DETAILS OF DISTRIBUTION REINVESTMENT PLAN

The Responsible Entity established a distribution reinvestment plan (DRP) in January 2025 which became available to unitholders of the Fund on commencement of trading on the ASX on 5 March 2025. An eligible unit holder may elect into the DRP by completing an election notice and sending it to the registry. An eligible unit holder may elect to partially or fully participate in the DRP, and is recorded on the register once the Responsible Entity has accepted the election.

Units are allocated under the DRP at the Allocation Price, which is the NAV per Unit, less the Discount (if any) determined by the Responsible Entity from time to time, rounded in the manner determined by the Responsible Entity. The determination by the Responsible Entity of the Allocation Price is binding on all Participants. A Discount (if any) may be different from one Distribution to the next, and either may be determined or varied by announcement on the Fund's website and to ASX at any time.

Details on the DRP may be found at <https://mafinancial.com/invest/private-credit/ma-credit-income-trust/drp-rules.pdf> and at <https://mafinancial.com/invest/private-credit/ma-credit-income-trust/drp-booklet.pdf>.

CAPITAL RAISING

During the year, the Responsible Entity successfully completed a capital raise undertaken by way of an Entitlement Offer and Shortfall Offer. The offer was fully subscribed and achieved its maximum potential raise of \$190.5 million. 95,270,647 new units were issued at an offer price of \$2.00 per new fully paid ordinary unit.

On 1 October 2025, 26,572,196 new units were issued to existing eligible unitholders under the Entitlement Offer (including via subscriptions accepted under the oversubscription facility in relation to the Entitlement Offer).

On 3 October 2025, 68,698,451 new units were issued under the Shortfall Offer.

The funds raised from the Entitlement Offer and Shortfall Offer were invested in accordance with the investment strategy managed by MA Investment Management Pty Ltd (ACN 621 552 896).

Directors' report

The directors of Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975), in its capacity as the Responsible Entity of the MA Credit Income Trust (the "Fund") present their report together with the financial statements of the Fund, for the year ended 30 June 2026 and the auditor's report thereon.

The Fund

The Fund is an Australian registered managed investment scheme which was listed on the Australian Securities Exchange (ASX) and commenced quotation under the ticker MA1 from 5 March 2025. All references to the Fund hereafter are taken to mean the Fund as a whole, which is the MA Credit Income Trust.

Principal activities

The Fund's objective is to provide investors with consistent monthly distributions, targeting a return of RBA Cash Rate + 4.25% p.a. over a rolling 12-month period (pre-tax, net of management fees and costs). The Fund aims for a return focused on capital preservation via exposure to a diversified portfolio of ANZ and global credit investments.

The Fund aims to achieve its investment objective through investing in private credit investments across three core market segments comprising direct asset lending, asset backed lending and direct corporate lending, through curated exposure to MA Financial's flagship credit strategies. The Fund provides access to a differentiated portfolio of proprietary credit assets originated by MA Financial's specialist private credit teams. This is achieved through the Fund's investment in the MA Credit Income Fund (Wholesale) (Underlying Fund) and through investments in direct credit assets in accordance with the Product Disclosure Statement and the provisions of the Fund's Constitution.

The Fund did not have any employees during the year.

There were no significant changes in the nature of the Fund's activities during the year.

Significant changes in state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Fund that occurred during the financial year.

Likely developments and expected results of operations

The Fund will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Fund and in accordance with the provisions of the Constitution.

The results of the Fund's operations will be affected by a number of factors, including the performance of investment markets in which the Fund invests. Investment performance is not guaranteed, and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

As markets are subject to fluctuations, it is imprudent to provide a detailed outlook on statement of expected results of operations. The Fund provides monthly fund updates and annual investor reports, which are disclosed on the ASX website. The Fund's updates include detailed discussions in relation to some underlying investments from time to time.

The Fund's investment activities will expose it to a variety of risks, which are disclosed in the Fund's Product Disclosure Statement and disclosed on the ASX website.

Directors' report (continued)

Matters subsequent to the end of the financial year

Subsequent to the reporting date, on 25 August 2026, the Responsible Entity announced that the trustee of the MA Secured Loan Series ("MA SLS") announced the introduction of a temporary redemption limit of up to 1% of MA SLS funds under management per month. The arrangement is expected to remain in place for at least three months and is subject to ongoing review, with the trustee of MA SLS retaining the ability to vary, extend or withdraw the arrangement having regard to prevailing circumstances. The Fund is indirectly exposed to MA SLS through its investment in MA Credit Income Fund (Wholesale) ("the Underlying Fund"). As at 30 June 2026, the Fund's investment in the Underlying Fund had a fair value of \$559.2 million.

The Responsible Entity has assessed the impact of the temporary redemption limit and does not consider the event to have an impact on the carrying value of the Fund's investment in the Underlying Fund.

Other than the matter described above, no other event has occurred subsequent to the reporting date that has materially affected, or may materially affect, the Fund's financial position or results.

Indemnification and insurance of officers

No insurance premiums are paid out of the assets of the Fund in regard to insurance cover provided to the officers of the Responsible Entity. So long as the officers of the Responsible Entity act in accordance with the Fund's Constitution and the Law, the officers remain indemnified out of the assets of the Fund against losses incurred while acting on behalf of the Fund.

Indemnification of auditor

The auditor of the Fund is in no way indemnified out of the assets of the Fund.

Fees paid to and interests held in the Fund by the Responsible Entity and its associates

Fees paid to the Responsible Entity and its associates out of Fund property during the year are disclosed in note 18 to the financial statements.

