What are the key risks of taking up my Entitlement?		
Risks Specific to the Company	Some of the key risks of investing in the Company are detailed below. The list of risks is not exhaustive and further details of these risks and other risks associated with an investment in the Company are detailed in Section 5. (a) Exploration risk Exploration and Mineral Resource development incorporates a high degree of technical and geological risk. The natural endowment of the ground being explored is the limiting factor and there always remains a risk of insufficient natural endowment to make an economic discovery. Detailed planning of exploration programs, with external consultant input where required, ensures the highest quality exploration targets are tested. The Board approves all exploration programs and budgets to achieve outcomes in the Company's (and Shareholders) best interests, with regular reporting provided to the Board of the results of exploration programs. The Company undertakes business development activities to source new projects for the Company with the objective of acquiring assets with a high potential for exploration success. (b) Future capital risk The Company is loss making and will not generate any operating revenue from its projects unless and until it can commence mining operations. The future	Section 5

Topic	Summary	Further Information
	capital requirements of the Company will depend on many factors including its business development activities. The Company will require additional funding in the future in order to fund its business development activities, exploration program and other Company objectives. In order to successfully develop its projects and for production to commence, the Company will require further financing in the future. Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the then market price or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to indefinitely postpone or reduce the scope of its activities and this could have a material adverse effect on the Company's activities, including resulting in the tenements being subject to forfeiture, and could affect the Company's ability to continue as a going concern.	
(c)	Climate change There are a number of climate-related factors that may affect the Company's business. Climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water, scarcity, temperature extremes, snow, earthquakes and pestilences) may have an adverse effect on the Company's ability to access its projects and therefore the Company's ability to carry out services.	
(d)	Community and social risks The Company operates in different jurisdictions with varying community, heritage and social laws and cultural practices. Community expectations are continually evolving and are managed through the development of robust strategies and maintaining strong relationships with communities.	
(e)	Dilution In certain circumstances, the Directors may issue equity securities without any vote or action by Shareholders. If the Company were to issue any equity securities the percentage ownership of Shareholders may be reduced and diluted. Options, if exercised, will also dilute the shareholding of existing Shareholders.	
(f)	Environmental The Company has environmental liabilities associated with its tenements which arise as a consequence of its operations. The Company monitors its ongoing environmental obligations and

	risks and implements rehabilitation and corrective actions as appropriate.	
	(g) Anti-bribery and corruption risk The Company's business activities and operations are located in jurisdictions with varying degrees of political and judicial stability, including some countries with a relatively high inherent risk with regards to bribery and corruption. This exposes the Company to the risk of unauthorised payments or offers of payments to or by employees, agents or distributors that could be in violation of applicable anti-corruption laws. The Company has a clear Anti-bribery and Corruption Policy, and internal controls and procedures to protect against such risks. However, there is no assurance that such controls, policies or procedures will protect the Company from potentially improper or criminal acts.	
	(h) Changes in government A rise in nationalist sentiment presents an operational risk to the Company. Sovereign risk associated with changes of government, including coup d'états, can result in sanctions. Fiscal policy changes can materially impact the profitability of the Company. Following a coup attempt in Niger from 28 to 29 August 2026, the Company continues to monitor the situation, which remains fluid. The Company has adjusted its operations in Niger during this period of continued political uncertainty and is evaluating the future viability of its operations in Niger as a result of this sovereign risk, including whether to relinquish its tenements in Niger.	
Further Information		
What is the Underwriter Offer?	The Underwriter Offer is an offer to the Lead Manager and Underwriter (and/or its nominee(s)) of 5 Underwriter Options for every \$1 raised under the Entitlement Offer. The Underwriter Options will have an exercise price of A\$0.04 each and expire on 24 October 2029. The Company will seek Official Quotation of the Underwriter Options. The terms and conditions of the Underwriter Options are detailed in Section 6.2. The offer of Underwriter Options under the Underwriter Offer will only be made to the Lead Manager and Underwriter (and/or its nominee(s)).	Sections 2.10 and 6.2.

All New Shares issued under the Entitlement Offer will rank equally with the Shares on issue as at the date of this Prospectus. For further information regarding the rights and liabilities attaching to the New Shares, refer to Section 6.1.

The purpose of the Entitlement Offer and the proposed use of funds is detailed in Section 4.

2.2 Removal of Secondary Trading Restrictions

Generally, section 707(3) of the Corporations Act requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those securities within 12 months after the date of their issue.

A secondary purpose of this Prospectus is to facilitate any potential secondary trading of any Shares which may be issued upon exercise of the Underwriter Options. Issuing the Underwriter Options under this Prospectus will enable the Lead Manager and Underwriter to on-sell the Shares issued on exercise of the Underwriter Options pursuant to *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2026/94*.

2.3 Purpose of this Prospectus

The purpose of this Prospectus is to:

- (c) ensure that the on-sale of the underlying Shares to be issued upon the exercise of the Underwriter Options is in accordance with *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2026/94*.

2.4 Entitlements Trading

The Entitlements under the Entitlement Offer are renounceable. Accordingly, there will be trading of Entitlements (including on ASX) and you may dispose of your rights to subscribe for New Shares comprising part or all of your Entitlement to any other party (subject to compliance with applicable laws). Entitlement trading is expected to commence on Thursday, 17 September 2026 and conclude on Wednesday, 30 September 2026. If you do not take up your full Entitlement and do not trade the Entitlements which you do not take up, those Entitlements that you do not take up or trade will lapse and you will not receive any payment or value for them. See Section 3 for further details.

There is no guarantee that there will be a liquid market in traded Entitlements. A lack of liquidity may impact your ability to sell your Entitlements on ASX and the price you may be able to achieve.

2.5 Minimum subscription

There is no minimum subscription for the Entitlement Offer.

2.6 Opening and closing dates

Eligible Shareholders may accept their Entitlement under the Entitlement Offer from the Opening Date until 5:00pm (AWST) on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the Listing Rules.

Where this Prospectus has been despatched to Ineligible Shareholders, this Prospectus is provided for information purposes only. The Company reserves the right to determine whether a Shareholder is an Eligible Shareholder or an Ineligible Shareholder.

By making a payment by BPAY® or EFT, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

By receiving this Prospectus, you will be taken to have acknowledged and agreed that determination of eligibility of investors for the purposes of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of the Company and their respective affiliates disclaim any duty or liability (including for negligence) in respect of that determination and the exercise or otherwise of that discretion, to the maximum extent permitted by law.

