01

FY26 highlights

FY26 execution has built a stronger earnings platform for FY27

Closing loan book

\$2.08bn

↑34%

FY25 to FY26

Record loan book provides a materially larger earnings base entering FY27.

Gross revenue

\$249m

↑20%

FY25 to FY26

Higher-quality growth and improving funding economics continue to strengthen earnings.

Loan originations

\$1.23bn

↑34%

FY25 to FY26

Record originations and a stronger exit run rate underpin FY27 growth.

Net credit losses

2.4%

↓1.0pp

FY25 to FY26

Lower credit losses despite rapid growth demonstrate disciplined execution.

Investment is beginning to translate into earnings

Statutory NPAT Loss

\$40.1m

↑40%

FY25 to FY26

Statutory NPAT improved 40% despite significant investments and the upfront ECL provisioning required for the loan book growth.

Normalised NPAT Loss

\$4.1m

↑74%

FY25 to FY26

FY26 marked an important earnings inflection point, returning to positive normalised profitability for 2H26, as operating leverage emerges as scale increases.

Operating cash profit

\$11.0m

↓20%*

FY25 to FY26

* Based on \$13.7m operating cash profit excluding \$10.1m one-off in 1H25

Strong underlying cash generation continues to fund investment and growth.

Operating cost-to-income

26.8%

↑2.2pp

FY25 to FY26

Cost-to-income increased with deliberate investment in tech, AI, brand and growth initiatives. Importantly, revenue growth outpaced expense growth in 2H26.

Strategic portfolio optimisation is improving risk-adjusted returns

Secured assets on book

59%

↓3.2pp
FY25 to FY26

Portfolio mix optimised, with 59% secured assets supporting lower credit losses and stronger long-term returns.

Revenue yield

14.6%

↓1.2pp
FY25 to FY26

Lower revenue yield reflects a deliberate shift towards higher-quality lending and more sustainable earnings.

Net interest margin

6.5%

↓1.0pp
FY25 to FY26

NIM reduction reflects deliberate yield trade-off to improve risk-adjusted NIM.

Risk-adjusted net interest margin

2.4%

↑0.9pp
FY25 to FY26

New FY26 originations are generating >3.5% risk-adjusted NIM, increasing earnings power from the new portfolio mix.

Risk-adjusted NIM improved as stronger credit performance more than offset lower portfolio yields.

1. FY24 RNIM benefited from a higher-margin, less scalable portfolio mix, before the strategic shift to higher-quality secured lending and market-aligned commissions.

Operating cash profit (excluding one-off benefit)	13.7	11.0	(20%)	(2.7)

- Revenue increased 20% to \$249m, driven by 34% loan book growth, partially offset by lower yields from the shift to higher quality lending
- Improved portfolio quality reduced impairment expense by 12% despite the materially larger loan book, driven by stronger personal loan credit performance
- FY26 investment in direct channels, credit cards, and white-label partnerships was recognised immediately, while the earnings benefits build over future periods
- Operating expenses stabilised through 2H26, with revenue growing ~12% over the prior half, demonstrating emerging operating leverage
- Statutory NPAT loss improved 40% as stronger revenue growth and lower credit losses offset continued investment in future growth
- Normalised NPAT loss improved 74% to \$4.1m, with 2H26 marking an inflection point, as the cost base stabilised and net interest income improved
- Operating cash profit remained strong while investment in future growth initiatives continued

Strategic growth investment

- FY26 included targeted investment in AI, cards, new distribution channels and brand to support the next phase of growth.
- These investments increased cost-to-income ratio to 26.8%, while underlying operating leverage continued to improve, with operating cost to loan book reducing to 3.2%.
- Importantly, operating costs stabilised in the second half while revenue continued to grow, demonstrating the operating leverage expected as these investments mature.