No fees were paid out of Fund property to the directors of the Responsible Entity during the year.

The number of interests in the Fund held by the Responsible Entity or its associates as at the end of the year are disclosed in note 18 to the financial statements.

Interests in the Fund

The movement in units on issue in the Fund during the year is disclosed in note 9 to the financial statements.

The value of the Fund's assets and liabilities is disclosed in the statement of financial position and derived using the basis set out in note 2 to the financial statements.

Environmental regulation

The operations of the Fund are not subject to any particular or significant environmental regulations under Commonwealth, State or Territory law.

Investment Manager's report

Fund Overview

The MA Credit Income Trust (ASX:MA1) (the "Fund") provides investors with access to a diversified portfolio of private credit investments through MA Financial's flagship credit strategies. The Fund seeks to generate attractive risk-adjusted returns, with a focus on capital preservation and monthly income, by investing across three core credit segments: asset backed lending, direct asset lending and direct corporate lending.

At 30 June 2026, the Fund's net asset value was approximately \$559 million, up from \$331 million at 30 June 2025. The increased scale of the Fund supports broader portfolio diversification, access to a growing range of credit opportunities and improved trading liquidity for investors on the ASX.

The Fund and its underlying portfolio exposures are managed by MA Financial's dedicated credit investment team and reflect a disciplined, credit-first approach focused on secured lending, granular exposure and active portfolio risk management. At 30 June 2026, approximately 97% of the underlying portfolio ranked senior secured or structured secured, supporting the Fund's focus on downside protection and resilient income generation.

Fund Performance and Portfolio

For the year ended 30 June 2026, the Fund delivered a net return of 8.56%, exceeding its target return of 8.36%. Since inception, the Fund has delivered an annualised net return of 8.69%, compared with its annualised target return of 8.43%. The Fund continued to provide monthly income, with distributions of 8.63% for the year.

At 30 June 2026, the Fund's investment in the Underlying Fund provided exposure to approximately \$7.5 billion in private credit assets, diversified across:

- 237 individual credit investments
- 160 sponsors
- 43 credit sub-segments

Credit exposures remain weighted toward higher-quality credit, with approximately 88% of assets rated BB-equivalent or above. The portfolio remains well secured, with approximately 97% of investments ranking senior secured or structured secured. The portfolio had an average position size of approximately 0.4% and a median position size of approximately 0.2% of total assets, supporting strong diversification and prudent risk management.

During the year ended 30 June 2026, more than \$2.7 billion of loans were funded across the Underlying Funds. Investment activity was strongest in asset backed lending, including new and incremental funding across private warehouses, wholesale facilities and a broad range of consumer, commercial and real estate-backed credit exposures. Direct asset lending activity remained selective and was focused predominantly on Australian metropolitan real estate investment and development loans. In direct corporate lending, activity comprised new lending, refinancings and additional drawdowns across existing facilities. Deployment remained diversified by sector and counterparty and was guided by disciplined underwriting, collateral coverage and appropriate security protections.

Investment Manager's report (continued)

Market Conditions and Outlook

Private credit market conditions remained constructive during the period, although the opportunity set became increasingly selective. Borrower demand continued to be supported by the ability of private lenders to provide certainty, flexibility and bespoke financing solutions, particularly in sectors where public or syndicated markets were less reliable. While credit spreads remained relatively tight compared with historical levels, demand for income-generating assets and tighter bank lending conditions continued to support transaction activity.

In Australia, economic growth moderated through the year while the labour market remained relatively resilient. Inflation remained above the RBA's target range, resulting in a higher and more restrictive interest rate environment. These conditions continue to support income generation from the Fund's predominantly floating-rate credit exposures, while also increasing pressure on some consumer and corporate borrowers.

Global conditions were similarly characterised by moderating growth, restrictive monetary policy and ongoing geopolitical uncertainty. The Manager continues to monitor the impact of higher funding costs, weaker demand and potential pressure on asset values as part of its underwriting, stress testing and portfolio construction processes.

Against this backdrop, the Manager remains focused on building a portfolio capable of performing across a range of market conditions. Portfolio construction continues to be guided by disciplined underwriting, secured structures, collateral coverage and rigorous investment selection, with an ongoing emphasis on capital preservation and downside protection.

Investment Manager Overview

Established in 2009, MA Financial is a leading ASX-listed alternative asset manager with over \$15 billion in assets under management, including more than \$7.5 billion in private credit.

The Fund is managed by MA Financial's experienced Global Credit Solutions team, comprising over 40 dedicated credit professionals based in Australia and the United States. The team brings diverse backgrounds, specialist expertise and a proven track record in credit underwriting and portfolio management.

Investors in the Fund gain access to MA Financial's proprietary origination channels and long-standing borrower relationships. The Manager's scale and deep reach across the lending ecosystem enable the Fund to access a broad and growing opportunity set.

In addition, MA Financial's credit platform draws on in-house restructuring and workout expertise. The firm's Corporate Advisory division is a leading special situations advisor in Australia, and through its strategic alliance with Moelis & Company, benefits from global experience in complex restructurings. This deep insight into downside scenarios informs a disciplined investment process, with strong focus on structuring and capital preservation.

Importantly, the Manager and its staff remain strongly aligned with unitholders, with over \$240 million co-invested across MA Financial credit funds as at 31 March 2026, including more than \$200 million in the Underlying MA Financial Credit Funds.