The Company has decided that it is unreasonable to make offers under the Entitlement Offer to Shareholders who have registered addresses outside Australia, New Zealand or the People's Republic of China, having regard to the number of such holders in those places and the number and value of the New Shares that they would be offered, and the cost of complying with the relevant legal and regulatory requirements in those places. The Company may (in its absolute discretion) extend the Entitlement Offer to Shareholders who have registered addresses outside Australia, New Zealand or the People's Republic of China in accordance with applicable law.

2.8

Ineligible Shareholders and Ineligible Holder nominee

This Prospectus and accompanying Entitlement and Acceptance Form do not, nor are they intended to, constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such offers.

The Company has appointed the Lead Manager and Underwriter to act as nominee (the **Ineligible Holder Nominee**) for the Ineligible Shareholders, to arrange for the sale of the Entitlements which would have been offered to them had they been eligible to participate in the Entitlement Offer.

If there is a viable market for those Entitlements and a premium over the expenses of their sale can be made, the Ineligible Holder Nominee's role is to arrange the sale of the Entitlements which would have been attributable to Ineligible Shareholders. The Ineligible Holder Nominee will distribute to the Share Registry or to the Company directly the net proceeds (if any) of the sale of Entitlements of Ineligible Shareholders (after deducting costs and expenses), to be distributed to the Ineligible Shareholders in proportion to their respective Entitlements at the Record Date. The Ineligible Holder Nominee will charge the Company a fee based on its role as nominee for the Ineligible Shareholders and the Company will reimburse to the Ineligible Holder Nominee the expenses of the Ineligible Holder Nominee. The Company has also agreed to indemnify the Ineligible Holder Nominee and its related

bodies corporate and directors, employees and agents against certain losses, claims and other customary matters.

The Ineligible Holder Nominee will have absolute and sole discretion to determine the price for which the Entitlements of Ineligible Shareholders may be sold, as well as the timing and manner of such sale (if any). Neither the Company nor the Ineligible Holder Nominee will be subject to any liability to Ineligible Shareholders (or any other party) for failure to sell the Entitlements of Ineligible Shareholders or for failure to sell them at a particular price.

If, as a result of the Ineligible Holder Nominee offering to sell or being invited to sell the Entitlements of Ineligible Shareholders, the Ineligible Holder Nominee forms the reasonable opinion that there is not a viable market for the Entitlements or a surplus of sale proceeds over expenses from the sale cannot be obtained for the Entitlements that would otherwise have been offered to the Ineligible Shareholders then those Entitlements will be allowed to lapse. In such circumstances, no money will be payable to Ineligible Shareholders.

To the extent that any Entitlements that would have been offered under the Entitlement Offer to Ineligible Shareholders (had they been entitled to participate in the Entitlement Offer) are not taken up for the issue of New Shares (including pursuant to the Ineligible Holder Nominee process above) (**Ineligible Shares**), those Ineligible Shares will be Shortfall Shares which are subject to the shortfall allocation policy detailed in Section 2.9. The price at which those Ineligible Shares would be issued is the same as the Entitlement Offer. Accordingly, there will be no net proceeds from those issues in excess of the Offer Price under the Entitlement Offer and Ineligible Shareholders will not receive any payment or value in connection with those Ineligible Shares.

2.9 Shortfall Offer and Allocation Policy

Any New Shares that are not taken up under the Entitlement Offer (including any Ineligible Shares) (**Shortfall Shares**) will be offered under this Prospectus (**Shortfall Offer**).

Under this Prospectus, the Company offers to issue the Shortfall Shares to investors at the same Offer Price per New Share as that offered under the Entitlement Offer with the rights of the New Shares as detailed in Section 6.1.

Eligible Shareholders may apply for Shortfall Shares by completing the relevant section of their Entitlement and Acceptance Form (refer to Section 3 for further details).

The Company intends to allocate Shortfall Shares according to the following priority (subject to the Board's discretion detailed below):

- (a) firstly, to each Eligible Shareholder who applied for Shortfall Shares through the Shortfall Offer;
- (b) then, to any other sophisticated or professional investors (at the Board's discretion), provided that no investor will increase their voting power in the Company above 20% through the allocation of those Shortfall Shares; and
- (c) then, the Lead Manager and Underwriter will be allocated the remaining Shortfall Shares (if any) pursuant to the Underwriting Agreement up to the Underwritten Amount. If there remains unallocated Shortfall Shares, the Board at its sole discretion, subject to compliance with any applicable laws, may allocate any unallocated Shortfall Shares to sophisticated or professional investors.

It is an express term of the Shortfall Offer that Applicants are bound to accept a lesser number of Shortfall Shares allocated to them than applied for.

Applications for Shortfall Shares may be scaled back at the discretion of the Board (in consultation with the Lead Manager and Underwriter). An Application for Shortfall Shares accompanied by payment of Application Monies does not guarantee the allotment of Shortfall Shares. The Company reserves the rights to issue, subject to the terms of the Underwriting Agreement and this Prospectus, to an Applicant a lesser number of Shortfall Shares than the number applied for, reject an Application, or not proceed with the issue of the Shortfall Shares or part thereof. If the number of Shortfall Shares issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

The Directors reserve, subject to compliance with the Corporations Act and the Listing Rules, the right to place Shortfall Shares within three months of the Closing Date at a price not less than the Offer Price.

Other than to the Lead Manager and Underwriter pursuant to the terms of the Underwriting Agreement, the Directors will seek to ensure that no person will be issued Shortfall Shares if such issue will result in that person's voting power in the Company exceeding 20% or increasing at all, if they already hold voting power in the Company above 20%.

2.10 Underwriter Offer

This Prospectus includes an ancillary offer to the Lead Manager and Underwriter (and/or its nominee(s)) of 5 Underwriter Options for every \$1 raised under the Entitlement Offer (**Underwriter Offer**).

Refer to Section 6.2 for details of the rights and liabilities attaching to the Underwriter Options.

The Underwriter Offer is an offer to the Lead Manager and Underwriter (and/or its nominee(s)) only.

Only the Lead Manager and Underwriter (and/or its nominee(s)) can accept an offer under the Underwriter Offer. An Underwriter Offer Application Form will be issued to the Lead Manager and Underwriter (and/or its nominee(s)), together with a copy of this Prospectus.

