SEGMENTAL REVENUE

Represents 60% of Group revenue from standing start in 2019

Revenue boosted by acquisitions and organic growth

Gross profit margin declined due to lower margin contributions from the Brand Australia business, as well as lower margins generated from the top five national labour contracts.

These contracts accounted for 43% of the division's total revenue in FY26, compared to 31% in FY25.

CURRENT INDUSTRIAL PROJECTS

Snowy Hydro 2.0

- Major industrial access/scaffolding package supporting the Snowy Hydro 2.0 project
- \$60m contract value — approximately 50% complete
- Dedicated Cooma operation supporting a significant site workforce and ongoing delivery
- Further opportunities identified across the project, including Trifactor (\$10m) and Surge Shaft Elbow
- FY26 total revenue - \$15.8m

BMA Bowen Basin & Hay Point

- Major long-term industrial access and scaffolding services contract
- Supporting BMA operations across Bowen Basin mine sites and Hay Point
- Significant recurring maintenance, shutdown and project-based scaffolding requirements
- Demonstrates Acrow's growing position in large-scale resources and sustaining capital works
- FY26 total revenue- \$18.7m
 - Labour and product hire - \$16.7m

Perdaman Urea Plant

- Industrial access services supporting construction of the Perdaman Urea Project in Karratha, WA
- \$42m contract value — approximately 65% complete
- Large-scale workforce and scaffold mobilisation supporting sustained project delivery
- One of Acrow's largest current industrial access projects
- FY26 total revenue - \$28.0m

Ampol | Kent

- Industrial access/scaffolding services supporting Ampol refinery works
- \$15m contract value — approximately 80% complete
- Strong example of Acrow's capability in complex, live energy and process environments
- FY26 total revenue - \$11.7m

Glencore

- Engineered access supporting plant roof replacement within a fully operational coal processing facility
- Bespoke suspended QuickDeck platform avoided loading the severely corroded existing roof structure
- Design, engineering, supply, installation, inspection, modification and dismantling delivered by Acrow
- Works completed while maintaining plant operations and coordinating gantry cranes, shutdowns and multiple contractors
- FY26 total revenue - \$7.7m

Sydney Harbour Bridge

- Current works include the eastern chord, N18-N20 road-deck works, transverse walkway and northern approach rehabilitation
- Current SHB projects total approximately \$11.4m and are 60% complete
- Complex temporary access delivered around live road, rail and marine operations on one of Australia's most critical heritage assets
- FY26 total revenue - \$7.5m

TARONG POWER STATION

- Acrow delivered a \$7.9m principal contractor package during a critical cooling tower outage
- Installed 280 tonnes of engineered scaffold infrastructure and 230 structural beams (84 tonnes)
- Mobilised a peak workforce of 98 personnel across 14 trade groups, delivering approximately 37,700 man-hours
- Major cooling tower refurbishment works completed within a tightly controlled outage program, with extensive inspection, removal and reinstatement works undertaken
- Strong project performance has strengthened the client relationship and led to additional works being secured

* Refers to percentage point change on PCP

- Underlying profit down 20% due predominantly to temporary decline in Queensland construction market, higher depreciation and interest
- Final dividend of 1.42 cps (100% franked). Full year dividend of 3.42cps (100% franked)
- EBITDA flat due to impact of Queensland, offset by higher contribution from Industrial Access
- Depreciation higher due to elevated capex. (Avg PPE \$226.0m compared to PCP \$188.7m)
- Interest expense higher on increased average debt (\$144.7m vs \$95.0m) and lease liability (\$41.8m vs \$36.5m)
- Tax expense effective statutory 38% (versus 33%), impacted by capital non-deductible contingent consideration (earn-outs), amortisation of intangibles and integration costs as well as share-based payments
- Significant items amortisation of intangibles, contingent consideration (earnout), share-based payments, operational integration costs and certain ERP project costs
- EPS underlying down 21% due to 1% increase in weighted average shares

Net debt / (net debt + equity)	41.7%	45.2%	-3.5%	35.6%
Net debt/EBITDA*	1.9	1.8	10.0%	1.6

*EBITDA is calculated on a pre-AASB16 basis

- Net debt up \$9.8m to \$133.0m – predominantly capex, earn-outs and expansion of labour payments in industrial access, offset by \$31.3m net proceeds from Tranche 1 of capital raise
- Net debt to EBITDA increased from 1.8x at June 2025 to 1.9x at 30 June 2026
- Total assets up \$76.7m from capex, large invoicing in May and June, including Industrial Access labour prepayments and \$31.3m net proceeds from capital raise
- Working capital/sales 26.5% versus 26.7% PCP. Impacted by large May/June invoicing. Current Assets \$59.8m (\$28.7m pre capital raise) vs \$6.8m pcp
- Cash flow from operations (including ex-hire sales) \$57.7m – 72% conversion rate (vs \$57.6m and 71% conversion rate)

