Northern Care Alliance to implement Alcidion's Miya Precision

Melbourne, Victoria | Alcidion Group Limited (ASX:ALC) ('Alcidion' or the 'Company') today announces it has signed a new contract with Northern Care Alliance NHS Foundation Trust (**NCA**), expanding the existing relationship, with NCA choosing to deploy Miya Flow, across the Trust. All values are presented in Australian dollars, unless otherwise stated¹.

Highlights:

- New expanded contract with NCA, upgrading the existing ExtraMed Flow product at Salford Royal Hospital to Miya Flow and adding additional sites across the Trust
- Total Contract Value (TCV) of \$7.5M over an initial three-year term, with options to extend for a further two years and expand to include additional modules
- In year revenue expected to be recognised is approximately \$4.5M, which includes a 6-month renewal of the Extramed subscription whilst Miya Flow is implemented

Alcidion Managing Director and CEO Kate Quirke said: "We are looking forward to supporting the Northern Care Alliance through the next stage of their patient flow programme. As leaders in patient flow across the UK and ANZ markets, we understand the critical role our solutions can play in reducing friction that leads to flow challenges such as bed blockages, patient outliers and excessive admin burden. Our expanded agreement with NCA will see Miya Flow deployed more broadly across the Trust, replacing and upgrading the existing Extramed capabilities and supporting operational efficiency across multiple sites."

The expanded contract will see Miya Flow deployed at Salford Royal Hospital, replacing the Trust's existing ExtraMed patient flow solution, and to additional sites within NCA. ExtraMed became part of the Alcidion group following its acquisition in 2021.

NCA, one of north-west England's largest healthcare Trusts, provides hospital and community healthcare services across Greater Manchester, including Salford Royal Hospital, Royal Oldham Hospital, Fairfield General Hospital and Rochdale Infirmary. Miya Flow will be implemented across these hospitals.

ENDS

Authorised for ASX release by the Board of Directors of Alcidion Group Limited

About Alcidion

Alcidion Group Limited has a simple purpose: to transform healthcare with proactive, smart, intuitive technology solutions that improve the efficiency and quality of patient care in healthcare organisations worldwide.

Alcidion offers a complementary set of software products and technical services that create a unique offering in the global healthcare market. Based on the flagship product, Miya Precision, the solutions aggregate meaningful information to centralised dashboards, support interoperability, facilitate communication and task management in clinical and operational settings and deliver clinical decision support at the point of care; all in support of Alcidion's mission to improve patient outcomes.

Since listing on the ASX in 2016, Alcidion has acquired multiple healthcare IT companies and now operates across three established markets — Australia, New Zealand and the United Kingdom — serving hospitals and healthcare organisations at scale, with further geographical expansion planned.

With over 25 years of healthcare experience, Alcidion brings together the very best in technology and market knowledge to deliver solutions that make healthcare better for everyone.