No brokerage, commission or stamp duty is payable by the Lead Manager and Underwriter (and/or its nominee(s)) on subscription or issue of the Underwriter Options pursuant to the Underwriter Offer.

Completed Underwriter Offer Application Forms should be received by the Company prior to 5:00pm (AWST) on the Closing Date.

2.11 Fractional Entitlements

Fractional Entitlements will be rounded up or down to the nearest whole number, with Entitlements to less than half of a New Security rounded down. For this purpose, holdings in the same name are aggregated for calculation of Entitlements, to the extent permitted by the Listing Rules. If the Company considers that holdings have been split to take advantage of rounding, the Company reserves the right to aggregate holdings held by associated Shareholders for the purpose of calculating Entitlements, to the extent permitted by the Listing Rules.

2.12 Underwriting

The Entitlement Offer is partially underwritten up to 80,000,000 New Shares for A\$800,000 (**Underwritten Amount**) by the Lead Manager and Underwriter.

A summary of the terms and conditions of the Underwriting Agreement, including the circumstances in which the Lead Manager and Underwriter may terminate the Underwriting Agreement, is set out in Section 7.4.

2.13 Risks of the Offers

As with any securities investment, there are risks associated with investing in the Company. However, having regard to the risks applicable to the Company and its business detailed in Section 5, Eligible Shareholders should be aware that an investment in the New Shares should be considered highly speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment.

Before deciding to invest in the Company, investors should read this Prospectus in its entirety, in particular the specific risks associated with an investment in the Company (detailed in Section 5), and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

2.14 Application Forms and BPAY® or EFT payments

(a) Entitlement Offer

A personalised Entitlement and Acceptance Form will be issued to the Eligible Shareholders together with a copy of this Prospectus. The Entitlement and Acceptance Form will enable Eligible Shareholders who take up their Entitlement in full to apply for Shortfall Shares which may be available under the Shortfall Offer.

Acceptance of a BPAY® or EFT payment by the Company creates a legally binding contract between the Applicant and the Company for the number of New Shares (including any Shortfall Shares) accepted by the Company. The Entitlement and Acceptance Form does not need to be signed to be a binding acceptance of New Shares. In the event an Eligible Shareholder who applies for Shortfall Shares is not allocated any Shortfall Shares or is allocated less than the amount applied for, the excess Application Monies will be refunded to the Applicant (without interest).

Full details on how to apply for New Shares under the Entitlement Offer are provided in Section 3.

(b) Shortfall Offer

A Shortfall Application Form (together with a copy of this Prospectus) will be provided to certain persons wishing to participate in the Shortfall Offer upon invitation from the Company. Acceptance of a completed Shortfall Application Form by the Company creates a legally binding contract between the Applicant and the Company for the number of Shortfall Shares accepted by the Company. The Shortfall Application Form does not need to be signed to be a binding acceptance of Shortfall Shares.

If the Shortfall Application Form is not completed correctly it may still be treated as valid. The Directors' decision whether to treat a completed Shortfall Application Form as valid and how to construe, amend or complete the Shortfall Application Form is final.

(c) Underwriter Offer

The Underwriter Offer is an offer to the Lead Manager and Underwriter (and/or its nominee(s)) only.

An Underwriter Offer Application Form will be issued to the Lead Manager and Underwriter (and/or its nominee(s)), together with a copy of the Prospectus. Acceptance of a completed Underwriter Offer Application Form by the Company creates a legally binding contract between the Lead Manager and Underwriter and the Company for the number of Underwriter Options accepted by the Company. The Underwriter Offer Application Form does not need to be signed to be a binding acceptance of Underwriter Options under the Underwriter Offer.

If the Underwriter Offer Application Form is not completed correctly it may still be treated as valid. The Directors' decision whether to treat a completed Underwriter Offer Application Form as valid and how to construe, amend or complete the Underwriter Offer Application Form is final.

2.15 Issue and Dispatch

All New Shares under the Entitlement Offer are expected to be issued on the dates specified in the Indicative Timetable.

It is the responsibility of Applicants to determine their allocation prior to trading in New Shares. Applicants who sell New Shares before they receive their holding statements will do so at their own risk.

Shortfall Shares may be issued within three months after 5:00pm (AWST) on the Closing Date.

2.16 **Application Monies held on trust**

All Application Monies will be held on trust in a bank account maintained solely for the purpose of depositing Application Monies received pursuant to this Prospectus until the New Shares are issued. All Application Monies will be returned (without interest) if the New Shares are not issued.

2.17 **Official Quotation**

Application will be made to ASX no later than seven days after the date of this Prospectus for Official Quotation of the New Securities offered under this Prospectus.

If ASX does not grant Official Quotation of the New Shares within three months after the date of this Prospectus (or such period as the ASX allows):

- (a) none of the New Shares offered under this Prospectus will be issued or allotted and the Company will repay, as soon as practicable, without interest, all Application Monies received pursuant to this Prospectus; and/or
- (b) the Underwriter Options offered under this Prospectus will not be able to be traded on ASX.

The Company will seek Official Quotation of the Shares issued upon exercise of the Underwriter Options.

ASX takes no responsibility for the contents of this Prospectus. The fact that ASX may grant Official Quotation is not to be taken in any way as an indication of the merits of the Company or its Securities.

2.18 **Withdrawal and Cooling-Off Rights**

Cooling off rights do not apply to an investment in New Shares under the Entitlement Offer. You cannot withdraw your payment once it has been accepted unless permitted to do so in accordance with the Corporations Act.

The Directors may at any time decide to withdraw this Prospectus and the Entitlement Offer, in which case, the Company will return all Application Monies (without interest) in accordance with the Corporations Act.

2.19 **Nominees**

The Entitlement Offer is only being made to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares (e.g. for the purposes of determining whether any such persons may participate in the Entitlement Offer).

3 Actions required by Applicants

3.1 How to apply

Your Entitlement is detailed on the accompanying personalised entitlement and acceptance form (**Entitlement and Acceptance Form**) and has been calculated as one (1) New Share for every one (1) Share you held as at the Record Date. If the result is not a whole number, fractional Entitlements will be rounded up or down to the nearest whole number, with Entitlements to less than half of a New Share rounded down.

If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Acceptance Form and you will have separate Entitlements for each separate holding.

