

ASX ANNOUNCEMENT1st September 2026**Canva launches Connect QR on its App Marketplace****Highlights**

- Canva has released Codeifai's ConnectQR QR Codes app live on the Canva Apps Marketplace
- Follows internal development and final approval under Canva's app review and security process
- The app enables Canva users to create and place both static and dynamic QR codes directly within their designs, **without leaving Canva!**
- Provides ConnectQR to Canva's reported more than 265 million monthly active users at the end of 2025, giving ConnectQR native distribution inside one of the world's largest design platforms
- The app is free to install on any Canva plan; dynamic QR codes provide a direct conversion pathway into ConnectQR's paid subscription tiers for code management, editing and analytics
- The launch adds a significant self-service customer acquisition channel at no marginal acquisition cost, consistent with Codeifai's self-service SaaS strategy

Codeifai Limited (ASX: CDE) ("Codeifai" or "the Company") is pleased to announce that its **ConnectQR QR Codes** app has been released on the Canva Apps Marketplace and is now available to Canva's global user base who can discover ConnectQR as per Canva's website shown below:

The app allows users to generate QR codes and insert them into designs such as packaging, posters, menus, business cards and marketing materials directly within the Canva workflow. Where users create dynamic QR codes, the destination content can be updated after the design is printed or published, with scan management and analytics available through the ConnectQR platform.

The integration places ConnectQR at the point of design creation, where QR codes are commonly needed, and is expected to drive organic sign-up flow into ConnectQR's freemium funnel and paid subscription plans.

Executive Director and Chief Operating Officer Martin Ross said: *"Distribution is everything in self-service SaaS. Rather than asking customers to come to us, this puts ConnectQR inside the Canva tool where millions of people already design the materials QR codes live on. Every dynamic code created in Canva is a prospective ConnectQR subscriber."*

The app is available on the Canva Apps Marketplace at canva.com/apps (search "ConnectQR QR Codes").

About Codeifai Limited

Codeifai Limited (ASX: CDE) is a self-service SaaS company by design and by strategy, operating at the intersection of AI, post-quantum cryptography and serialised data technology. Codeifai's products, including ConnectQR, ProtectCode and QuantumAI Secure, enable brands, manufacturers and enterprises to connect with their customers and data deeper, faster and more securely.

The world's security is fragile, and data needs organisation and analysis. CDE's technology can change that.

This announcement has been authorised for release by the Board of Codeifai Limited.
