NoviqTech Secures Extension of $1.4m Loan Facility

Sydney, 2 September 2026 – NoviqTech Limited (ASX: NVQ) (the **Company**) is pleased to announce that it has entered into a deed of variation (the **Deed**) to extend and amend its existing loan facility agreement dated 28 March 2024 (the **Facility**) with Copeak Pty Ltd (**Copeak**), an entity controlled by Non-executive Director of the Company, Niv Dagan. The Deed strengthens the certainty, availability, and flexibility of the Company's funding arrangements as it works towards satisfying the ASX's requirements for reinstatement to quotation.

Key Terms of the Variation

- Sunset Date Extension: The maturity date has been extended from 1 April 2027 to 1 April 2028.
- Facility Status & Availability: The Facility amount remains $1,400,000. Under the Deed, the Facility amount is committed, revolving, unsecured, with the full $1,400,000 available for draw down as at the effective date of the Deed.
- Interest: Interest on amounts drawn under the Facility is unchanged at 5% per annum.
- Security: The Deed confirms that the Facility remains unsecured.
- Other amendments: The Deed makes related amendments to the Facility's drawdown, repayment and default provisions to clarify terms and support the committed availability of the Facility.
- No consideration was paid to Copeak for its agreement to the varied term, and the Company has not provided any additional benefits to Copeak under the varied terms of the Facility.

Strategic Rationale and Reinstatement Package

Given the varied Facility terms are favourable to the Company, the non-interested Directors of NoviqTech consider that entering into the Deed is in the best interests of the Company and its shareholders. The extended Facility provides the Company with improved access to a non-dilutive source of funding (if required). Copeak agreed to vary the Facility's terms to support the Company as it seeks reinstatement to trading on ASX.

This announcement has been authorised for release by the Board of NoviqTech Limited.