If you are an Eligible Shareholder, you may do any one of the following:

- (a) take up all of your Entitlement;
- (b) take up all of your Entitlement and apply for Shortfall Shares in excess of your Entitlement;
- (c) take up part of your Entitlement, and allow all of the remaining balance to lapse;
- (d) sell all or a proportion of your Entitlement on ASX (or sell the Entitlement other than on ASX) and allow any balance to lapse;
- (e) take up a proportion of your Entitlement and sell the balance on ASX (or sell the balance other than on ASX); or
- (f) do nothing, in which case all of your Entitlement will lapse and you will receive no value for those lapsed Entitlements.

(a) **If you wish to take up all of your Entitlement**

If you decide to take up all of your Entitlement you can make a payment of the number of New Shares you are entitled to (as shown on your personalised Entitlement and Acceptance Form) multiplied by the Offer Price per New Share by BPAY® or EFT in accordance with the instructions on the Entitlement and Acceptance Form so that funds are received by no later than 5:00pm (AWST) on the Closing Date.

Further details regarding payment methods are detailed in Section 3.4 below.

If you take up all of your Entitlement you will be issued your New Shares on or about Wednesday, 14 October 2026.

Any New Shares not taken up by the Closing Date may be made available under the Shortfall Offer.

The Company also reserves the right (in its absolute discretion) to reduce the number of New Shares issued to Eligible Shareholders, or persons claiming to be Eligible Shareholders, if the Company believes their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to the Company's satisfaction.

(b) **If you wish to take up all of your Entitlement and apply for Shortfall Shares**

If you decide to take up all of your Entitlement and apply for New Shares in excess of your Entitlement by applying for Shortfall Shares, you can make a payment of the number of New Shares you are entitled to (as shown on your personalised Entitlement and Acceptance Form) plus the number of Shortfall Shares you wish to apply for, multiplied by the Offer Price per New Share by BPAY® or EFT in accordance with the instructions on the Entitlement and Acceptance Form so that funds are received by no later than 5:00pm (AWST) on the Closing Date.

Further details regarding payment methods are detailed in Section 3.4 below.

Please note that the Shortfall Shares will be allocated in accordance with the policy set out in Section 2.9, and there is a chance you will be allocated less than the number of Shortfall Shares you have applied for (or none at all). Please read the instructions on the Entitlement and Acceptance Form carefully.

If you take up all of your Entitlement and apply for New Shares in excess of your Entitlement by applying for Shortfall Shares you will be issued your New Shares and Shortfall Shares on or about Wednesday, 14 October 2026.

In the event you are allocated less Shortfall Shares than the number you have applied for, the excess Application Monies will be refunded to you (without interest).

(c) **If you wish to take up part of your Entitlement and allow the remaining balance to lapse**

If you decide to take up part of your Entitlement, and allow the balance to lapse, you can make a payment of the number of New Shares you wish to subscribe for (being less than the number shown on your personalised Entitlement and Acceptance Form) multiplied by the Offer Price per New Share by BPAY® or EFT in accordance with the instructions on the Entitlement and Acceptance Form so that funds are received by no later than 5:00pm (AWST) on the Closing Date. The Company will treat you as applying for as many New Shares as your payment will pay for in full.

Further details regarding payment methods are detailed in Section 3.4 below.

If you take up and pay part of your Entitlement before the Closing Date you will be issued your New Shares on or about Wednesday, 14 October 2026. The Company's decision on the number of New Shares to be issued to you will be final.

The Company also reserves the right (in its absolute discretion) to reduce the number of New Shares issued to Eligible Shareholders, or persons claiming to be Eligible Shareholders, if the Company believes their claims to be overstated or if they or their nominees fail to provide information to substantiate their claims to the Company's satisfaction.

Eligible Shareholders who do not participate fully in the Entitlement Offer may have their percentage holding in the Company reduced by the Entitlement Offer.

You will not receive any value for the Entitlements you choose not to take up and they will lapse and become Shortfall Shares.

(d) **Selling all or a proportion of your Entitlement on ASX**

The Entitlements under the Entitlement Offer are renounceable which means that all or part of an Eligible Shareholder's Entitlements under the Entitlement Offer may be traded on ASX. If you wish to sell part or all of your Entitlement on ASX, you should provide instructions to your stockbroker regarding the Entitlement you wish to sell on ASX. Trading of Entitlements will commence on Thursday, 17 September 2026 and conclude on Wednesday, 30 September 2026.

There is no guarantee that an Eligible Shareholder will be able to sell all or any part of their Entitlement on ASX or that any particular price will be paid for any Entitlements sold on ASX.

(e) **Selling all or a proportion of your Entitlement other than on ASX**

You may elect to transfer all or a proportion of your Entitlement to another person other than on ASX. If the purchaser of your Entitlement is an Ineligible Shareholder or a person that would be an Ineligible Shareholder if they were a registered holder of Shares, that purchaser will not be able to take up the Entitlement they have purchased.

If you are a Shareholder on the issuer sponsored sub-register and you wish to transfer all or a proportion of your Entitlement to another person other than on ASX, forward a completed standard renunciation and transfer form (obtainable from the Share Registry), to the Share Registry by delivery or by post at any time after the issue of this Prospectus and on or before the Closing Date.

The relevant transferee of your Entitlement will need to make the applicable EFT payment (by no later than 5:00pm (AWST) on the Closing Date) of the Offer Price for the New Shares for which they wish to subscribe.

If you wish to transfer all or a proportion of your Entitlement to or from another person on the CHESS sub-register you must engage your CHESS controlling participant (usually your stockbroker). If the transferee wants to exercise some or all of the Entitlement, you should follow your stockbroker's instructions as to the most appropriate way to take up the Entitlement on their behalf by no later than 5:00pm (AWST) on the Closing Date.

(f) **If you take no action**

Shareholders should be aware that their Entitlement may have value. Entitlements are renounceable, which enables Eligible Shareholders who do not wish to take up part or all of their Entitlement to seek to sell or trade all or some of their Entitlement as detailed above.

If you do not wish to accept or trade any part of your Entitlement, you are not obliged to do anything. If you do not take up your Entitlement or dispose of your Entitlement by the Closing Date, your Entitlement will lapse and you will not receive any value for your Entitlement.

Eligible Shareholders who do not participate fully in the Entitlement Offer are expected to have their percentage holding in the Company reduced by the Entitlement Offer.

3.2 **Ineligible Shareholders**

If you are an Ineligible Shareholder, you may not accept any of, or do anything in relation to, your Entitlement under the Entitlement Offer.

