

Metro Mining Limited ASX Announcement 16 September 2026

Marketing & Operational Update

KEY HIGHLIGHTS

Metro Mining Limited (ASX: MMI) ('Metro', the 'Company') is pleased to provide the following Operational Update for its Bauxite Hills Mine in Cape York, Far North Queensland:

- **756 thousand Wet Metric Tonnes (WMT) shipped in August 2026**

The offshore floating terminal (OFT), Ikamba returned to full strength in late July and demonstrated its standalone capacity with 756k wmt shipped in August, an 8% increase on the prior month result. Following a successful dry-docking, the TSA Skardon returns to site in mid-September in time to take advantage of the favourable shipping conditions.

Calendar year shipment guidance for 2026 is 6.6 to 7.1 million WMT.

This announcement has been approved by the Chief Executive Officer & Managing Director, Mr Simon Wensley.

Bauxite is the ore used to make aluminium, a critical and strong growth metal in the energy transition. Metro Mining is an independent bauxite producer and explorer, with its 100% owned Bauxite Hills Mine operating on the Weipa bauxite plateau approximately 95 kilometres north of Weipa, near the coast on the Skardon River. Metro Mining produces a high alumina bauxite, shipping direct to customers in very large ore carriers. Metro Mining recognises and has productive agreements with the Traditional Owners of the land on which it operates and is proud of its high percentage of indigenous employees and the economic impact it has in Cape York and Far North Queensland.

Forward-Looking Statements

This announcement may contain 'forward looking statements' concerning the financial conditions, results of operations and business of the Company. All statements other than statements of fact are or may be deemed to be 'forward looking statements'. Often, but not always, 'forward looking statements' can be identified by the use of forward looking words such as 'may', 'will', 'expect', 'intend', 'plan', 'estimate', 'anticipate', 'continue', 'outlook', and 'guidance' or other similar words, and may include, without limitation, statements regarding plans, strategies and objectives of management, future or anticipated production or construction commencement date and expected costs, resources and reserves, exploration results or production outputs. Forward looking statements are statements of future expectations that are based on management's current expectations and assumptions, but known and unknown risks and uncertainties could cause the actual results, performance or events to differ materially from those expressed or implied in these statements. These risks include, but are not limited to, price fluctuations, actual demand, currency fluctuations, drilling and production results, resource and reserve estimates, loss of market, industry competition, environmental risks, physical risks, legislative, fiscal and regulatory developments, economic and financial market conditions in various countries and regions, political risks, project delay or advancement, approvals and cost estimates.