Corporate Governance Statement

Equity Trustees Limited (ABN 46 004 031 298, AFSL 240975) in its capacity as a responsible entity ("Responsible Entity") of the MA Credit Income Trust (the "Fund"), has established a corporate governance framework which sets out the rules, relationships, systems and processes within which the Responsible Entity operates to promote investor confidence and good corporate governance.

In accordance with ASX Listing Rules 4.10.3 and 4.7.4, the Corporate Governance Statement will be available on the Investment Manager's website: <https://mafinancial.com/about/shareholders/corporate-governance/charters-constitutions/corporate-government-statement>.

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of MA Credit Income Trust

I declare that, to the best of my knowledge and belief, in relation to the audit of the financial report of MA Credit Income Trust for the financial year ended 30 June 2026 there have been:

1 Corporate information

MA Credit Income Trust (the "Fund") (ARSN 681 002 531) is an Australian registered managed investment scheme which was constituted on 24 September 2024, registered with the Australian Securities and Investments Commission on 4 October 2024, commenced operations on 28 February 2025 and will terminate in accordance with the provisions of the Fund's Constitution or by Law. The Fund was listed on the Australian Securities Exchange (ASX) on 5 March 2025 and is quoted under ticker code: MA1.

The Responsible Entity of the Fund is Equity Trustees Limited (ABN 46 004 031 298) (AFSL 240975) (the "Responsible Entity"). The Responsible Entity's registered office is Level 22, 530 Collins Street, Melbourne VIC 3000. The financial statements are presented in the Australian currency unless otherwise noted. The Investment Manager of the Fund is MA Investment Management Pty Ltd (the "Investment Manager").

A description of the nature of the Fund's operations and its principal activities is included in the Directors' Report which is not part of these financial statements.

The financial statements were authorised for issue by the Responsible Entity of the Fund on 27 August 2026. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Accounting Standards Board (AASB) and the *Corporations Act 2001* in Australia. The Fund is a for-profit unit trust for the purpose of preparing the financial statements.

Australian Accounting Standards set out accounting policies that the Australian Accounting Standards Board has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Material accounting policies adopted in the preparation of the financial statements are presented below and have been consistently applied unless stated otherwise.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities, except where otherwise stated.

The statement of financial position is presented on a liquidity basis. Assets and liabilities are presented in decreasing order of liquidity and do not distinguish between current and non-current. All balances are expected to be recovered or settled within 12 months, except for net assets attributable to unitholders.

The Fund manages financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unitholders, the units are not redeemable on demand at the unitholders' option. Holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

The functional currency of the Fund is measured using the currency of the primary economic environment in which the entity operates. The financial statements are presented in Australian dollars which is the entity's functional and presentation currency and is rounded to the nearest thousand dollar.

Going concern

The financial statements for the year ended 30 June 2026 have been prepared on a Going Concern basis, which assumes continuity in the ordinary course of business for the next 12 months.

Rounding of amounts

In accordance with *Australian Securities and Investments Commission Corporations (Rounding in Financial/Directors' Reports) Instrument 2026/183*, amounts in the Directors' report and the financial report have been rounded to the nearest thousand Australian dollars, unless otherwise indicated.

Notes to the financial statements

For the year ended 30 June 2026

3 Impact of new accounting standards

i Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Fund also comply with IFRS as issued by the International Accounting Standards Board (IASB).

ii New and amended standards adopted by the Fund

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2025 that have a material impact on the amounts recognised in prior periods or will affect the current or future periods.

iii. New standards and interpretations not yet adopted

AASB 18 *Presentation and Disclosure in Financial Statements*

AASB 18 was issued in June 2024 and replaces AASB 101 *Presentation of Financial Statements*. The new standard introduces new requirements for the statement of comprehensive income, including:

- new categories for the classification of income and expenses into operating, investing and financing categories, and
- presentation of subtotals for “operating profit” and “profit before financing and income taxes”.

Additional disclosure requirements are introduced for management-defined performance measures and new principles for aggregation and disaggregation of information in the notes and the primary financial statements and the presentation of interest and dividends in the statement of cash flows. The new standard is effective for annual periods beginning on or after 1 January 2027 and will be applied retrospectively by the Fund for the financial year ending 30 June 2028.

This new standard is not expected to have an impact on the recognition and measurement of assets, liabilities, income and expenses, however there will likely be changes in how the statement of comprehensive income and statement of financial position line items are presented as well as some additional disclosures in the notes to the financial statements. Management is in the process of assessing the impact of the new standard.

AASB 2024-2 Amendments to Australian Accounting Standards – Classification and Measurement of Financial Instruments [AASB 7 & AASB 9] (effective for annual periods beginning on or after 1 January 2026).

In July 2024, the AASB issued amendments to AASB 7 *Financial Instruments: Disclosures* and AASB 9 *Financial Instruments*. This amendment amends requirements related to settling financial liabilities using an electronic payment system and assessing contractual cash flow characteristics of financial assets with environmental, social and corporate governance and similar features. It also amends disclosure requirements relating to investments in equity instruments designated at fair value through other comprehensive income and adds disclosure requirements for financial instruments with contingent features that do not relate directly to basic lending risks and costs. The amendments will be effective for annual reporting periods beginning on or after 1 January 2026.

Management is currently working to identify all the impact of the new standards and amendments on the primary financial statements and the related notes.

Certain amendments to accounting standards have been published that are not mandatory for the 30 June 2026 reporting year and have not been early adopted by the Fund. These amendments are not expected to have a material impact on the Fund in the current or future reporting periods and on foreseeable future transactions.