3.3 **Applications for Shortfall Shares under the Shortfall Offer**

Applicants for Shortfall Shares under the Shortfall Offer should pay Application Monies via BPAY® or EFT by following the instructions referred to in this Prospectus and on the Shortfall Application Form, including the number of Shortfall Shares they wish to apply for under the Shortfall Offer and the total Application Monies (calculated at A\$0.01 per New Share applied for under the Shortfall Offer). Please read the instructions on the Shortfall Application Form carefully.

3.4 **Payment**

The offer price of New Shares under the Entitlement Offer or Shortfall Offer is \$0.01 per New Share.

For Eligible Shareholders participating in the Entitlement Offer, Application Monies must be received by the Company by 5:00pm (AWST) on the Closing Date.

Eligible Shareholders should be aware that their own financial institution may implement earlier cut off times with regard to electronic payments and it is the responsibility of Applicants to ensure that funds are submitted through BPAY® by no later than 5:00pm (AWST) on the Closing Date. 3.6 **Brokerage**

No brokerage or stamp duty is payable by Eligible Shareholders who accept their Entitlement.

4 Purpose and Effect of the Entitlement Offer

4.1 Purpose of the Entitlement Offer

The purpose of the Entitlement Offer is to raise approximately A\$2,640,339 (before costs) (assuming Eligible Shareholders subscribe for their Entitlement in full and assuming no Options are exercised into Shares prior to the Record Date).

The aggregate funds raised from the Entitlement Offer are expected to be used in accordance with the table below:

Use of funds	(A\$)
Exploration on existing Kazakhstan projects	2,200,000
Project generation	50,000
New project acquisition and exploration	50,000
Corporate costs	150,000
Other working capital	28,320
Costs of the Entitlement Offer	162,019 ¹
TOTAL	2,640,339

Notes:

1. This figure is indicative only. Refer to Section 7.10 for further details.

If the Entitlement Offer is not fully subscribed, the Company will re-evaluate its exploration activities and scale back the above items accordingly.

The above table is a statement of the Board's current intentions as at the date of this Prospectus. However, Shareholders should note that, as with any budget, the allocation of funds set out in the above table may change depending on a number of factors, including the outcome of operational and development activities, regulatory developments, market and general economic conditions and environmental factors. In light of this, the Board reserves the right to alter the way the funds are applied.

4.2 Effect of the Entitlement Offer

Assuming the Entitlement Offer is fully subscribed, the principal effect of the Entitlement Offer will be to:

- (a) increase the cash reserves of the Company by A\$2,640,339 (before costs); and
- (b) increase the number of Shares on issue from 264,033,878 as at the date of this Prospectus to up to 528,067,756 following completion of the Entitlement Offer.

If any Options are exercised into Shares before the Record Date, the Shares issued on such exercise will be eligible to participate in the Entitlement Offer.

The below pro-forma Statement of Financial Position is based on the unaudited 30 June 2026 financial statements.

3. The maximum number of Underwriter Options to be issued under the Underwriter Offer (subject to rounding) and assumes that the Entitlement Offer is fully subscribed and no Options are exercised before the Record Date.

4.4 Effect on Control

It is a general rule under section 606 of the Corporations Act that a person cannot acquire a relevant interest in issued voting shares in a company if, because of the transaction in relation to securities, a person's Voting Power in the company increases from 20% or below to more than 20%, or from a starting point that is above 20% and below 90%.

However, exceptions to section 606 of the Corporations Act exist where an increase in a person's Voting Power occurs as a result of an underwriter being issued shares under a prospectus.

Following the Entitlement Offer and upon completion of the underwriting pursuant to the Underwriting Agreement, the Voting Power of the Underwriter may rise to a maximum of 23.25%. The Underwriter may increase its voting power to this extent by relying on the exception contained in item 13 of section 611 of the Corporations Act.

The following tables show the indicative number of Shares to be held by, and the approximate indicative Voting Power in the Company of, the Underwriter upon completion of the Entitlement Offer and the underwriting, under certain pro forma scenarios:

- (a) Entitlement Offer is fully subscribed:

Shareholder	At the date of this Prospectus		If the Entitlement Offer is fully subscribed	
	Number of Shares	Voting Power (%)	Number of Shares	Voting Power (%)
Mahe Capital	Nil	0%	Nil	0%

- (b) Entitlement Offer is not fully subscribed and no Shortfall Shares are taken up except for by the Underwriter pursuant to the Underwriting Agreement:

Shareholder	A: If 75% acceptance of Entitlements		B: If 50% acceptance of Entitlements		C: If 0% acceptance of Entitlements	
	No. of Shares	Voting Power (%)	No. of Shares	Voting Power (%)	No. of Shares	Voting Power (%)
Mahe Capital	Nil	0%	Nil	0%	80,000,000	23.25%

Notes to tables:

1. The Voting Power of Mahe Capital is subject to changes resulting from Ineligible Shareholders being unable to participate in the Entitlement Offer and the actual number of Shares offered and issued under the Entitlement Offer.

2. All valid applications received by the Company will go in relief of the obligations of the Underwriter. Therefore, no Shortfall Shares will be issued to the Underwriter in Column A (75% acceptance) and Column B (50% acceptance) of the table.

Based on the above matters, the potential effect which the issue of New Shares pursuant to the Entitlement Offer (including the Shortfall Shares) will have on the control of the Company is as follows:

- if all Eligible Shareholders take up their entitlements under the Entitlement Offer, the New Shares issued under the Entitlement Offer will have no effect on the control of the Company and all Shareholders will hold the same percentage interest in the Company, subject only to changes resulting from Ineligible Shareholders being unable to participate in the Entitlement Offer;
- in the more likely event that there is a Shortfall in the Entitlement Offer, Eligible Shareholders who do not subscribe for their full Entitlement of New Shares under the Entitlement Offer will be diluted relative to those Shareholders who subscribe for some or all of their Entitlement, and will be diluted by any take up of Shortfall Shares; and
- the Voting Power in the Company held by the Underwriter could increase from the current level of 0%, to up to a maximum of 23.25% (assuming no Eligible Shareholders take up their Entitlements under the Entitlement Offer, assuming no Shortfall Shares are allocated to any sub-underwriters or placed to investors and assuming the Underwriter takes up the maximum number of 80,000,000 New Shares pursuant to the Underwriting Agreement. It is however anticipated by the Company that the Voting Power of the Underwriter as a result of the Offers will be less than 20%, having regard to the likely scenario of Shortfall Shares allocated to sub-underwriters or placed to investors.