Operating leverage vs. Loan book

Loan origination

Growth investment during FY26

Quality loan book with sustainable income

- Higher credit quality, longer terms and portfolio growth support a more sustainable revenue base
- NIM reduced to 6.5%, while improved credit performance lifted risk adjusted NIM to 2.4%
- 2H26 returned to positive Normalised NPAT, with FY26 front book originations above 3.5% RNIM supporting future margin expansion
- The book reflects a diversified mix of secured and unsecured assets with favourable credit profiles

Equifax score category	Secured assets on book	Homeowners on book	Average contractual term
“Very Good” (Category range 735-852; MONEYME at 802 for FY26)	59%	43%	73 Months

Lower credit losses and arrears rates

- Net credit losses improved for a third consecutive year to 2.4%, reflecting higher quality originations
- Credit performance improved despite 34% loan book growth and a challenging macroeconomic environment
- Personal loans largely drove the improvement, with write-offs falling in absolute terms on a book up 52%, as higher scored originations replaced older vintages
- Enhanced underwriting and collections reduced 30+ and 90+ day arrears to multi year lows
- ECL coverage reduced to 3.5% on stronger credit performance, despite increasing the macroeconomic overlay

Capital structure in place for long term growth ambitions

FY26 funding highlights include:

- Completed three ABS transactions, total program of ~\$1.02bn
- Planned warehouse extensions executed successfully with improved terms
- New \$300m credit card warehouse executed on materially better terms than prior card facility, set up to scale with white-label card programs

Cost of funds

Total funding capacity

FY26 funding mix across 12 structures

Liquidity

Growing cash generation from a self-funding platform:

- The growth to \$20m unrestricted cash reflects the compounding benefit of a larger, higher quality book flowing through to stronger cash income generation, with efficient term securitisation deals also releasing cash back to the corporate balance sheet.
- Growth achieved despite increased investments in sales and marketing, as well as the development of our new credit card and white-label product.
- \$0.9bn in undrawn facilities provides substantial headroom to fund continued loan book growth without equity dilution.
- Corporate facility headroom of \$50m undrawn¹.
- Cash generation is expected to continue strengthening as the book grows, funding costs improve and operating leverage increases.

Strategy & outlook

FY27 strategy and key areas of focus

MONEYME enters FY27 with greater scale, stronger credit quality and a more efficient operating platform

Technology leadership

- Scale AI across every customer and operational workflow
- Increase automation to expand operating leverage
- Continue improving customer experience and credit decisioning

Portfolio quality

- Continue disciplined growth while maintaining industry-leading credit performance
- Optimise product mix to maximise risk-adjusted returns
- Expand higher-quality personal loans and credit card portfolios

Funding strength

- Further reduce funding costs through scale and programmatic issuance
- Expand domestic and offshore funding relationships
- Support continued loan book growth with diversified capital sources

Product innovation and expansion

- Increase customer lifetime value through broader product adoption
- Scale direct distribution and white-label partnerships
- Improve unit economics through brand, marketing and product expansion

Trusted brand

- Maintain strong governance and responsible lending
- Continue strengthening customer trust and B Corp leadership
- Enhance long-term value for customers, employees, investors and partners

Investment in credit card programs is expected to contribute to returns as scale builds over time

P&L profile of investment into card programs

Normalised NPAT profile (Invested plan vs. No-investment)

Strategic investment in the Cashback Rewards and white-label card programs in FY27 expected to impact normalised NPAT as we build up interest-bearing balances.

- FY27 Build** Invest in customer acquisition, technology and partner programs to establish scale
- FY28 Scale** Interest-bearing balances grow and revenue begins to outpace acquisition costs.
- FY29 Payoff** With higher card margins, the portfolio becomes a meaningful contributor to earnings

Scale is driving increasing operating leverage

Average loan portfolio size vs. Normalised NPAT

FY26: Business model validated

- Positive 2H26 Normalised NPAT
- \$2.08bn closing loan book
- Stronger credit quality

FY27: Investment continues

- Scaling operating leverage
- Cashback Rewards credit card
- White-label
- Direct channels
- AI – direct customer interactions, real time credit decisioning and automating business processes

Beyond FY27: Operating leverage accelerates

- Higher unit economics
- Stronger RNIM
- Lower acquisition costs
- Increasing earnings