4 Summary of material accounting policy information

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all periods presented, unless otherwise stated in the following text.

4.1 Financial instruments

(i) Classification

Financial assets

The Fund classifies its financial assets in the following measurement categories:

- those to be measured at fair value through profit or loss; and
- those to be measured at amortised cost.

The Fund classifies its financial assets based on the Fund's business model for managing those financial assets and contractual cash flow characteristics of the financial assets.

For Fund's investment in unit trusts, the contractual cash flows of these instruments do not represent solely payments of principal and interest. Consequently, these investments are measured at fair value through profit or loss.

For cash and cash equivalents and receivables, these assets are held in order to collect the contractual cash flows and the contractual terms of these assets give rise on specified dates to cash flow that are solely payments of principal and interest on the principal amount outstanding. Consequently, these are measured at amortised cost.

Financial liabilities

For financial liabilities that are not classified at fair value through profit or loss, these are classified as financial liabilities at amortised cost (distribution payable and other payables).

(ii) Recognition and derecognition

The Fund recognises financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognises changes in the fair value of the financial assets or financial liabilities from that date.

Financial assets are derecognised when the right to receive cashflows from the financial assets have expired or have been transferred and the Fund has transferred substantially all of the risks and rewards of ownership.

Financial liabilities are derecognised when, and only when, the obligation under the liability is discharged, cancelled or expires. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of comprehensive income.

(iii) Measurement

Financial instruments

At initial recognition, the Fund measures financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the statement of comprehensive income.

Subsequent to initial recognition, all financial assets or liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of 'financial assets or liabilities at fair value through profit or loss' category are presented in the Statement of comprehensive income within 'net gains/(losses) on financial assets at fair value through profit or loss' in the period in which they arise. No gains/(losses) on financial assets at fair value through profit or loss occurred during the year.

For financial assets and financial liabilities at amortised cost, they are initially measured at fair value including directly attributable costs and are subsequently measured using the effective interest rate method less any allowance for expected credit losses.

Cash and cash equivalents, distribution receivables, other receivables, distribution payable and other payables are carried at amortised cost.

4 Summary of material accounting policy information (continued)

4.1 Financial instruments (continued)

(iii) Measurement (continued)

Impairment

At each reporting date, the Fund shall estimate a loss allowance on each of the financial assets carried at amortised cost (cash and cash equivalents and distribution receivables) at an amount equal to the lifetime expected credit losses ("ECL") if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Fund shall measure the loss allowance at an amount equal to 12-month ECL. Significant financial difficulties of the counter party, probability that the counter party will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that the asset is credit impaired. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the net carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired. The ECL approach is based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Fund expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

The amount of the impairment loss is recognised in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

(iv) Offsetting financial instruments

Financial assets and financial liabilities are offset, and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

4.2 Net assets attributable to unitholders

Units are not redeemable at the unitholders' option and are not considered puttable financial instruments. The Fund is a limited life entity and the capital contribution into the Fund is expected to be returned at some point over its life.

Under AASB 132 *Financial instruments: Presentation*, classification of the units in the Fund would start at liability. As an exception to the definition of a financial liability, an instrument that includes such an obligation is classified as an equity instrument if it has all the following features:

- It entitles the holder to a pro rata share of the entity's net assets in the event of the entity's liquidation. The entity's net assets are those assets that remain after deducting all other claims on its assets;
- The instrument is in the class of instruments that is subordinate to all other classes of instruments. To be in such a class the instrument; and
- All financial instruments in the class of instruments that is subordinate to all other classes of instruments must have an identical contractual obligation for the issuing entity to deliver a pro rata share of its net assets on liquidation.

The Fund's units have been classified as equity as they satisfied all the above criteria.

The units can be traded on the ASX at any time for cash based on quoted prices. While the Fund is a listed investment trust and liquidity is generally expected to exist in the secondary market (ASX), there are no guarantees that an active trading market with sufficient liquidity will be available. Units are not able to be redeemed while the Fund is listed on ASX. However, the Responsible Entity may undertake a buy-back of units which satisfies the requirements of the Corporations Act and the Listing Rules. Any units acquired by the Responsible Entity under a buyback will be immediately cancelled, as required by the *Corporations Act*.

4 Summary of material accounting policy information (continued)

4.3 Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

The statement of cash flows has been prepared using the direct method. Payments and receipts relating to the purchase and sale of investment securities are classified as cashflows from operating activities, as movements in the fair value of these securities represent the Fund's main income generating activity. as the Fund's principal income-generating activities comprise earning investment income and changes in the fair value of its investment portfolio.

4.4 Income

Revenue is recognised to the extent that it is probable that the economic benefits will flow and be reliably measured at the fair value of the consideration received or receivable.

(i) Distribution income

Distribution income from financial assets at fair value through profit or loss is recognised in the statement of comprehensive income within distribution income when the Fund's right to receive payments is established. The right to receive payment is considered to be established when the distribution is formally declared by the investee and the Fund becomes entitled to the distribution.

(ii) Interest income

Interest income from a financial asset at amortised cost is recognised when it is probable that the economic benefits will flow to the Fund and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

4.5 Expenses

All expenses are recognised in the statement of comprehensive income on an accrual basis.

4.6 Income taxation

Under current legislation, the Fund is not subject to income tax as all assessable income, exempt income and non-assessable income will be attributed to unitholders under the Attribution Managed Investment Trust "AMIT" regime.