Control will ultimately be affected by the level of applications under the Entitlement Offer. The final percentage interests held by Shareholders of the Company are dependent on, among other things, the extent to which Eligible Shareholders take up their Entitlements.

With the exception of the issue of Shortfall Shares to the Underwriter pursuant to the Underwriting Agreement, no Shortfall Shares will be issued to any Shareholder or Applicant pursuant to this Prospectus if, in the view of the Directors, to do so would increase that Shareholder's or Applicant's Voting Power in the Company above 20% or otherwise result in a breach of the Listing Rules, the Corporations Act or any other applicable law.

4.5 Potential Dilution Effect

If you do not participate in the Entitlement Offer, your holdings in the Company will be diluted as a result of the Entitlement Offer (compared with your position before the Entitlement Offer), after the issue of New Shares under the Entitlement Offer.

The following are examples of how any dilution may impact you if you do not participate in the Entitlement Offer, assuming the maximum number of New Shares are issued under the Entitlement Offer:

Example Shareholder	Shares held at the Record Date	% at the Record Date	Entitlement under the Entitlement Offer (subject to rounding)	Holding if Entitlement not taken up	% if the maximum number of New Shares is issued pursuant to the Entitlement Offer (subject to rounding)
Shareholder 1	100,000,000	38%	100,000,000	100,000,000	19%
Shareholder 2	50,000,000	19%	50,000,000	50,000,000	9%
Shareholder 3	20,000,000	8%	20,000,000	20,000,000	4%
Shareholder 4	10,000,000	4%	10,000,000	10,000,000	2%
Shareholder 5	5,000,000	2%	5,000,000	5,000,000	1%

5 Risks

The New Securities offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free. The proposed future activities of the Company are subject to a number of risks and other factors that may affect its future performance. Some of these risks can be mitigated by the use of safeguards and appropriate controls. However, many of the risks are outside the control of the Directors and management of the Company and cannot be mitigated.

The risks described in this Section 5 are not an exhaustive list of the risks faced by the Company or by investors in the Company. It should be considered in conjunction with other information in this Prospectus. The risks described in, and others not specifically referred to, in this Section 5 may in the future materially affect the financial performance and position of the Company and the value of New Securities offered under this Prospectus. The New Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, return of capital or the market value of those securities. The risks described in this Section 5 also necessarily include forward looking statements. Actual events may be materially different to those described and may therefore affect the Company in a different way.

Investors should be aware that the performance of the Company may be affected and the value of its Shares may rise or fall over any given period. None of the Directors or any person associated with the Company guarantees the Company's performance, the performance of the New Shares or the market price at which the New Shares will trade. The Directors strongly recommend that potential investors consider the risks detailed in this Section 5, together with information contained elsewhere in this Prospectus, and consult their professional advisers, before they decide whether to apply for New Securities.

5.1 Risks specific to the Company

(a) Exploration risk

Exploration and Mineral Resource development incorporates a high degree of technical and geological risk. The natural endowment of the ground being explored is the limiting factor and there always remains a risk of insufficient natural endowment to make an economic discovery. Detailed planning of exploration programs, with external consultant input where required, ensures the highest quality exploration targets are tested. The Board approves all exploration programs and budgets to achieve outcomes in the Company's (and Shareholders) best interests, with regular reporting provided to the Board of the results of exploration programs.

The Company undertakes business development activities to source new projects for the Company with the objective of acquiring assets with a high potential for exploration success.

(b) Future capital risk

The Company is loss making and will not generate any operating revenue from its projects unless and until it can commence mining operations. The future capital requirements of the Company will depend on many factors including its business development activities. The Company will require additional funding in the future in order to fund its business development activities, exploration program and other Company objectives.

In order to successfully develop its projects and for production to commence, the Company will require further financing in the future. Any additional equity financing may be dilutive to Shareholders, may be undertaken at lower prices than the then market price or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may involve restrictions on financing and operating activities.

If the Company is unable to obtain additional financing as needed, it may be required to indefinitely postpone or reduce the scope of its activities and this could have a material adverse effect on the Company's activities, including resulting in the tenements being subject to forfeiture, and could affect the Company's ability to continue as a going concern.

(c) Regulatory and compliance risk

New or evolving regulations and international standards are outside the Company's control and are often complex and difficult to predict. The potential development of international opportunities can be jeopardised by changes to fiscal or regulatory regimes, adverse changes to tax laws, difficulties in interpreting or complying with local laws, material differences in sustainability standards and practices, or changes to existing political, judicial or administrative policies and changing community expectations.

Amendments to laws, regulations and permits governing operations and activities of mining companies, or the more stringent implementation thereof, could have a material adverse impact on the Company and cause increases in exploration expenses, operating costs, or abandonment or delays in exploration activities.

Further, there can be no assurance that the renewal of permits which the Company may require for future exploration will be obtainable on reasonable terms or on a timely basis, or that such laws and regulations would not have an adverse effect on any project which the Company may undertake.

Failure to comply with applicable laws, regulations and permits may result in enforcement actions thereunder, including the forfeiture of claims, orders issued by regulatory or judicial authorities requiring operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment or costly remedial actions. The Company may be required to compensate those suffering loss or damage by reason of its mineral exploration activities and may have civil or criminal fines or penalties imposed for violations of such laws, regulations and permits.

(d) **Climate change**

There are a number of climate-related factors that may affect the Company's business. Climate change or prolonged periods of adverse weather and climatic conditions (including rising sea levels, floods, hail, drought, water, scarcity, temperature extremes, snow, earthquakes and pestilences) may have an adverse effect on the Company's ability to access its projects and therefore the Company's ability to carry out services.

(e) **Community and social risks**

The Company operates in different jurisdictions with varying community, heritage and social laws and cultural practices. Community expectations are continually evolving and are managed through the development of robust strategies and maintaining strong relationships with communities.

(f) **Dilution**

In certain circumstances, the Directors may issue equity securities without any vote or action by Shareholders. If the Company were to issue any equity securities the percentage ownership of Shareholders may be reduced and diluted. Options, if exercised, will also dilute the shareholding of existing Shareholders.

(g) **Environmental**

The Company has environmental liabilities associated with its tenements which arise as a consequence of its operations. The Company monitors its ongoing environmental obligations and risks and implements rehabilitation and corrective actions as appropriate.

