COMMENTARY

Following the stabilisation of the business in FY25, the focus for FY26 was to increase our bottom-line contribution, which has been achieved. Further to investments made in FY25, more capability was added in FY26 to provide efficiency improvements and reduce outgoings. These have proven to be vital for our ongoing sustainability as the market changed dramatically at the end of February as a result of the Middle East conflict. Raw material prices reached an all-time high, and the rising cost of fuel resulted in substantial logistics cost increases. Sales became unpredictable during the first 4 months of the conflict with highs and lows in both demand and costs. Overall, the proactive and mitigating actions taken by the management team ensured that such volatility did not ruin the great start to the FY 2026 year.

Overall, the business delivered a growth of 6.8% for the period and has delivered a CAGR (compound aggregate growth rate) over the last 5 years of 6.13% further demonstrating the tenacity of the team. The Company delivered its best profit after tax in the last 5 years of $451k representing a growth of 319% over the same 5-year period. This further strengthened the balance sheet and provides strength for the Company to seek potential acquisition opportunities.

The Board of Directors and the management team of Eneco Refresh are in alignment and fully committed to the ongoing improvement of performance through the agreed action plans that management have in place which have contributed to this year's improvement.

A breakdown by Cash Generating Units is presented below.

	FY 2026 $'000	FY 2025 $'000	Variance
Revenue			
Western Australia (WA)	5,538	5,240	6%
New South Wales (NSW)	3,125	3,262	-4%
Victoria (VIC)	2,601	2,190	19%
Northern Territory (NT)	51	82	-38%
Queensland (QLD)	3,465	3,342	4%
Refresh Waters	14,780	14,116	5%
Refresh Plastics	2,951	2,486	19%
Total	17,731	16,602	7%
Profit/(Loss)			
Western Australia	502	304	65%
New South Wales	352	213	65%
Victoria	(102)	(192)	47%
Northern Territory	47	73	-36%
Queensland	132	184	-28%
Refresh Waters	931	582	60%
Refresh Plastics	213	134	59%
	1,144	716	60%
Corporate Expenses	(693)	(691)	0%
Total	**451**	**25**	**1704%**

Refresh Waters

For personal use only

The Directors and management team are confident that the strategies we have implemented will take the business from strength to strength in the coming years as we look for acquisitional opportunities and synergies to increase our capabilities, capacity and market share.

Our Western Australian revenue gained 6% on prior year and delivered an impressive 65% uplift in profit of almost $200k when compared to FY25. Some of the main contributors were favourable weather conditions, and solid demand for our products from within the mining sector, WA was a consistent performer throughout 2026.

FY 2026 reflected for the first time a change in how the Company allocated its revenues from its custom label water segment to the States. Revenues generated are now clearly allocated to the state where the product is produced rather than being centralised through the Sydney office. This change in allocation resulted in some variances year on year with NSW reflecting a drop in revenues as a result compared to FY2025. FY27 will bring parity to the year-on-year reporting and provide an easier comparison. The Victorian Refresh Waters business delivered a $411k revenue and a $90k profit improvement in FY26. The branch is performing favourably from an operational perspective. Victoria which was previously our main loss generating state has in FY26 returned to overall profitability, delivering a combined profit of $111k which is an excellent outcome of the management's focus in turning this state around. The business remains committed to the ongoing supply in the state and is working towards further efficiency improvements in FY27.

Eneco continues to own a natural spring water reserve located on 7.7 hectares of land in the Northern Territory which supplies water to a local bottling plant. Due to customer downsizing of their operations demand has declined by almost 50% in the second half of the year which is expected to continue in FY27. This impact whilst negative, is not material as Darwin represents less than 0.3% of revenue for the Company.

Queensland delivered a 4% revenue growth whilst suffering a decline in profits as a result of margin pressure from one significant customer, a one off tax credit write off as the business has been in profits for some time and some asset adjustments for water coolers. Queensland has been the beneficiary of capability and efficiency upgrades throughout FY26 positioning it well for FY27. With the upcoming Olympic Games in 2032 and the infrastructure projects required beforehand to facilitate this, we believe Queensland Is now positioned to capture solid growth in the future.

Refresh Plastics

Following several years of financial loss and the devastating factory fire in FY24, the Plastics business is now performing consistently well and generated a pleasing 19% revenue increase when compared to FY25. Turbulent pricing threatened to cause major issues with our manufacturing partners and customers as the cost of raw materials increased by as much as 50% in March as a result of the Middle East conflict. The team worked diligently through these challenges mitigating the risks and delivering a profit improvement of 59%, a clear reflection of their dedication and commitment throughout the year. There has been no relief in the cost of raw materials as we closed out the FY26 year. We look forward to some stabilisation for FY27 in this area.

We believe there remains good growth opportunities within the business segment and the team continues to explore these. Whether they be new products, new customers or acquisition opportunities, we remain committed to improving our operating margins and accelerating growth to deliver improved value to our shareholders.

1. SEGMENT INFORMATION

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

In identifying its operating segments, management follows the geographical location of the Group's bottled water business but show Refresh Plastics separately. Corporate costs are included under "Other". Segment information can be analysed as follows for the reporting period under review.

	WA	NSW	VIC	NT	QLD	Plastics	OTHER (Corporate)	TOTAL
30 June 2026								
Revenue from external customers	5,538,100	3,125,222	2,601,092	50,566	3,464,405	2,951,375	-	17,730,760

5. CURRENT TAX ASSET

	CONSOLIDATED	
	2026	**2025**
	$	$
Current tax asset	-	34,361
	-	34,361

The deferred tax assets recognised by its subsidiary Refresh Waters Queensland Pty Ltd (RWQ) were primarily recorded in FY2016 FY2018 n respect of carried-forward unused tax losses. RWQ was 51% owned by another party following its partial sale in 2014 before being fully reacquired by ERG in January 2019.

As the Group currently has more than $1.4 million of unrecognised deferred tax assets relating to carried-forward tax losses that have not been recognised on the balance sheet, management considered it appropriate to apply a consistent accounting approach. Accordingly, the deferred tax asset previously recognised by RWQ has been written off and recognised as an Other Expense in the FY2026 profit and loss statement.

6. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME (OCI)

As of 30 June 2026, the group holds 410,000 shares, carried at a book value of AU $0.019 per share, which reflects the last traded price on the ASX on that date. Any fair-value movements have been recognized through Other Comprehensive Income (OCI).
