- **Visage 7 platform to be implemented in the cloud.**
- **Transaction-based model with potential upside.**

Leading health imaging company Pro Medicus Limited [ASX: PME] today announced its wholly-owned U.S. subsidiary, Visage Imaging, Inc., has signed a 7-year, A\$24M contract with Billings Clinic – Logan Health based in Montana, serving communities in Montana, Northern Wyoming and the western Dakotas.

Billings Clinic – Logan Health is a unified, not-for-profit independent health system with 25 hospitals and more than 1,000 beds, including 16 regional partnerships with critical access hospitals and clinics.

The new Visage contract will be implemented in the cloud and includes the 'Full Stack' (Visage 7 Viewer, Visage 7 Workflow, Visage 7 Open Archive), providing a single, unified enterprise imaging platform. The agreement also includes migration of legacy PACS archives to Visage 7 Open Archive, as well as distribution of images integrated into Billings Clinic – Logan Health's electronic health record (EHR).

Planning for the rollout is to commence immediately and will be based on Visage's proven cloud-based implementation process, with go-live targeted for Q1 in the 2027 calendar year.

"Billings Clinic – Logan Health provides comprehensive community-focused care to patients across a broad, multi-state, rural area," said Dr Sam Hupert, Pro Medicus CEO. "They join an ever-growing list of Visage 7 clients to opt for our fully cloud-based platform, which, as a result of our CloudPACS strategy, is becoming the standard in the North American healthcare IT market."