(h) **Loss of key management personnel**

The resources sector is currently highly competitive with significant cost escalation and wage growth. The loss of key management personnel would impact the Company's ability to undertake activities in a timely manner.

The Board maintains regular contact with the Company's executive and other personnel to ensure the Board is fully informed of all material business issues. The Company undertakes

annual reviews for key roles to ensure competitive contracts are in place and has contractual notice periods in place to minimise business disruption.

(i) **Market risk**

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments.

The Company is exposed to movements in market interest rates on short term deposits. The policy is to monitor the interest rate yield curve out to 120 days to ensure a balance is maintained between the liquidity of cash assets and the interest rate return. The Company does not have short or long-term debt, and therefore this risk is minimal.

(j) **Mineral Resources**

The Mineral Resources for the Company's projects are estimates only and no assurance can be given that they will be realised.

(k) **Occupational health and safety risks**

The Company seeks to ensure that it provides a safe workplace to minimise risk of harm to its employees and contractors. It achieves this through an appropriate safety culture, safety systems, training, and emergency preparedness.

(l) **Anti-bribery and corruption risk**

The Company's business activities and operations are located in jurisdictions with varying degrees of political and judicial stability, including some countries with a relatively high inherent risk with regards to bribery and corruption. This exposes the Company to the risk of unauthorised payments or offers of payments to or by employees, agents or distributors that could be in violation of applicable anti-corruption laws.

The Company has a clear Anti-bribery and Corruption Policy, and internal controls and procedures to protect against such risks. However, there is no assurance that such controls, policies or procedures will protect the Company from potentially improper or criminal acts.

(m) **Changes in government**

A rise in nationalist sentiment presents an operational risk to the Company. Sovereign risk associated with changes of government, including coup d'états, can result in sanctions. Fiscal policy changes can materially impact the profitability of the Company.

Following a coup attempt in Niger from 28 to 29 August 2026, the Company continues to monitor the situation, which remains fluid. The Company has adjusted its operations in Niger during this period of continued political uncertainty and is evaluating the future viability of its operations in Niger as a result of this sovereign risk, including whether to relinquish its tenements in Niger.

(n) **Sovereign and geopolitical risk**

The Company's projects are located in Kazakhstan, Niger and Botswana. Uncertainty exists as to the stability of the regulatory and political environment in each country, but especially in Niger, and there is potential for sovereign events to have a material impact on the investment and security environment in the country. The Company cannot guarantee that the governments in Kazakhstan, Niger or Botswana will remain stable or supportive of the mining and resources sector and existing ownership structures. The Company manages sovereign risk through closely monitoring political developments and events.

Changes, if any, in mining or investment policies or shifts in political attitude may adversely affect the Company's operations. Operations may be affected in varying degrees by government regulations with respect to, but not limited to, restrictions on production, price

controls, export controls, currency remittance, income taxes, expropriation of property, foreign investment, maintenance of claims, environmental legislation, land use, land claims of local people, water use and mine safety.

Failure to comply strictly with applicable laws, regulations and local practices relating to mineral right applications and tenure could result in loss, reduction or expropriation of entitlements, or the imposition of additional local or foreign parties as joint venture partners with varied or other interests. The occurrence of these various factors and uncertainties cannot be accurately predicted and could have an adverse effect on the Company's business, financial condition and results of operations.

Changes in policy, technological innovation and consumer or investor preferences could adversely impact the Company's business strategy, particularly in the event of a transition (which may occur in unpredictable ways) to a lower-carbon economy.

(o) **Supplier risk**

The current economic climate has impacted both the cost and availability of key suppliers (drill contractors, analytical laboratories, labour hire, consultants etc) to allow the Company to conduct exploration activity in a timely manner.

In order to mitigate these risks, the Company:

- (i) Maintains contact with multiple suppliers for services; and
- (ii) Plans activities ahead of time, taking into account Board approved budget allocations and work programs, to ensure sufficient notice of work can be provided.

(p) **Underwriting risk**

The Company has entered into the Underwriting Agreement whereby the Lead Manager and Underwriter has agreed to partially underwrite the Entitlement Offer, subject to the terms and conditions of the Underwriting Agreement. If certain conditions are not satisfied or certain termination events occur, the Lead Manager and Underwriter may terminate the Underwriting Agreement. Termination of the Underwriting Agreement may have a material adverse impact on the proceeds raised under the Entitlement Offer. Termination of the Underwriting Agreement could materially adversely affect the Company's business, cash flow, financial condition and results. Further details in respect of the Underwriting Agreement, including specific termination events, are set out in Section 7.4.

5.2 **General Risks**

(a) **Securities investments**

There are risks associated with any securities investment.

There is no guarantee that an active trading market in Shares will continue or that the price of Shares will increase. The prices at which Shares trade may fluctuate in response to a number of factors.

Further, the stock market is prone to price and volume fluctuations. There can be no guarantee that trading prices will be sustained. These factors may materially affect the market price of the Shares, regardless of the Company's operational performance.

Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(b) **Economic risk**

Changes in the general economic climate in which the Company operates may adversely affect the financial performance of the Company. Similarly, share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Factors that may contribute to that general economic climate and the market price of Shares include, but are not limited to:

- (i) changes in government policies, taxation and other laws;
- (ii) the strength of the equity and share markets in Australia and throughout the world;
- (iii) movement in, or outlook on, exchange rates, interest rates and inflation rates;
- (iv) industrial disputes in Australia and overseas;
- (v) changes in investor sentiment toward particular market sectors or commodities;
- (vi) financial failure or default by an entity with which the Company may become involved in a contractual relationship; and
- (vii) natural disasters, social upheaval, war (such as impacts of the war in Ukraine or Gaza) or acts of terrorism.

(c) **Tax law and application**

The application of and changes in relevant tax laws (such as income tax, goods and services tax (or equivalent) and stamp duty), rules relating to deductible liabilities, or changes in the way those tax laws are interpreted, will or may impact the tax liabilities of the Company or the tax treatment of a Shareholder's investment. An interpretation or application of tax laws or regulations by a relevant tax authority that is contrary to the Company's view of those laws may increase the amount of tax paid or payable by the Company.

Both the level and basis of tax may change. Any changes to the current rates of taxes and/or any changes in tax rules and tax arrangements may increase the amount of tax paid or payable by the Company and may also impact Shareholders.