The benefits of franking imputation credits and foreign income tax offset are generally passed on to tax resident unitholders. Realised capital losses are not attributed to unitholders but are retained within the Fund to be offset against any realised capital gains. If realised capital gains exceed realised capital losses, the net capital gain is distributed to unitholders.

4.7 Distributions

In accordance with the Constitution, the Responsible Entity determines distributable income which is paid to unitholders (and may be reinvested). Distributions are recognised in the statement of changes in equity as distributions paid and payable.

4.8 Increase/decrease in net assets attributable to unitholders

Income not distributed is included in net assets attributable to unitholders. Where the Fund's units are classified as equity, movements in net assets attributable to unitholders are recognised in the statement of changes in equity.

Notes to the financial statements

For the year ended 30 June 2026

4 Summary of material accounting policy information (continued)

4.9 Foreign currency

(i) Functional and presentation currency

The financial statements of the fund are presented in the currency of the primary economic environment in which the fund operates (its functional currency). The results and financial position are expressed in Australian dollars ("\$", "AUD"), which is the functional currency of the Fund and the presentation currency for the financial statements.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at period end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of comprehensive income.

4.10 Receivables

Receivables may include amounts for interest and trust distributions. Trust distributions are accrued when the right to receive payment is established. Where applicable, interest is accrued on a daily basis. Amounts are generally received within 30 days of being recorded as receivables.

4.11 Payables

Payables include liabilities and accrued expenses owed by the Fund which are unpaid as at the end of the reporting period.

The amount of distribution payable to unitholders as at the reporting date is recognised separately in the statement of financial position.

4.12 Applications and redemptions

Applications received for units in the Fund are recorded net of any entry fees payable prior to the issue of units in the Fund. Units are not able to be redeemed while the Fund is listed on the ASX. However, the Responsible Entity may undertake a buy-back of units which satisfies the requirements of the Corporations Act and the Listing Rules.

4.13 Goods and services tax (GST)

The GST incurred on the costs of various services provided to the Fund by third parties such as management, administration and custodian services where applicable, have been passed on to the Fund. The Fund qualifies for Reduced Input Tax Credits (RITC) at a rate of at least 55%. Hence, fees for these services and any other expenses have been recognised in the statement of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Amounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the statement of financial position. Cash flows related to GST are included in the statement of cash flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, is classified as an operating cash flow.

4.14 Material accounting judgements

The Fund makes estimates and assumptions that affect the reported amounts of assets and liabilities within the current and next period. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Key estimates and assumptions relate to the valuation of the Fund's investment in the Underlying Fund and the assessment of whether the reported net asset value (NAV) is representative of fair value and assumptions relate to the valuation of financial assets at fair value through profit or loss and impairment of financial assets. Management assesses impairment of financial assets at each reporting date by evaluating conditions specific to the particular asset that may lead to impairment. If an impairment trigger exists, the recoverable amount of the asset is determined.

Notes to the financial statements

For the year ended 30 June 2026

5 Financial risk management

The Fund, through its investment in the Underlying Fund, is exposed to a number of risks due to the nature of its activities and as further set out in its offer document. These risks include market risk (including price risk and interest rate risk), credit risk and liquidity risk.

The Fund's overall risk management program focuses on ensuring compliance with the Fund's Product Disclosure Statement and the investment guidelines of the Fund. It also seeks to maximise the returns derived for the level of risk to which the Fund is exposed and seeks to minimise potential adverse effects on the Fund's financial performance.

The management of these risks is carried out by the Investment Manager on behalf of the Fund, who manages the Fund's assets in accordance with its investment objective. This involves an ongoing process of identification, measurement, monitoring and controlling of risks. The Investment Manager is aware of the risks associated with the business of investment management.

The Investment Manager uses different methods to measure different types of risk to which the Fund is exposed through its investment in the Underlying Fund and the Underlying Fund is exposed to through its investment in the MA Financial Credit Funds which are exposed to direct credit assets. These methods are explained below.

(a) Credit risk

The Fund is exposed to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when they fall due, causing a financial loss to the Fund. Although the Fund is not directly exposed to individual borrowers, its investment performance is dependent on the credit quality of the underlying portfolio's held by the Underlying Fund and MA Financial Credit Funds.

The Fund is exposed to credit risk on its investments, indirectly, as it invests in private credit through units in the Underlying Fund. The Underlying Fund and MA Financial Credit Funds primarily invest in portfolios of private credit investments, including corporate loans, asset backed lending facilities and other credit instruments, which expose the Fund indirectly to borrower and counterparty credit risk. The Fund is also exposed to counterparty credit risk on cash and cash equivalents. The maximum exposure to credit risk before any credit enhancements at the end of each reporting period is the carrying amount of the financial assets. The exposure to credit risk for cash and cash equivalents is low as the counterparty has a credit rating of AA- (as determined by S&P). None of these assets are impaired nor past due but not impaired.

The Investment Manager of the underlying MA Financial Credit Funds intends that each new investment opportunity will be subject to the Investment Manager's established and rigorous evaluation and approval process, which is focused on in-depth credit analysis with the key emphasis on capital preservation.

Once a potential investment opportunity is identified, the Investment Manager follows a defined screening, due diligence, and approval process.

The investment team will undertake a detailed review of the company and the sector within which it operates and present a detailed investment proposal to the Investment Committee. Alongside this proposal, the investment team will also build a financial model to forecast credit risk and perform multiple downside scenario analyses. At the committee meeting the investment team will be challenged and, if required, further research will be undertaken. The outcome of the Investment Committee process is a decision on the approved holding limits of an investment if the transaction is approved.