Medium-term outlook updated to reflect current business momentum

Measure definitions

Note	Measure	Definition
1	Operating cash profit / (loss) (\$m)	Operating cash profit / (loss) is a management model, unaudited and represents the net impact of the cash inflows and outflows resulting from MONEYME's core business activities. This does not include cash movements related to the principal repayments received or funding of loan originations
2	Cost of funds (%)	Cost of funds, excluding corporate debt interest costs, as a % of average loan portfolio (annualised).
3	Net interest margin (NIM) (%)	Gross revenue less trust facility interest expense less transaction costs, as a % of average loan portfolio (annualised).
4	Risk-adjusted net interest margin (RNIM) (%)	NIM less trust undrawn fees, net losses and corporate debt interest costs, as a % of average loan portfolio (annualised).
5	Operating costs to income (%)	Sales & marketing, product design & development, and general & administrative expenses as a % of gross revenue in the period (annualised).
6	Loan originations (\$m)	Net amount financed in the period, being the sum of principal funded and upfront fees.
7	Closing loan book (\$m)	Gross outstanding balance of all loans on balance sheet, removing the impact of capitalised deferred income
8	Net credit losses (%)	Principal write offs in the period (net of recoveries, including proceeds from debt sales to collection agencies) as a % of average principal receivables. This is a cash loss metric and does not include losses related to accounting accruals or effective interest rates.
9	Provisioning to receivables (%)	Accounting provision closing balance as a % of gross loan receivables.
10	Normalised NPAT (\$m)	Calculated by adjusting statutory profit for non-cash depreciation & amortisation, expected credit loss provision movements, non-cash employee incentives and significant infrequent items. This provides a clearer understanding of the Company's underlying operating performance.
11	Loan portfolio	The loan portfolio represents the interest-bearing balance and excludes deferred acquisition costs, accrued interest and charges.

Important notices & disclaimers

The information contained in this presentation has been prepared by MONEYPE Limited (MONEYPE or Company).

Summary information

This presentation contains general background information about MONEYPE and its subsidiaries and their activities and is current at the date of this presentation. The information is given in summary form and includes financial and other information and does not purport to be complete or to provide all information that an investor should consider when making an investment decision, nor does it contain all the information which would be required in a disclosure document or prospectus prepared in accordance with the requirements of the Corporations Act. It has been prepared by MONEYPE with due care but no representation or warranty, express or implied, is provided in relation to the accuracy or completeness of the information. Statements in this presentation are made only as of the date of this presentation unless otherwise stated and the information in this presentation remains subject to change without notice. MONEYPE is not responsible for updating, nor undertakes to update, this presentation. It should be read in conjunction with MONEYPE's other periodic and continuous disclosure announcements lodged with the Australian Securities Exchange ("ASX"), which are available at www.asx.com.au.

Certain market and industry data used in connection with this presentation may have been obtained from research, surveys or studies conducted by third parties, including industry or general publications. Neither MONEYPE nor its representatives have independently verified any such market or industry data provided by third parties or industry or general publications.

Forward looking statements and risks

This presentation may contain statements that may be deemed "forward looking statements", that is, statements regarding the Company's intent, belief or current expectations with respect to the Company's business and operations, market conditions, results of operations and financial conditions. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, these statements are not guarantees or predictions of future performance, and involve both known and unknown risks, uncertainties and other factors, many of which are beyond the Company's control. Forward looking statements can generally be identified by the use of words such as 'expect', 'anticipate', 'likely', 'intend', 'should', 'could', 'may', 'predict', 'plan', 'propose', 'will', 'believe', 'forecast', 'estimate', 'target', 'outlook', 'guidance', 'potential' and other similar expressions within the meaning of securities laws of applicable jurisdictions and include, but are not limited to, the future performance and financial position of MONEYPE. Indications of, and guidance on, future earnings and financial position and performance are also forward looking statements.