(d) **Commodity price volatility and exchange rate risks**

The Company is exposed to the risks of commodity price volatility and exchange rate fluctuations increasing the Company's costs.

Also, if the Company achieves success leading to mineral production (which may never occur), the revenue it will derive through the sale of product will expose the potential income of the Company to commodity price and exchange rate risks.

Commodity prices and exchange rates fluctuate and are affected by numerous factors beyond the control of the Company.

(e) **Competition**

Like many industries, the resources industry is subject to domestic and global competition. The Company has no influence or control over the activities or actions of its competitors and these activities or actions may positively or negatively affect the operating and financial performance of the Company's projects and business.

Many of these companies have greater financial and other resources than the Company and, as a result, may be in a better position to compete for future business opportunities. Many of the Company's competitors not only explore for and produce minerals, but also carry out refining operations and produce other products on a worldwide basis. There can be no assurance that the Company can compete effectively with these companies.

(f) **Litigation risks**

Legal proceedings may arise from time to time in the course of the Company's activities. Legal proceedings brought by third parties including but not limited to joint venture partners or employees could negatively impact the Company.

(g) **Unforeseen expenses**

The Company may incur unforeseen expenses. In those circumstances, the expenditure proposals of the Company may be adversely affected.

(h) **Force Majeure**

The Company's projects now or in the future may be adversely affected by risks outside the control of the Company such as labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(i) **Insurance**

The Company intends to insure its operations in accordance with industry practice. However, insurance of all risks associated with exploration, development and mining activities is not always available and, where it is available, the cost may be prohibitively high. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

(j) **Accounting standards**

Australian Accounting Standards (**AAS**) are adopted by the Australian Accounting Standards Board (**AASB**) and are not within the control of the Company and the Directors. The AASB may, from time to time, introduce new or refined AAS, which may affect the future measurement and recognition of key statement of profit or loss and statement of financial position items. There is also a risk that interpretation of existing AAS, including those relating to the measurement and recognition of key statement of profit or loss or statement of financial position items may differ. Any changes to the AAS or to the interpretation of those standards may have an adverse effect on the reported financial performance and position of the Company.

(k) **Expected future events may not occur**

Certain statements in this Prospectus (and in the Company's ASX announcements) constitute forward looking statements. Such forward looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance and achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward looking statements. Given these uncertainties, prospective Shareholders should not place undue reliance on such forward-looking statements. 6 Rights attaching to New Securities

6.1 Rights attaching to New Shares

A summary of the rights attaching to New Shares is detailed below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge or can be obtained from the Company's website at www.barysresources.com) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities that attach to New Shares in any specific circumstances, the Shareholder should seek legal advice.

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution.

- (i) on a show of hands, each Shareholder present in person and each person as a proxy, attorney or representative of a Shareholder has one vote; and
- (ii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by them, or in respect of which he is appointed a proxy, attorney or representative, have one vote for the Share, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

(c) Dividend rights

The Directors may from time to time declare and pay or credit a dividend in accordance with the Corporations Act. Subject to any special right as to dividends attaching to a Share, the Directors may from time to time decide to pay a dividend to the Shareholder entitled to the dividend which shall be payable on all the Shares according to the proportion that the amount paid (excluding amounts credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

No dividends shall be payable except out of profits. No interest is payable in respect of dividends.

(d) Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution of the Company, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

As the New Shares under this Prospectus are fully paid shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

(f) **Transfer of Shares**

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the Listing Rules.

(g) **Variation of Rights**

Pursuant to section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three-quarters of the issued Shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the Shares of that class.

(h) **Alteration of Constitution**

The Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

6.2 **Terms and conditions of Underwriter Options**

The Company will issue Underwriter Options pursuant to the Underwriter Offer. The terms of the Underwriter Options are below:

Each Underwriter Option will expire on 24 October 2029 (**Expiry Date**).

(c) **Exercise Period**

Each Underwriter Option is exercisable at any time before the Expiry Date (**Exercise Period**). After this time, any unexercised Underwriter Options will automatically lapse.

(d) **Notice of Exercise**

The Underwriter Options may be exercised by notice in writing to the Company (**Notice of Exercise**) and payment of the Exercise Price for each Underwriter Option being exercised. Any Notice of Exercise of an Underwriter Option received by the Company will be deemed to be a notice of the exercise of that Underwriter Option at the date of receipt.

- (i) notice of, or to vote or attend at, a meeting of the Shareholders;

If the Company makes a bonus issue of Shares or other securities to existing Shareholders of the Company (other than an issue in lieu or in satisfaction, of dividends or by way of dividend reinvestment):

- (ii) no change will be made to the Exercise Price.

(k) **Adjustment for rights issue**

If the Company makes an issue of Shares pro rata to existing Shareholders of the Company (other than an issue in lieu or in satisfaction, of dividends or by way of dividend reinvestment) the Exercise Price of an Underwriter Option may be reduced according to the following formula:

$$O' = O - \frac{E[P - (S + D)]}{N + 1}$$

Where:

O' = the new Exercise Price of the Underwriter Option.

O = the old Exercise Price of the Underwriter Option.

E = the number of underlying Shares into which one (1) Underwriter Option is exercisable.

P = average market price per Share weighted by reference to volume of the underlying Shares during the five (5) Trading Days ending on the day before the ex-rights date or ex entitlements date.

S = the subscription price of a Share under the pro rata issue.

D = the dividend due but not yet paid on the existing underlying Shares (except those to be issued under the pro rata issue).

(m) **Transferability**

The Underwriter Options are transferable (subject to compliance with any applicable law).

6.3 **Dividend policy**

The Directors are not able to say when and if dividends will be paid in the future, as the payment of any dividends will depend on the future profitability, financial position and cash requirements of the Company and no forecast is made of any of those matters.

7 Additional information

7.1 Continuous disclosure obligations

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities. The New Shares are in the same class as Shares that have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus.

This Prospectus is a 'transaction specific prospectus' to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or operation to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of this Prospectus. In general terms, 'transaction specific prospectuses' are only required to contain information in relation to the effect of the issue of New Securities on the Company and the rights attaching to the New Securities. It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and

 - (iii) any documents used to notify ASX of information relating to the Company in the period from lodgement of the Annual Report until the issue of this Prospectus in accordance with the Listing Rules as referred to in section 674(1) of the Corporations Act.