FY26 Proforma

- Assumes additional net proceeds of \$51.2m received from Tranche 2 and SPP, less acquisition costs of \$47.8m for SuperDeck and AGIS
- Net debt /EBITDA of 1.6x includes consolidated FY26 EBITDA contribution of \$13.0m from acquisitions

NET DEBT BRIDGE

- Net debt increased by \$9.8m during the year to \$133.0m, reflecting deliberate capital allocation into growth initiatives
- EBITDA generated approximately \$80.3m of cash benefit during FY26
- The majority of cash outflows reflected growth initiatives totalling \$42.1m including earn-outs and deferrals – \$6.4m (MI + Above), Other significant Items – \$4.6m (integrations and improvements) and growth capex
- Growth capex of \$31.1m was primarily directed towards, Jumpforms, Screens and industrial access equipment
- Working capital investment increased net debt by approximately \$20.3m, reflecting growth in activity levels and Industrial Access labour requirements
- Dividends of \$14.1m were maintained while continuing to invest in the business
- The \$31.3m net capital raising proceeds largely funded the settlement of Preston's in early July 2026

FY26 CAPEX SPEND (\$m)

- ❖ Growth capex of \$31.1m and non-growth capex of \$5.4m
- ❖ FY26 capex was directed towards strategic and profitable growth areas including industrial access and specialised systems.
- ❖ Jumpform and Screens investment to support substantial secured contract wins
- ❖ Industrial Access spend was for organic growth opportunities in SA, NSW and North Qld. This was predominantly for our proprietary Uni-Ring system
- ❖ FY27 capex budget - \$30.0m (excluding ex-hire replacement)

GROWTH OPPORTUNITIES

Steven Boland, MD & CEO

ACQUISITION - SUPERDECK®

- SuperDeck® is recognised as the market leader for retractable loading platforms in Australia. This includes:
 - Specialists in retractable loading platforms
 - Offering a developed and proprietary product line, refined and perfected since 2001
 - National market coverage, enabling flexible solutions, with the ability to mobilise quickly and efficiently
- Market-leading product, with 30+ years of experience, 70%+ market share, with ~900 decks which have an average lifespan of 25 years
- Longstanding relationships with a diversified customer base, with no single client exceeding 11% of revenue
- The business operates across a highly diversified range of end markets, including building & construction, commercial & industrial, infrastructure, civil, rail, mining, and residential sectors
- The business is expected to generate \$11.0m revenue and \$6.3m EBITDA in FY26
- Revenue and cost synergies are expected to be circa \$1.25m over the next 12 months, driven by the strength of the forward order book when combined with the Acrow customer base, as well as depot consolidation

ACQUISITION – AUSGROUP INDUSTRIAL SERVICES

- ❖ Ausgroup Industrial Services (“AGIS”) is a family owned, Queensland-based integrated industrial services provider supporting mining, ports, energy, mills and the heavy industry
- ❖ AGIS focuses on solutions-based contracting, safety, productivity and innovation, particularly during shutdowns and complex access environments
- ❖ Complementary blue-chip client base including Peabody, Glencore, Anglo American, BHP & BMA. Key contracts include – Anglo American (3 sites) and Dalrymple Bay Coal Terminal (since 2006)
- ❖ The business is expected to generate \$40.0m revenue and \$6.5m EBITDA in FY26
- ❖ Synergies are expected to be circa. \$1.25m over the next 12 months, providing an annualised uplift of \$1.75m, primarily driven by expected returns on the new capital expenditure purchased as part of this transaction and depot consolidation
- ❖ Acquisition cleared by ACCC on 11 August 2026. Settlement anticipated around 31 August 2026

PRODUCT DEVELOPMENT

POWERSHORE 60

- Launched in Feb 2026
- Double the load capacity compared to equivalent size competing products and only 20% heavier
- Acrow internally developed and own all IP
- Successfully commercialised with projects now underway nationally in all states
- Supports Acrow's strategy to expand engineering-led temporary works capability in the propping space

UNI-RING

- National rollout continuing across Industrial Access and Construction Services
- Now deployed throughout QLD, NSW, WA, SA and VIC
- Fully compatible with existing ringlock systems
- Multiple product sales now across, QLD, NSW and VIC
- Rapid scalability through Acrow-owned IP and multiple manufacturing partners
- Supporting growth primarily in our Industrial Access business, with opportunities across the infrastructure and civil segments

PRODUCT DEVELOPMENT

GROUND SHORING

- New high-capacity ground shoring system targeted for launch in 1H FY27
- Purpose-developed for the Australian market with market-leading strength-to-weight performance
- Positions Acrow to expand into the heavy-duty ground shoring market, where competition is currently limited

PROPPING

- Extensive fleet compatibility with Acrow's formwork systems, supporting projects across commercial, industrial and civil markets
- Capable of providing standalone propping solutions beyond traditional formwork packages
- Strong pipeline across infrastructure, transport and industrial projects, supported by continued investment in next-generation shoring solutions

BESPOKE FORMWORK

- Expanding capability to deliver bespoke engineered solutions where proprietary systems are not suitable
- End-to-end offering from design through to supply and site support, providing customers with a single point of contact
- Successfully delivered multiple complex projects incorporating mechanisation and purpose-designed drive systems

