ASX RELEASE

Forrestania Awards Edna May Tailings Storage Facility Expansion Contract

Forrestania Resources Limited (ASX: FRS) (“FRS” or “the Company”) is pleased to announce the award of a contract to JWI Contractors Pty Ltd for the Stage 11 raise of the Edna May Tailings Storage Facility (TSF), with an estimated contract value of A\$6 million.

Highlights

- JWI is an experienced Western Australian contractor with a strong track record delivering tailings storage facility and large-scale mine earthworks projects.
- The Stage 11 raise will provide additional tailings storage capacity to support ongoing operations at Edna May.
- The project is being delivered in stages, with the initial embankment section targeted to be operational from mid-November 2026, enabling tailings discharge ahead of final completion.
- Construction of the remaining embankment raise will continue while the facility is operating and receiving tailings, with final completion scheduled for March 2027

Executive Chairman David Geraghty said:

“The award of this contract represents an important milestone for Edna May and ensures we continue to invest in infrastructure required to support future production. Importantly, the staged construction methodology is expected to make additional storage capacity available from mid-November 2026, allowing tailings discharge to commence while construction continues on the final embankment raise.”

This announcement has been authorised for release by the Board of Forrestania Resources Limited.

About Forrestania Resources Limited

Forrestania Resources Limited (ASX: FRS) is an Australian gold exploration and development company focused on building a significant Western Australian gold business.

Forrestania's strategy is centred on growing its gold resource inventory through disciplined exploration, value-accretive acquisitions and the advancement of high-quality development opportunities capable of supporting long-term production.

Forrestania has established a substantial portfolio of gold assets across Western Australia's premier mineral provinces, including the Southern Cross, Eastern Goldfields and Forrestania regions. These assets provide the foundation for the Company's strategy to develop two complementary processing hubs at Edna May and Lake Johnston, creating a scalable platform for future production and regional consolidation.

Supported by an experienced Board and management team with a proven track record of discovery, project development and mine operations, Forrestania is committed to creating long-term shareholder value through technical excellence, disciplined capital allocation and responsible resource development.