Comprehensive due diligence will be undertaken as part of each new transaction in which the Fund is involved. The scope of the due diligence undertaken will include all areas of potential risk in the transaction.

Once a deal is completed there is regular and active post-investment monitoring which is designed to identify risks within the portfolio. The Investment Manager will be responsible for the execution and monitoring of the investment, all the way through to exit. Monitoring of investments is a continuous process and the key components of the Investment Manager's post investment risk management are as follows:

Notes to the financial statements

For the year ended 30 June 2026

5 Financial risk management (continued)

(a) Credit risk (continued)

- Regular interaction with investee company management teams;
- Monthly or quarterly review of individual investment performance upon receipt of management accounts from the investment; and
- Each quarter, the Investment Committee reviews each investment in the portfolio. Risk ratings are assigned to each investment to enable the Investment Manager to monitor both the operating performance of the business and the absolute credit risk compared with original expectations. The review also includes an assessment of valuations, future realisations and repayment dates.

The Investment Manager believes that close contact with investee companies and the monthly and quarterly reviews are essential to ensure effective monitoring of its investments. It also helps to provide an early indication of changes in the performance and credit risk of an investee company. The Investment Manager executives and senior management continuously share information about market conditions and industry wide issues in order to enhance risk management and improve monitoring across the business.

(b) Liquidity risk

Liquidity risk is the risk that the Fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous.

The Fund's policy and the Investment Manager's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stress conditions, including estimated unitholder redemptions, without incurring unacceptable losses or risking damage to the Fund's reputation.

The Fund generates income from its investment activities which is used to meet operating expenses and to make distributions to unitholders. The Fund's financial liabilities primarily comprise trade and other payables, and distribution amounts payable. These liabilities are generally short-term in nature and are expected to be settled from operating cash flows.

Distributions are made at the discretion of the Responsible Entity and are dependent on the availability of distributable cash and the Fund's investment strategy. As a result, the Fund is not exposed to liquidity risk arising from contractual distribution obligations.

There is liquidity risk associated with the Fund's investment in the Underlying Fund and its indirect interest in underlying MA Financial Credit Funds. The class of Underlying Fund units held by the Fund are only able to be redeemed in limited circumstances. The Underlying Fund Trustee and each trustee of the underlying MA Financial Credit Funds have broad discretion to limit and/or cease the redemption of units in the relevant underlying funds. Any restriction will directly limit the ability of the Fund to redeem the interest it holds in the Underlying Fund.

Units in the Fund are not able to be redeemed while the Fund is Listed on the ASX, however, the Responsible Entity may undertake a buy-back of units which satisfies the requirements of the Corporations Act and the Listing Rules.

(c) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: foreign exchange (currency risk), market interest rates (interest rate risk) and market prices (market price risk). The Fund manages this risk via outsourcing its investment management whereby; the Investment Manager manages the financial risks relating to the operations of the Fund in accordance with an investment objective set out in accordance with the Constitution and Product Disclosure Statement. There has been no change to the Fund's exposure to market risks or the manner in which it manages and measures the risk. The Fund has no exposure to foreign exchange (currency risk).

(i) Market price risk

Market price risk is the risk that the fair value of investment decreases as a result of changes in market prices, whether those changes are caused by factors specific to the individual assets or factors affecting all instruments in the market.

The Fund's primary exposure to market price risk arises from the units it holds in the Underlying Fund. As at 30 June 2026, the Fund's investment in the Underlying Fund represents 100% of the Fund's financial assets at fair value through profit or loss.

The Fund does not directly hold credit investments; however, the fair value of its investment is dependent on the NAV of the Underlying Fund and the MA Financial Credit Funds, which in turn are based on the valuation of their respective portfolios of credit instruments.

Notes to the financial statements

For the year ended 30 June 2026

5 Financial risk management (continued)

(c) Market risk (continued)

(i) Market price risk (continued)

The value of these underlying credit assets may fluctuate due to changes in borrower credit quality, market interest rates, credit spreads, default expectations, and broader economic and market conditions. As a result, the Fund is indirectly exposed to market price risk through its investment in Underlying Fund, as changes in the fair value of the Underlying Fund and the MA Financial Credit Funds portfolios will impact the valuation of the Fund's investment.

The Fund monitors its exposure to market price risk primarily through periodic review of valuation reports and NAV statements provided by the Underlying Fund and through ongoing communication with its management. Risk management activities include monitoring portfolio performance, diversification across borrowers and industries within the MA Financial Credit Funds and assessing changes in macroeconomic conditions and credit markets that may impact the valuation of the underlying investments.

The sensitivity analysis to a change in the net asset value of the Fund's investment in the units in the Underlying Fund is disclosed in note 6.

There has been no change during the year to the Fund's exposure to market price risk or to the manner in which it manages and measures this risk.

(ii) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows of financial instruments.

The table below summarises the Fund's exposure to interest rate risk.

30 JUNE 2026 (\$'000)	FLOATING INTEREST RATE	FIXED INTEREST RATE	NON-INTEREST BEARING	TOTAL

The Fund is also indirectly exposed to interest rate risk through the units it holds in the Underlying Fund. The Underlying Fund and MA Financial Credit Funds hold a portfolio of credit investments that earn interest based on floating reference rates, primarily the Bank Bill Swap Rate ("BBSW"), and in certain cases other benchmark rates such as the Reserve Bank of Australia ("RBA") Cash Rate or Secured Overnight Financing Rate ("SOFR"), plus a margin. As these benchmark rates fluctuate over time and the underlying investments reset frequently, the Underlying Fund's income is sensitive to movements in interest rates.

