PERSONNEL

The individuals within the Group who have been determined to be Key Management Personnel ('KMP') for the period ended 30 June 2026 are those people who have the authority and responsibility for planning, directing and controlling the Group's activities, either directly or indirectly. The Group's key management personnel are the Directors of the company.

Compensation

The aggregate compensation made to key management personnel of the Group is set out below:

	2026 \$'000	2025 \$'000
Short term employee benefits	1,919	1,371
Post employment benefits	75	90
Long term benefits	47	19
Share based payments	843	-
Total remuneration of key management personnel	2,884	1,480

32. RELATED PARTY TRANSACTIONS

There were no related party transactions for the year ended 30 June 2026 (2025: None).

33. PARENT ENTITY

The following information has been extracted from the books and records of the parent, IPD Group Ltd and has been prepared in accordance with Accounting Standards. The financial information for the parent entity, IPD Group Ltd has been prepared on the same basis as the financial statements except as disclosed below.

Investments in subsidiaries, associates and joint ventures

Investments in subsidiaries, associates and joint venture entities are accounted for at cost in the financial statements of the parent entity. Dividends received from associates are recognised in the parent entity profit or loss, rather than being deducted from the carrying amount of these investments.

	30 June 2026 \$'000	30 June 2025 \$'000