The forward looking statements contained in this presentation are not indications, guarantees or predictions of future performance and involve known and unknown risks and uncertainties and other factors, many of which are beyond the control of MONEYPE, its directors and management, and may involve significant elements of subjective judgment and assumptions as to future events which may or may not be correct. You are strongly cautioned not to place undue reliance on forward looking statements, particularly in light of the current economic climate. Any such statements, opinions and estimates in this presentation speak only as of the date hereof and are based on assumptions and contingencies subject to change without notice, as are statements about the market and industry trends, projections, guidance and estimates. Forward looking statements are provided as a general guide only.

Forward looking statements may assume the success of MONEYPE's business strategies. The success of any of these strategies is subject to uncertainties and contingencies beyond MONEYPE's control, and no assurance can be given that any of these strategies will be effective or that the anticipated benefits from the strategies will be realised in the period for which the forward looking statement may have been prepared or otherwise. Several important factors could cause actual results or performance to differ materially from the forward looking statements, including (without limitation) the Australian and global economic environment and market conditions.

Further, other risks and uncertainties not presently known to management or that management currently believe not to be material may also affect MONEYPE's business. There can be no assurance that actual outcomes will not differ materially from these forward looking statements. Such risks and uncertainties include, but are not limited to the acquisition and retention of customers, commercialisation, technology, third party service provider reliance, competition and development timeframes and product distribution.

Usability of MONEYPE's products depends upon various factors outside the control of the Company including, but not limited to device operating systems, mobile device design and operation and platform provider standards, reliance on access to internet, acquisition and retention of customers, reliance on key personnel, maintenance of key business partner relationships, reliance on new products, management of growth, brand establishment

and maintenance. A number of the Company's products and possible future products contain or will contain open source software, and the company may license some of its software through open source projects, which may pose particular risks to its proprietary software and products in a manner that could have a negative effect on its business. The Company's intellectual property rights are valuable, and any inability to protect them could reduce the value of its products and brand.

The Company's products may contain programming errors, which could harm its brand and operating results. The Company relies on third party providers and internet search engines (amongst other facilities) to direct customers to MONEYPE's products. Other risks may be present such as competition, changes in technology, security breaches, insurance, additional requirements for capital, potential acquisitions, platform disruption, ability to raise sufficient funds to meet the needs of the Company in the future, reliance on key personnel, as well as political and operational risks, and governmental regulation and judicial outcomes.

No representation or warranty, express or implied, is made as to the fairness, accuracy, correctness, completeness, adequacy, likelihood of achievement or reasonableness of any forecasts, prospects, returns or statements in relation to future matters contained in this presentation. To the maximum extent permitted by law, MONEYPE and its affiliates and related bodies corporate (as defined in the Corporations Act) and each of their respective Directors, employees, officers, representatives, agents, partners, consultants, advisers and intermediaries disclaim any responsibility for the fairness, accuracy, correctness, completeness or adequacy of any forward looking statements whether as a result of new information, future events or results or otherwise. MONEYPE disclaims any responsibility, obligations or undertakings to release any updates or revisions to the information to reflect any changes in expectations or assumptions, to the maximum extent permitted by law. Except as required by law or regulation (including the ASX Listing Rules), MONEYPE undertakes no obligation to provide any additional or updated information, whether as a result of new information, future events or results or otherwise.

Not an offer

This presentation is for information purposes only, and is not an offer for subscription, invitation or sale with respect to any securities in any jurisdiction and is not a prospectus, product disclosure statement or other offering document under Australian law or any other law. Nothing in this presentation shall form the basis of any contract or commitment, or constitute investment, financial product, legal, accounting or tax advice or any recommendation.

Effect of rounding

A number of figures, percentages, estimates, calculations of value and fractions in this presentation (including in charts, graphs or tables) are subject to the effect of rounding. Accordingly, the actual calculation of these figures may differ from the figures set out in this presentation.

Past performance

Past performance of MONEYPE is given for illustrative purposes only and cannot be relied upon as an indicator of (and provides no guidance as to) future MONEYPE performance, including future share price performance.

The historical information in this presentation is, or is based upon, information contained in previous announcements made by MONEYPE to the market. These announcements are available at www.asx.com.au.