Management expects ongoing variability in interest rates given the nature of the credit market. Changes in interest rates will affect the Underlying Fund's accounting profit, and consequently, the distributions received by the Fund on its units. Any reduction in distributions from the Underlying Fund would reduce the distributions available to the unitholders of the Fund.

6 Fair value measurement

AASB 13 *Fair Value Measurement* requires disclosure of fair value measurements by level of the following fair value hierarchy;

- (i) Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (ii) Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (Level 2); and
- (iii) Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

Recognised fair value measurements

The following table presents the Fund's financial assets measured and recognised at fair value as at 30 June 2026 and 30 June 2025.

FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS	LEVEL 1 (\$'000)	LEVEL 2 (\$'000)	LEVEL 3 (\$'000)	TOTAL (\$'000)
30 JUNE 2026				
MA Credit Income Fund (Wholesale) Units	-	-	559,229	559,229
30 JUNE 2025				
MA Credit Income Fund (Wholesale) Units	-	-	331,324	331,324

Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This may be the case for certain unlisted shares, certain corporate debt securities and unlisted unit trusts with suspended applications and withdrawals. The level 3 asset, being the investment in the Underlying Fund, is valued as the proportionate share of the NAV of the Underlying Fund.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Fund's holds. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The determination of what constitutes 'observable' requires significant judgement by management. Management consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The Fund's investment in the Underlying Fund is recorded at the NAV as reported by the Underlying Fund. The Fund may make adjustments to the value based on considerations such as the; liquidity of the Investee Fund or its underlying investments, the value date of the NAV provided, or any restrictions on redemptions and the basis of accounting. As these inputs are not market observable, the Fund's investment in unit trusts is categorised in Level 3 of the fair value hierarchy.

Management reviews the NAV received from the Underlying Fund and considers whether any adjustments are required for factors such as redemption restrictions, liquidity constraints, stale pricing or other matters that may indicate that NAV is not representative of fair value. No such adjustments were considered necessary as at 30 June 2026.

Valuation inputs and relationship to fair value

The following table summarises the quantitative information about the significant unobservable inputs used in the level 3 fair value measurements.

Financial Asset	Valuation Method	Fair Value (\$'000)	Unobservable Inputs	Impact to Valuation from an Increase in Input
AS AT 30 JUNE 2026				
MA Credit Income Fund (Wholesale) Units	Unit Price multiplied by Units Held	559,229	Impact of the lack of marketability of the trust	A significant change in marketability of the trust can result in changes to fair value of the investment

The Fund's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. There were no transfers between fair value hierarchy levels during the year.

The below table illustrates the sensitivity of the MA Credit Income Fund (Wholesale) units if there was a change in the valuation in the underlying credit portfolios. The sensitivity reflects a hypothetical change in the valuation of the underlying credit portfolios while all other assumptions remain constant.

An overview of the risk exposures and fair value measurements relating to financial assets at fair value through profit or loss is included in note 5 and note 6 to the financial statements.

8 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factors in deciding control and the relevant activities are directed by means of contractual arrangements.

The Fund considers all investments in unlisted unit trusts (the "Schemes") to be structured entities. The Fund may invest in related and unrelated unlisted unit trusts for the purpose of capital appreciation and earning investment income.

The exposure to investments in unrelated schemes at fair value are disclosed in the following tables:

	AS AT 30 JUNE 2026 (\$'000)	AS AT 30 JUNE 2025 (\$'000)
MA Credit Income Fund (Wholesale)	559,229	331,324
Total unrelated schemes	559,229	331,324

The fair value of these entities is included in financial assets at fair value through profit or loss in the statement of financial position.

The Fund's maximum exposure to loss from its interests in the structured entities is equal to the total fair value of its investments in these entities as there are no off-balance sheet exposures relating to them. The Fund's exposure to any risk from the structured entities will cease when these investments are disposed of.

The Fund does not have current commitments or intentions and contractual obligations to provide financial or other support to the structured entities. There are no loans or advances currently made to these entities.

During the year ended 30 June 2026, total gains/(losses) incurred on investments in the Schemes were \$nil (30 June 2025: \$nil). The Fund also earned distribution income of \$43,517,107 (30 June 2025: \$9,789,108) as a result of its interests in the Schemes.

8 Structured entities (continued)

Unconsolidated subsidiaries

The Fund applies the investment entity exception to consolidation available under AASB 10 *Consolidated Financial Statements* and measures its subsidiaries at fair value through profit or loss.

The following unconsolidated structured entities are considered to be the Fund's subsidiaries at the reporting date:

	30 JUNE 2026		30 JUNE 2025	
	Fair Value (\$'000)	Ownership Interest %	Fair Value (\$'000)	Ownership Interest %
MA Credit Income Fund (Wholesale)	559,229	63.39%	331,324	55.14

The principal place of business for the above entity is Sydney, Australia.

9 Net assets attributable to unitholders – equity

Under AASB 132 *Financial Instruments: Presentation*, puttable financial instruments are classified as equity where certain criteria are met. The Fund shall classify a financial instrument as an equity instrument from the date when the instrument has all the features and meets the conditions. The Fund's units are classified as equity as they meet the definition of a financial instrument to be classified as equity.