BUILDING SUSTAINABLE EARNINGS

Expanded Industrial Access to deliver recurring revenue business

Revenue of \$201m represented 60% of group revenue in FY26

Industrial Access Acquisitions:

- MI Scaffold (Nov-23)
- Benchmark Scaffolding (Mar-24)
- Brand Australia (Apr-25)
- Above Scaffolding (Apr-25)
- Ausgroup (Aug-26)

National business providing access services across industrial, mining, energy, utilities, defence & marine

Longstanding blue-chip customers, including gov't generating highly recurring maintenance services revenue

Secured revenue for FY27 – circa. \$180m. Total revenue forecast to be circa. \$280m

Industrial Access Revenue

INDUSTRIAL ACCESS

Building a larger national industrial services platform

- Acquisition of AGIS significantly expands Acrow's industrial access footprint in Queensland's resource sector
- Focus on growing WA market organically off the back of the Perdaman contract
- Continued growth expected across existing maintenance, shutdown and sustaining capital contracts
- Above Scaffolding creating new opportunities across major infrastructure, transport and civil projects
- Increased cross-selling of engineering, temporary works, scaffolding, formwork and propping solutions across the Group
- Continued expansion into Defence, energy and critical infrastructure sectors
- Uni-Ring industrial scaffold system now nationally deployed, improving scalability, productivity and margins

INDUSTRIAL ACCESS – REGIONAL

Central & North QLD

- Strong pipeline across Bowen Basin, Mackay, Gladstone and Hay Point
- Long-term maintenance and shutdown opportunities across:
 - Mining
 - Ports
 - LNG
 - Power generation
 - Processing facilities
- AGIS acquisition strengthens Acrow's regional presence and customer base
- Existing industrial access customers creating opportunities for:
 - Formwork
 - Propping
 - Temporary Works Engineering
 - Equipment Hire
- Continued investment in regional capability, people and equipment

SYDNEY HARBOUR BRIDGE

Project highlights

- 13+ years delivering engineered access solutions on the Sydney Harbour Bridge
- Five consecutive Transport for NSW contracts delivered since 2013, valued at more than \$22 million
- Peak deployment of:
 - 500 tonnes of scaffold and access equipment
 - 35 scaffold personnel
 - 15 support staff
 - 10 site supervisors
- Maintaining safe bridge operations while supporting critical maintenance across live road, rail, pedestrian and heritage environments

Future opportunities

- EOI submitted July 2026 for all future access services to enable bridge maintenance in the lead up to the 2032 Centenary of the opening of the bridge
- Approx. \$400m-\$600m worth of packages to be awarded.
- Above/Acrow is a proven partner and service provider to Transport for NSW in relation to Sydney Harbour Bridge access and has the capability to tender and deliver the services required across all packages

CONSTRUCTION

Scaffold, formwork, propping & shoring, jumpform & screens

- Strong national pipeline across commercial, residential and civil infrastructure
- Continued growth in major transport, health, education and data centre developments
- Increasing demand for engineered temporary works solutions
- Cross-selling driving greater utilisation of:
 - Jumpform
 - Screens
 - Formwork
 - Propping
 - Scaffold
- National engineering capability providing a competitive advantage
- Well positioned for major infrastructure investment over the next decade

SNOWY HYDRO ADDITIONAL OPPORTUNITIES

\$60M CURRENT

Project update

- Major industrial access and scaffolding package supporting Snowy 2.0
- Dedicated Cooma operation supporting ongoing project delivery
- Large site workforce delivering in a complex underground infrastructure environment
- Strong progress across the current contracted scope
- Acrow positioned for further packages as the project advances

Future opportunity

- Upwards of \$50m of specialised formwork packages currently under live tender
- Strong delivery performance positions Acrow to capture further specialised access and temporary works packages across Snowy 2.0.

NATIONAL CIVIL INFRASTRUCTURE

Diversified pipeline across Australia's largest infrastructure projects

Continued investment in major transport, road, rail, water and energy infrastructure nationally

Growing demand for integrated temporary works rather than standalone hire products

Cross-selling opportunities across: Formwork, Scaffold, Propping & Shoring, Jumpform, Perimeter Screens, Engineering & Design

National engineering capability enables Acrow to compete for increasingly complex infrastructure packages

SPECIALISED SERVICES – CROSS SELLING

Driving Cross-Selling Across the Acrow Group

Integrated Temporary Works Solutions

- Increasing customer demand for single-source temporary works solutions
- Cross-selling opportunities expanding across industrial access, construction and civil infrastructure
- National engineering capability enabling integrated project delivery from concept through to installation

Expanding Product Capability

Jumpform & Perimeter Screens

- Continued growth on major high-rise residential and commercial developments
- Increasing opportunities on major civil infrastructure projects

Propping & Shoring

- Powershore 60 expanding Acrow's capability in heavy-duty temporary works
- Growing demand for engineered propping solutions independent of traditional formwork packages
