

PEAK PROCESSING PLANT THROUGHPUT EXPANSION APPROVED

Aurelia Metals Limited (ASX: **AMI**) (**Aurelia** or the **Company**) is pleased to announce that its wholly owned subsidiary, Peak Gold Mines Pty Ltd, has received a Notice of Determination from Cobar Shire Council approving an increase in the Peak processing plant throughput rate from approximately 800ktpa to 1.2Mtpa.

This development consent is the final regulatory approval required to operate the Peak processing plant at the expanded rate, which is enabled through the Tailings & Water Management Project¹, Tertiary Ball Mill Project and Crushing & Materials Handling Expansion Project².

Martin Cummings, Interim Chief Executive Officer, commented:

"The receipt of this development consent is an important milestone, aligning the approved processing capacity with our growth plans to increase mining and processing rates across our Cobar Basin operations."

"The process plant expansion is already well advanced, with the new tailings thickener commissioned in June 2026. The Tertiary Ball Mill Project is progressing to schedule, with commissioning expected in Q1 FY27, while planning for the Crushing and Materials Handling Expansion Project continues in line with the broader mine ramp-up."

This announcement has been approved for release by the Interim Chief Executive Officer of Aurelia Metals.

About Aurelia

Aurelia Metals Limited (ASX: AMI) is an Australian mining and exploration company with a highly strategic landholding in the Cobar Basin in western New South Wales. We operate three underground base metal mines at our two operations, Peak and Federation. In addition, we are progressing the Great Cobar Project, a consented, high-grade copper development located at Peak.