The movements in number of units and net assets attributable to unitholders during the year were as follows:

	FOR THE YEAR ENDED 30 JUNE 2026		FOR THE PERIOD 4 OCTOBER 2024 TO 30 JUNE 2025

*The Responsible Entity successfully completed capital raises undertaken by way of a Wholesale Placement, Entitlement Offer and Shortfall Offer. The Entitlement Offer and Shortfall Offer was fully subscribed and achieved its maximum potential raise of \$190.5 million. 95,270,647 new units were issued at an offer price of \$2.00 per new fully paid ordinary unit. For the Wholesale Placement refer to note 15.

As stipulated within the Fund's Constitution, each unit represents a right to an individual share in the Fund and does not extend to a right to the underlying assets of the Fund. There is one class of units for the Fund. There are no separate classes of units, and each unit has the same rights attaching to it as all other units of the Fund.

20 Approval of financial statements

The Financial Statements of the Fund for the year ended 30 June 2026 were approved and authorised for issue by the Responsible Entity effective on 27 August 2026.

Notes to the financial statements

For the year ended 30 June 2026

21 Events occurring after the reporting period

Subsequent to the reporting date, on 25 August 2026, the Responsible Entity announced that the trustee of the MA Secured Loan Series ("MA SLS") announced the introduction of a temporary redemption limit of up to 1% of MA SLS funds under management per month. The arrangement is expected to remain in place for at least three months and is subject to ongoing review, with the trustee of MA SLS retaining the ability to vary, extend or withdraw the arrangement having regard to prevailing circumstances. The Fund is indirectly exposed to MA SLS through its investment in MA Credit Income Fund (Wholesale) ("the Underlying Fund"). As at 30 June 2026, the Fund's investment in the Underlying Fund had a fair value of \$559.2 million.

The Responsible Entity has assessed the impact of the temporary redemption limit and does not consider the event to have an impact on the carrying value of the Fund's investment in the Underlying Fund.

Other than the matter described above, no other event has occurred subsequent to the reporting date that has materially affected, or may materially affect, the Fund's financial position or results.

22 Contingent assets and liabilities and commitments

There were no outstanding contingent assets, liabilities or commitments as at 30 June 2026 (30 June 2025: None).

Independent Auditor's Report

To the unitholders of MA Credit Income Trust

Opinion

We have audited the **Financial Report** of MA Credit Income Trust (the Scheme).

In our opinion, the accompanying **Financial Report** of MA Credit Income Trust gives a true and fair view, including of the Scheme's financial position as at 30 June 2026 and of its financial performance for the year then ended, in accordance with the *Corporations Act 2001*, in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The **Financial Report** comprises the:

- Statement of financial position as at 30 June 2026
- Statement of comprehensive income for the year then ended, Statement of changes in equity, and Statement of cash flows for the year then ended
- Notes, including material accounting policy information
- Directors' Declaration.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Scheme and Equity Trustees Limited (the Responsible Entity) in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional & Ethical Standards Board Limited (the Code) that are relevant to audits of the financial report of public interest entities in Australia. We have fulfilled our other ethical responsibilities in accordance with these requirements.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

This matter was addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Valuation of financial assets at fair value through profit or loss (\$559.2 million)

Refer to Notes 5, 6 & 7 to the Financial Report

The key audit matter	How the matter was addressed in our audit
The Fund's financial assets at fair value through profit or loss are comprised of investments in an unlisted unit fund, MA Credit Income Fund (Wholesale) (the Underlying Fund). The Underlying Fund predominantly holds investments in other unlisted funds. The Fund outsources certain processes and controls relevant to: - recording and valuing investments to the Administrator; and - maintaining custody and underlying records of investments to the Custodian. Valuation of financial assets at fair value through profit and loss is a key audit matter due to the: - size of the Fund's investments, which are significant to its financial position representing ~99% of the total assets at period end; - importance of the performance of these investments in driving the Fund's investment income and performance, as reported in the Financial Report; and As a result, this was the area with the greatest effect on our overall audit strategy and allocation of resources in planning and performing the audit.	Our procedures included: - assessing the appropriateness of the accounting policies and method applied by the Fund to value its investments, against the requirements of the accounting standards and industry practice. - checking the quantity of the Fund's unit holdings in investments against confirmation reports from the Underlying Fund's unit registry as at 30 June 2026. - assessing the Net Asset Value (NAV) per unit used by the Fund to value its investment in the Underlying Fund at period-end, including: - evaluating the accounting policies adopted by the Underlying Fund related to fair value for consistency with the Fund's accounting policies. - checking the NAV of the Underlying Fund as at period end against the NAV per the audited financial report of the Underlying Fund. - comparing the NAV per unit against evidence of the price of the units in applications issued in the Underlying Fund during the year then ended. - evaluating the Fund's disclosures of investments in the Financial Report, including the fair value hierarchy disclosures, using our understanding obtained from the testing, against the requirements of the accounting standards.

Other Information

Other Information is financial and non-financial information in the MA Credit Income Trust's annual report which is provided in addition to the Financial Report and the Auditor's Report. The Directors of Equity Trustees Limited (the Responsible Entity) are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of Directors for the Financial Report

The Directors of Equity Trustees Limited (the Responsible Entity) are responsible for:

- preparing the Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Scheme, and in compliance with *Australian Accounting Standards* and the *Corporations Regulations 2001*
- implementing necessary internal control to enable the preparation of a Financial Report in accordance with the *Corporations Act 2001*, including giving a true and fair view of the financial position and performance of the Scheme, and that is free from material misstatement, whether due to fraud or error
- assessing the Scheme's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Scheme or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: https://www.auasb.gov.au/media/bwvjcgre/ar1_2024.pdf. This description forms part of our Auditor's Report.
